Stockholders' Equity	\$ 2,806	\$ 3,244	\$ 3,474

TO OUR SHAREHOLDERS

2008 will go down as one of the most difficult economic environments for the United States in at least several generations. On top of the horrible macroeconomic backdrop, the significant declines in the mortgage and real estate markets throughout the country severely impacted the title insurance industry. We spent much of 2008 reducing expenses throughout our title insurance operations, both in the form of reducing personnel expenses, as well as through the closure of a number of title and escrow offices. While it is always difficult to shrink the size of your workforce, the situation in the mortgage and real estate markets forced us to do so in order to maximize profitability on behalf of our shareholders.

While 2008 was a challenging year, there were two positive events that occurred during the month of December that provide momentum and renewed optimism as we make our way through the early part of 2009. First, we closed on the acquisition of Commonwealth Land Title, Lawyers Title and United Capital Title on December 22, 2008. The acquisition of these underwriters makes FNF the nation's largest title insurer by market share. We now have reserve for claim losses of more

than \$2.7 billion, which is approximately twice that of any other title company, reserves plus stockholders' equity of approximately \$5.5 billion and a cash and investment portfolio of nearly \$4.7 billion. We have been very impressed with the experience, expertise and professionalism of the employees of all of the acquired underwriters and look forward to their significant future contribution to the success of the Fidelity family of title insurance underwriters.

The second positive event has been the significant increase in open order counts that began in December and has continued into the early stages of 2009. Absolute total open order counts more than doubled in December versus their November level, with per day open orders increasing by approximately sixty-five percent. January open order counts improved an additional fifty percent further from the significant December increase. We continue to experience solid order count levels in February and early March that will provide momentum for increased order closings and revenue as we enter the spring. The significantly stronger order count levels and the acquisition of Commonwealth Land Title, Lawyers Title and United Capital Title both

provide significant opportunities for our title business as we move into 2009.

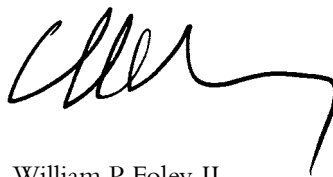

Our specialty insurance business had a solid year in 2008, despite the difficult economic times. They produced more than \$380 million in revenue and nearly \$35 million in pre-tax profits. Our flood insurance business benefited from the processing of significant claims related to several hurricanes that hit the United States in late summer. In the homeowner's business, we continued to tighten underwriting standards and eliminated some unprofitable agents and territories, as we remain supremely focused on profitability over absolute revenue growth.

Our two major minority-owned companies both had successful years in different ways. Sedgwick CMS, our thirty-two percent owned worker's compensation claims management company, showed strong revenue and margin growth in 2008, as annual revenues are now approximately \$700 million and the EBITDA margin reached more than seventeen percent in the fourth quarter of 2008. Ceridian, our thirty-three percent owned payroll processing company, made significant strides in its cost reduction and margin improvement strategy during 2008. Despite operating through a difficult economic environment, Ceridian

improved EBITDA margins to twenty-three percent, as we ended 2008 with annual revenue of approximately \$1.6 billion. We expect both companies to continue their strong performances in 2009.

In October 2008, we made the decision to reduce our common stock dividend by fifty percent. The significant slowdown in the title business throughout 2008 hindered our ability to produce the cash flow necessary to maintain our dividend at its former level. The reduction in the dividend at that time provided the flexibility for us to better navigate our way through the challenging times, generated additional significant liquidity and ensured the continued strength of our balance sheet. We anticipate maintaining the \$0.15 dividend through 2009.

While 2008 was a challenging year, we enter 2009 with optimism and momentum. As always, we remain committed to our ultimate goal of continuing to create value for our shareholders. We appreciate your support and look forward to a successful 2009.

