1. Summary of Significant Accounting Policies and Going Concern:

The financial statements of Alamo Title Insurance are presented on the basis of accounting practices prescribed or permitted by the State of Texas Department of Insurance.

A. Accounting Practices:

To the extent possible, the accompanying financial statements have been prepared in substantial conformity with the NAIC Accounting Practices and Procedures manual, except where the laws of the State of Texas differ. Significant variances between Texas basis of accounting and NAIC SAP are: investments in title plants are limited in Texas to 100% of an insurer's capital stock, with the approval of the Commissioner, with a limit of one plant per county, as compared to NAIC SAP which allows the lesser of 20% of admitted assets or 40% of surplus, without a per county limitation; and recovery rates on amounts set aside in the statutory premium reserves differ.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Texas for December 31, 2023 and December 31, 2022 is shown below:

	SSAP#	F/S Page	F/S Line #	12/31/2023	12/31/2022

Statutory Surplus, Texas Basis				\$ 41,899,827	\$ 40,728,698

Title Plants	57	2	13	1,180	1,180
Statutory Surplus, NAIC SAP Basis				\$ 43,100,574	\$ 41,838,223

B. <u>Use of Estimates in the Preparation of the Financial Statements:</u>

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy:

A portion of title insurance premiums written, escrow fees and other title fees is deferred and set aside in the statutory premium reserve which is computed and amortized in accordance with accounting practices prescribed by the Texas Department of Insurance. The remaining portion of title insurance premiums, escrow fees and other title fees are recognized at the time of the closing of the related real estate transaction.

Amounts paid to or retained by title agents are recognized as an expense when incurred.

In addition, the company uses the following accounting policies:

- (1) Short term investments are stated at amortized cost.
- (2) Bonds not backed by other loans are stated at amortized cost using the effective interest method with exception to those bonds with a NAIC designation of 3-6, which are stated at the lower of amortized cost or market value.
- (3) Unaffiliated common stock holdings are stated at NAIC market value.
- (4) Redeemable preferred stocks are stated at amortized cost. Perpetual preferred stocks are stated at fair value. Non-investment grade preferred stocks are stated at the lower of amortized cost or fair value.
- (5) Mortgage Loans on Real Estate are stated at the aggregate carrying value less accrued interest.
- (6) Loan-backed securities, if any, are stated at amortized cost or the lower of amortized cost or market value.

E. The amount of Federal income taxes incurred and available for recoupment in the event of future net losses is:

2021		capital only
2022	1,923,247	
2023	1,228,887	

There were no deposits admitted under IRC Section 6603.

There were no adjustments to deferred tax assets or deferred tax liabilities for enacted changes in tax laws or a change in the status of the Company.

Management asserts that based on the facts and circumstances from all available evidence, both positive and negative, under the guidance of SSAP 101 and the consideration of the four sources of taxable income (future reversals of existing taxable temporary differences, future taxable income exclusive of reversing temporary differences, taxable income in carryback years if carryback is permitted under the tax law, and tax-planning strategies), that due to changes in the market conditions, including rising interest rates, resulted in establishing a valuation allowance on deferred tax assets related to net unrealized capital losses. Otherwise, it is more likely than not that the tax benefit of the Company's gross deferred tax assets as of December 31, 2023 and December 31, 2022 will be realized.

Due to market conditions, a valuation allowance was recorded on the gross deferred tax assets related to net unrealized capital losses in 2023 and 2022. There were no other adjustments to gross deferred tax assets because of a change in circumstances that causes a change in judgment about the realizability of the related deferred tax assets as of December 31, 2023 and December 31, 2022.

The Company has no operating loss carryforwards available for tax purposes in the tax years 2023 and 2022.

The Company has a capital loss carryforward with a valuation allowance for tax purposes in the tax years 2023 and 2022.

F. The Company is included in a consolidated federal income tax return with its parent company, Fidelity National Financial, Inc (FNFI). The Company has a written agreement, approved by the Company's Board of Directors, which sets forth the manner in which the total combined federal income tax is allocated to each entity that is a party to the consolidation. Pursuant to this agreement, the Company computes its tax as though the Company pays tax on a stand alone basis except that the Company is reimbursed for losses generated that can be used in the consolidated FNFI return. For complete list of names of the entities with whom the Company's federal income tax return is consolidated for the current year and prior year, see the Company's 2023 Annual Statement and 2022 Annual Statement, respectively.