William P. Foley, II
Chairman of the Board

At Fidelity National Financial, the security of our policyholders is always the main priority. Our underwriters, which include Fidelity National Title, Chicago Title, Commonwealth Land Title, Lawyers Title, Ticor Title, Alamo Title and Security Union Title, issue title insurance policies that allow for the efficient transfer of title in a real estate transaction. Our policies protect both the buyer and the mortgage lender from an undiscovered event that has already occurred in the past that might affect the legal right to the title on the property in the future, providing the protection and peace of mind that owners of a home deserve. We believe that we provide protection that goes beyond just the financial interest in our customer's homes.

PROTECTION

RELATIONSHIPS

With a proud history dating back more than 150 years, Fidelity National Financial is the leading title insurance company in the United States. The key to our long-term success is the relationships we have built with our customers by offering meaningful, customized products and exhibiting a passion for finding solutions to unique customer issues. The foundation of these relationships begins with our corporate precepts – Autonomy and Entrepreneurship, Bias for Action, Customer Oriented and Motivated, Minimize Bureaucracy, Employee Ownership and Highest Standard of Conduct. These simple qualities translate into the strongest long-term relationships in the industry and foster the creation of further relationships for our policyholders.

Fidelity National Financial provides an unrivaled level of financial strength for the benefit of its policyholders, both commercial and residential. Simply stated, we are the largest title insurer in the United States. Our reserve for claim losses of \$2.7 billion dollars exceeds the total reserves of the next three largest title insurers combined and is double the level of our next closest competitor. Combined reserves and stockholders' equity of \$5.5 billion again exceed the combined level of the next three largest title insurers. Finally, our highly liquid investment portfolio of \$4.7 billion protects the future interests of our policyholders and again exceeds the combined investment assets of the next three largest title insurers. FNF clearly provides an unmatched level of protection, security and financial strength for its policyholders.

PART I

Item 1. *Business*

We are a holding company that is a provider, through our subsidiaries, of title insurance, specialty insurance, claims management services, and information services. Following our acquisition of Commonwealth Land Title Insurance Company (“Commonwealth”) and Lawyers Title Insurance Corporation (“Lawyers”), we are the nation’s largest title insurance company through our title insurance underwriters — Fidelity National Title, Chicago Title, Commonwealth Land Title, Lawyers Title, Ticor Title, Security Union Title, and Alamo Title — which collectively issued more title insurance policies in 2007 than any other title company in the United States. We also provide flood insurance, personal lines insurance, and home warranty insurance through our specialty insurance subsidiaries. We are also a leading provider of outsourced claims management services to large corporate and public sector entities through our minority-owned affiliate, Sedgwick CMS Holdings (“Sedgwick”) and a provider of information services in the human resources, retail, and transportation markets through another minority-owned affiliate, Ceridian Corporation (“Ceridian”).

On December 22, 2008, we completed the acquisition of LandAmerica Financial Group, Inc.’s (“LFG”) two principal title insurance underwriters, Commonwealth and Lawyers, as well as United Capital Title Insurance Company (“United”) (collectively, the “LFG Underwriters”). As a result, the results of operations of the companies acquired are included in our results of operations for the period from December 22 through December 31, 2008. For more information on this acquisition, see note B of Notes to Consolidated Financial Statements.

Prior to October 24, 2006, we were known as Fidelity National Title Group, Inc. (“FNT”) and were a majority-owned subsidiary of another publicly traded company, also called Fidelity National Financial, Inc. (“Old FNF”). On October 24, 2006, Old FNF transferred certain assets to us in return for the issuance of 45,265,956 shares of our common stock to Old FNF. Old FNF then distributed to its shareholders all of its shares of our common stock, making FNT a stand alone public company (the “2006 Distribution”). On November 9, 2006, Old FNF was then merged with and into another of its subsidiaries, Fidelity National Information Services, Inc. (“FIS”), after which our name was changed to Fidelity National Financial, Inc. (“we,” “FNF” or the “Company”). On November 10, 2006, our common stock began trading on the New York Stock Exchange under the trading symbol “FNF.” On July 2, 2008, FIS completed the spin-off of its former Lender Processing Services operating segment into a separate publicly traded company, referred to as LPS, by distributing all of its shares of LPS to FIS shareholders through a stock dividend. Old FNF’s chairman of the board and chief executive officer is now our chairman of the board, the executive chairman of the board of FIS, and the chairman of the board of LPS. Other key members of Old FNF’s senior management have also continued their involvement at FNF, FIS, and LPS in executive capacities. Under applicable accounting principles, following these transactions, Old FNF’s historical financial statements, with the exception of equity and earnings per share, became our historical financial statements, including the results of FIS through the date of our spin-off from Old FNF. For periods prior to October 24, 2006 our equity has been derived from FNT’s historical equity and our historical basic and diluted earnings per share have been calculated using FNT’s basic and diluted weighted average shares outstanding.

We currently have three reporting segments as follows:

- *Fidelity National Title Group.* This segment consists of the operations of our title insurance underwriters and related businesses. This segment provides core title insurance and escrow and other title-related services including collection and trust activities, trustee’s sales guarantees, recordings and reconveyances.
- *Specialty Insurance.* The specialty insurance segment consists of certain subsidiaries that issue flood, home warranty, homeowners, automobile and other personal lines insurance policies.
- *Corporate and Other.* The corporate and other segment consists of the operations of the parent holding company, certain other unallocated corporate overhead expenses, other smaller operations, and the Company’s share in the operations of certain equity investments, including Sedgwick, Ceridian, and Remy International, Inc. (“Remy”).

Through October 23, 2006, the Company’s results also included the operations of FIS as a separate segment. This segment provided transaction processing services, consisting principally of technology solutions for banks and

other financial institutions, credit and debit card services and check risk management and related services for retailers and others. This segment also provided lender processing services, consisting principally of technology solutions for mortgage lenders, selected mortgage origination services, title agency and closing services, default management and mortgage information services. FIS's credit and debit card services and check risk management services were added through its merger with Certegy Inc. ("Certegy"). This merger closed in February 2006 and these businesses are not included in the financial information in this report for periods prior to February 1, 2006.

Strategy

Fidelity National Title Group

Our strategy in the title insurance business is to maximize operating profits by increasing our market share and managing operating expenses throughout the real estate business cycle. To accomplish our goals, we intend to:

- *Continue to operate each of our seven title brands independently.* We believe that in order to maintain and strengthen our title insurance customer base, we must leave the Fidelity National Title, Chicago Title, Commonwealth Land Title, Lawyers Title, Ticor Title, Security Union Title and Alamo Title brands intact and operate these brands independently. In most of our largest markets, we operate two, and in a few cases as many as five, brands, including the brands acquired with the LFG Underwriters. This approach allows us to continue to attract customers who identify with one brand over another and allows us to utilize a broader base of local agents and local operations than we would have with a single consolidated brand.
- *Consistently deliver superior customer service.* We believe customer service and consistent product delivery are the most important factors in attracting and retaining customers. Our ability to provide superior customer service and provide consistent product delivery requires continued focus on providing high quality service and products at competitive prices. Our goal is to continue to improve the experience of our customers in all aspects of our business.
- *Manage our operations successfully through business cycles.* We operate in a cyclical business and our ability to diversify our revenue base within our core title insurance business and manage the duration of our investments may allow us to better operate in this cyclical business. Maintaining a broad geographic revenue base, utilizing both direct and independent agency operations and pursuing both residential and commercial title insurance business help diversify our title insurance revenues. Maintaining shorter durations on our investment portfolio allows us to mitigate our interest rate risk and, in a rising interest rate environment, to increase our investment revenue, which may offset some of the decline in premiums and service revenues we would expect in such an environment. For a more detailed discussion of our investment strategies, see "Investment Policies and Investment Portfolio."
- *Continue to improve our products and technology.* As a national provider of real estate transaction products and services, we participate in an industry that is subject to significant change, frequent new product and service introductions and evolving industry standards. We believe that our future success will depend in part on our ability to anticipate industry changes and offer products and services that meet evolving industry standards. In connection with our service offerings, we are continuing to deploy new information system technologies to our direct and agency operations. We expect to improve the process of ordering title and escrow services and improve the delivery of our products to our customers.
- *Maintain values supporting our strategy.* We believe that our continued focus on and support of our long-established corporate culture will reinforce and support our business strategy. Our goal is to foster and support a corporate culture where our agents and employees seek to operate independently and profitably at the local level while forming close customer relationships by meeting customer needs and improving customer service. Utilizing a relatively flat managerial structure and providing our employees with a sense of individual ownership supports this goal.
- *Effectively manage costs based on economic factors.* We believe that our focus on our operating margins is essential to our continued success in the title insurance business. Regardless of the business cycle in which we may be operating, we seek to continue to evaluate and manage our cost structure and make appropriate adjustments where economic conditions dictate. This continual focus on our cost structure helps us to better maintain our operating margins.