The Inflation Reduction Act created the corporate alternative minimum tax (CAMT), which imposes a 15% minimum tax on the adjusted financial statement income of large corporations for taxable years beginning after December 31, 2022. The Company is subject to CAMT, but does not expect to incur a CAMT liability.

- G. The Internal Revenue Service (IRS) has selected FNFI to participate in the Compliance Assurance Program (CAP) that is a real-time audit. The IRS has completed its examination of FNFI's tax returns for tax years through December 31, 2021, which resulted in no material adverse changes to any member of the FNF consolidated group. The IRS is currently reviewing the 2022 tax year and management believes the ultimate resolution of the examination will not result in a material adverse effect to our financial position or results of operations. In 2023, FNFI was moved into the Bridge Plus phase of the CAP program. There will be some level of review by the IRS and a closing letter will be provided.

- I. Alternative Minimum Tax (AMT) Credits Not applicable.

09/28/2023 \$ 4,000,000 \$ 4,000,000

The Company is party to a Tax Sharing Agreement (the "TSA"), dated April 29, 2021, among the Company, FNF and affiliates, and its First Amendment to the Tax Sharing Agreement (the "First Amendment"), dated November 3, 2021. The TSA replaces the prior tax sharing agreement, dated December 21, 2012, and its First Amendment dated January 2, 2014. The TSA promotes corporate efficiencies through a single agreement encompassing all parties listed in the agreement and the Form 851, which is updated annually. The TSA incorporates state-specific provisions, previously incorporated through addendum, applicable to those parties domesticated in New York and Texas. The purpose of the First Amendment was to add Rocky Mountain Insurance Company, a Vermont domiciled insurance company, as a party.

The Company entered into a Second Amended and Restated Master Services Agreement ("MSA") on November 15, 2021 by and between the Company, FNF and affiliates. The MSA provides for the efficient coordination of administrative functions and helps avoid unnecessarily duplication of operations. The purpose of the amendment was to add Rocky Mountain Insurance Company, a Vermont domiciled insurance company, as a party, to include additional services rendered under Section 1.B (General Corporate Services) and to modify Schedule A to reflect those Non-Insurer Subsidiaries included in the Form 851, as updated annually. This MSA replaces the Amended and Restated Master Services Agreement dated May 4, 2017.

The Company is party to an Amended and Restated Allocation Agreement relative to Excess of Loss Program, dated May 1, 2017, by and between the Company, FNF and affiliates. The Amended and Restated Allocation Agreement, provides for FNF, as the ultimate parent of all parties, to negotiate, enter into, and administer on behalf of the parties, contracts of reinsurance providing excess of loss reinsurance coverage. The Company filed its notice of transaction for the incorporation of updated schedules containing a list of non-insurer subsidiaries and excess of loss reinsurance contracts with the Texas Department of Insurance on March 1, 2023. Throughout 2023 and 2022, FNF was party to the following excess of loss reinsurance contracts, entered into through Guy Carpenter & Company, LLC and Gallagher Re Inc. (f/k/a Willis Re Inc.) as Intermediaries (collectively, the "Reinsurance Contracts"): First Excess of Loss Reinsurance Contract, Second Excess of Loss Reinsurance Contract, Third Excess of Loss Reinsurance Contract and Fourth Excess of Loss Reinsurance Contract.

- F. All Other Contingencies:

In the ordinary course of business, we are involved in various pending and threatened litigation matters related to our operations, some of which include claims for punitive or exemplary damages. This customary litigation includes but is not limited to a wide variety of cases arising out of or related to title and escrow claims, for which we make provisions through our loss reserves. Additionally, like other insurance companies, our ordinary course litigation includes a number of class action and purported class action lawsuits, which make allegations related to aspects of our insurance operations. We believe that no actions depart from customary litigation incidental to our business.

We review lawsuits and other legal and regulatory matters (collectively "legal proceedings") on an ongoing basis when making accrual and disclosure decisions. When assessing reasonably possible and probable outcomes, management bases its decision on its assessment of the ultimate outcome assuming all appeals have been exhausted. For legal proceedings in which it has been determined that a loss is both probable and reasonably estimable, a liability based on known facts and which represents our best estimate has been recorded. None of the amounts we have currently recorded are considered to be material to our financial condition individually or in the aggregate. Actual losses may materially differ from the amounts recorded and the ultimate outcome of our pending legal proceedings is generally not yet determinable. While some of these matters could be material to our operating results or cash flows for any particular period if an unfavorable outcome results, at present we do not believe that the ultimate resolution of currently pending legal proceedings, either individually or in the aggregate, will have a material adverse effect on our financial condition.