Specialty Insurance

Our strategy in the specialty insurance business is to provide an efficient and effective delivery mechanism for property insurance policies placed directly and through independent agents. We are positioned to be a low expense provider, while continuing to strictly adhere to pricing and underwriting disciplines to maintain our underwriting profitability.

- We offer coverage under the U.S. National Flood Insurance Program (“NFIP”) through Fidelity National Property and Casualty Insurance Company, which provides flood insurance in all 50 states. We are the largest provider of NFIP flood insurance in the U.S. through our independent agent network.
- We provide an efficient methodology for obtaining insurance on newly acquired homes, whether new construction or upon resale. We have an easy to use fully integrated website, which our agents use as a completely paperless and fully automated quoting and policy delivery system. This system is in use for all of our property products, including flood insurance.
- Our underwriting practice is conservative. Catastrophe exposure is closely managed on a real time basis. We also buy reinsurance to assist in maintaining our profitability and growing our surplus.

Possible Acquisitions, Dispositions, Minority Owned Operating Subsidiaries and Financings

With assistance from our advisors, on an ongoing basis we actively evaluate possible strategic transactions, such as acquisitions and dispositions of business units and operating assets and business combination transactions, as well as possible means of financing the growth and operations of our business units or raising funds, through securities offerings or otherwise, for debt repayment or other purposes. In the current economic environment, we may seek to sell certain investments or other assets to increase our liquidity. Our Board of Directors has authorized us to investigate strategic alternatives for certain of our specialty insurance businesses. The assets to be evaluated include the flood insurance and personal lines insurance businesses, but not the home warranty business. Further, our management has stated that we may make acquisitions in lines of business that are not directly tied to or synergistic with our core operating segments. There can be no assurance, however, that any suitable opportunities will arise or that any particular transaction will be completed.

Acquisitions

Strategic acquisitions have been an important part of our growth strategy. We made a number of acquisitions over the past three years to strengthen and expand our service offerings and customer base in our various businesses, to expand into other businesses or where we otherwise saw value.

Acquisition of the LFG Underwriters. On December 22, 2008, we completed the acquisition of the LFG Underwriters. The total purchase price for Commonwealth and Lawyers was \$238.0 million, net of cash acquired of \$8.8 million, and was comprised of \$134.8 million paid in cash by two of our title insurance underwriters, Fidelity National Title Insurance Company and Chicago Title Insurance Company, a \$50 million subordinated note due in 2013 (see note I of Notes to Consolidated Financial Statements), and \$50 million in FNF common stock (3,176,620 shares valued at \$15.74 per share at the time of closing). In addition, Fidelity National Title Insurance Company purchased United from an indirect subsidiary of LFG for a purchase price of approximately \$12 million, equal to an estimate (subject to post-closing adjustment) of the statutory net worth of United at the time of closing.

Acquisition of Equity Interest in Ceridian. On November 9, 2007, we and Thomas H. Lee Partners, L.P. (“THL”), along with certain co-investors, completed the acquisition of Ceridian for \$36 in cash per share of common stock, or approximately \$5.3 billion. We contributed approximately \$527 million of the total \$1.6 billion equity funding for the acquisition of Ceridian, resulting in a 33% ownership interest by us, which we account for using the equity method of accounting for financial statement purposes. Ceridian is an information services company servicing the human resources, transportation, and retail industries. Specifically, Ceridian offers a range of human resources outsourcing solutions and is a payment processor and issuer of credit, debit, and stored-value cards.

Property Insight, LLC. On August 31, 2007, we completed the acquisition of Property Insight, LLC (“Property Insight”), a former FIS subsidiary, from FIS for \$95 million in cash. Property Insight is a leading provider of title plant services for us, as well as various national and regional underwriters. Property Insight primarily manages, maintains, and updates the title plants that are owned by us. Additionally, Property Insight manages potential title plant construction activities for us.

ATM Holdings, Inc. On August 13, 2007, we completed the acquisition of ATM Holdings, Inc. (“ATM”), a provider of nationwide mortgage vendor management services to the loan origination industry, for \$100 million in cash. ATM’s primary subsidiary is a licensed title insurance agency which provides centralized valuation and appraisal services, as well as title and closing services, to residential mortgage originators, banks and institutional mortgage lenders throughout the United States.

Equity Interest in Remy. We held an investment in Remy’s Senior Subordinated Notes (the “Notes”) with a total fair value of \$139.9 million until December 6, 2007, at which time Remy implemented a pre-packaged plan of bankruptcy under Chapter 11 of the Bankruptcy Code. Pursuant to the plan of bankruptcy, the Notes were converted into 4,935,065 shares of Remy common stock and rights to buy 19,909 shares of Remy Series B preferred stock. Upon execution of the plan of bankruptcy, the Company purchased all 19,909 shares of the preferred stock for \$1,000 per share, or a total of \$19.9 million, and then sold 1,000 of those shares to William P. Foley, II, the Company’s chairman of the board, for \$1,000 per share, or a total of \$1.0 million. The Company now holds a 47% ownership interest in Remy, made up of 4,935,065 shares of Remy common stock with a cost basis of \$64.3 million and 18,909 shares of purchased Remy Series B preferred stock with a cost basis of \$19.5 million. We account for our investment in Remy using the equity method. As a result of the exchange of the Notes for the shares of common and preferred stock, the Company reversed the unrealized gain of \$75.0 million that had previously been recorded in accumulated other comprehensive earnings in relation to the Notes. Remy, headquartered in Anderson, Indiana, is a leading manufacturer, remanufacturer and distributor of Delco Remy brand heavy-duty systems and Remy brand starters and alternators, locomotive products and hybrid power technology.

Cascade Timberlands LLC. During 2006, we purchased equity interests in Cascade Timberlands LLC (“Cascade Timberlands”) totaling 71% of Cascade Timberlands. As of December 31, 2008, we owned approximately 70% of the outstanding interests of Cascade Timberlands which was purchased for \$88.5 million. The primary assets of Cascade Timberlands are approximately 266,909 acres of productive timberlands located on the eastern side of the Cascade mountain range extending from Bend, Oregon south on State Highway 20 toward the California border. Cascade Timberlands was created by the secured creditors of Crown Pacific LP upon the conclusion of the bankruptcy case of Crown Pacific LP in December 2004.

Acquisition of Equity Interest in Sedgwick. On January 31, 2006, we, along with our equity partners, THL and Evercore Capital Partners, completed the acquisition of Sedgwick, which resulted in FNF obtaining a 40% interest in Sedgwick for approximately \$126 million. In September 2006, we invested an additional \$6.8 million in Sedgwick, maintaining our 40% ownership interest. During 2008, we sold 20% of our interest in Sedgwick (reducing our interest in Sedgwick from 40% to 32%) for proceeds of \$53.9 million, resulting in a gain of \$24.8 million. Sedgwick, headquartered in Memphis, Tennessee, is a leading provider of outsourced insurance claims management services to large corporate and public sector entities.

Title Insurance

Market for title insurance. While we have seen declines during 2007 and 2008 in the title insurance market in the United States, the market remains large and grew significantly from 1995 until 2005. Demotech Inc. (“Demotech”), an independent firm providing services to the insurance industry, publishes an annual compilation of financial information from the title insurance industry called *Demotech Performance of Title Insurance Companies*. According to this publication, total operating income for the entire U.S. title insurance industry grew from \$4.8 billion in 1995 to \$17.8 billion in 2005 and then decreased to \$17.6 billion in 2006 and to \$15.2 billion in 2007. Growth in the industry is closely tied to various macroeconomic factors, including, but not limited to, growth in the gross domestic product, inflation, interest rates and sales of and prices for new and existing homes, as well as the volume of refinancing of previously issued mortgages.