From time to time, we receive inquiries and requests for information from state insurance departments, attorneys general and other regulatory agencies about various matters relating to our business. Sometimes these take the form of civil investigative demands or subpoenas. We cooperate with all such inquiries and we have responded to or are currently responding to inquiries from multiple governmental agencies. Also, regulators and courts have been dealing with issues arising from foreclosures and related processes and documentation. Various governmental entities are studying the title insurance product, market, pricing, and business practices, and potential regulatory and legislative changes, which may materially affect our business and operations. From time to time, we are assessed fines for violations of regulations or other matters or enter into settlements with such authorities, which may require us to pay fines or claims or take other actions. We do not anticipate such fines and settlements, either individually or in the aggregate, will have a material adverse effect on our financial condition.

20. Fair Value Measurements:

A. Valuation Techniques for Fair Value Measurement

The Company's Level 2 fair value measures for preferred stocks and bonds are provided by third-party pricing services. The Company utilizes one firm for the taxable bond portfolio and another for the tax-exempt bond portfolio. These pricing services are leading global providers of financial market data, analytics and related services to financial institutions. The Company relies on one price for each instrument to determine the fair value. The inputs utilized in these pricing methodologies include observable measures such as benchmark yields, reported trades, broker dealer quotes, issuer spreads, two sided markets, benchmark securities, bids, offers and reference data including market research publications. The Company reviews the pricing methodologies for all Level 2 securities by obtaining an understanding of the valuation models and assumptions used by the third-party as well as independently comparing the resulting prices to other publicly available measures of fair value and internally developed models. The pricing methodologies used by the relevant third party pricing services are:

U.S. government and government agencies: These securities are valued based on data obtained for similar securities in active markets and from inter-dealer brokers.

States, territories, possessions, political subdivisions, special revenue and special assessment obligations: These securities are valued based on data obtained for similar securities in active markets and from inter-dealer brokers. Factors considered include relevant trade information, dealer quotes and other relevant market data.

Industrial and miscellaneous securities: These securities are valued based on dealer quotes and related market trading activity. Factors considered include the bond's yield, its terms and conditions, or any other feature which may influence its risk and thus marketability, as well as relative credit information and relevant sector news.

Mortgage-backed/asset-backed securities: These securities are comprised of commercial mortgage-backed securities, agency mortgage-backed securities, collateralized mortgage obligations, and asset-backed securities. They are valued based on available trade information, dealer quotes, cash flows, relevant indices and market data for similar assets in active markets.

Preferred stocks: These securities are valued by calculating the appropriate spread over a comparable U.S. Treasury security. Inputs include benchmark quotes and other relevant market data.

- F. Subprime-Mortgage-Related Risk Exposure:
 - (1) The subprime lending sector, also referred to as B-paper, near-prime, or second chance lending, is the sector of the mortgage lending industry which lends to borrowers who do not qualify for prime market interest rates because of poor or insufficient credit history. The term also refers to paper taken on property that cannot be sold on the primary market, including loans on certain types of investment properties and certain types of self-employed individuals. Instability in the domestic and international credit markets due to problems in the subprime sector dictates the need for additional information related to exposure to subprime mortgage related risk

For purposes of this disclosure, subprime exposure is defined as the potential for financial loss through direct investment, indirect investment, or underwriting risk associated with risk from the subprime lending sector. For purposes of this note, subprime exposure is not limited solely to the risk associated with holding direct mortgage loans, but also includes any indirect risk through investments in debt securities, asset backed or structured securities, hedge funds, common stock, subsidiaries and affiliates, and insurance product issuance. Although it can be difficult to determine the indirect risk exposures, it should be noted that not only does it include expected losses; it also includes the potential for losses that could occur due to significantly depressed fair value of the related assets in an illiquid market.

As it relates to the exposure described above, the following information is disclosed:

- (2) Direct exposure through investments in subprime mortgage loans None.
- (3) Direct exposure through other investments- None.
- (4) Underwriting exposure to subprime mortgage risk None.

As of December 31, 2023, \$2.7 million has been paid for incurred losses and loss adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$1.5 million as a result of re-estimation of unpaid claims and claim adjustment expenses. Therefore, there has been a \$1.8 million unfavorable (favorable) prior-year development since December 31, 2022. The increase (decrease) is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known regarding individual claims.