Most real estate transactions consummated in the U.S. require the use of title insurance by a lending institution before the transaction can be completed. Generally, revenues from title insurance policies are directly correlated with the value of the property underlying the title policy, and appreciation in the overall value of the real estate market helps drive growth in total industry revenues. Industry revenues are also driven by factors affecting the volume of residential real estate closings, such as the state of the economy, the availability of mortgage funding, and changes in interest rates, which affect demand for new mortgage loans and refinancing transactions. Both the volume and the average price of residential real estate transactions have experienced significant declines in many parts of the country, and it is uncertain how long these trends will continue. In 2008, the sharply rising mortgage delinquency and default rates have caused negative operating results at a number of banks and financial institutions and, as a result, have significantly reduced the level of lending activity. Several banks have failed in recent months and others may fail in the short to medium term, further reducing the capacity of the mortgage industry to make loans. Our revenues in future periods will continue to be subject to these and other factors which are beyond our control and, as a result, are likely to fluctuate.

The U.S. title insurance industry is concentrated among a handful of industry participants. According to Demotech the top five title insurance companies (which included FNF and LFG) accounted for 92.8% of net premiums collected in 2007. Over 40 independent title insurance companies accounted for the remaining 7.2% of net premiums collected in 2007. Over the years, the title insurance industry has been consolidating, beginning with the merger of Lawyers and Commonwealth in 1998 to create LFG, followed by our acquisition of Chicago Title in March 2000. Then, in December 2008, we acquired LFG's two principal title insurance underwriters, Commonwealth and Lawyers, as well as United. Consolidation has created opportunities for increased financial and operating efficiencies for the industry's largest participants and should continue to drive profitability and market share in the industry.

Title Insurance Policies. Generally, real estate buyers and mortgage lenders purchase title insurance to insure good and marketable title to real estate and priority of lien. A brief generalized description of the process of issuing a title insurance policy is as follows:

- The customer, typically a real estate salesperson or broker, escrow agent, attorney or lender, places an order for a title policy.
- Company personnel note the specifics of the title policy order and place a request with the title company or its agents for a preliminary report or commitment.
- After the relevant historical data on the property is compiled, the title officer prepares a preliminary report that documents the current status of title to the property, any exclusions, exceptions and/or limitations that the title company might include in the policy, and specific issues that need to be addressed and resolved by the parties to the transaction before the title policy will be issued.
- The preliminary report is circulated to all the parties for satisfaction of any specific issues.
- After the specific issues identified in the preliminary report are satisfied, an escrow agent closes the transaction in accordance with the instructions of the parties and the title company's conditions.
- Once the transaction is closed and all monies have been released, the title company issues a title insurance policy.

In a real estate transaction financed with a mortgage, virtually all real property mortgage lenders require their borrowers to obtain a title insurance policy at the time a mortgage loan is made. This lender's policy insures the lender against any defect affecting the priority of the mortgage in an amount equal to the outstanding balance of the related mortgage loan. An owner's policy is typically also issued, insuring the buyer against defects in title in an amount equal to the purchase price. In a refinancing transaction, only a lender's policy is generally purchased because ownership of the property has not changed. In the case of an all-cash real estate purchase, no lender's policy is issued but typically an owner's title policy is issued.

Title insurance premiums paid in connection with a title insurance policy are based on (and typically a percentage of) either the amount of the mortgage loan or the purchase price of the property insured. Applicable state insurance regulations or regulatory practices may limit the maximum, or in some cases the minimum, premium that

can be charged on a policy. Title insurance premiums are due in full at the closing of the real estate transaction. The lender's policy generally terminates upon the refinancing or resale of the property.

The amount of the insured risk or "face amount" of insurance under a title insurance policy is generally equal to either the amount of the loan secured by the property or the purchase price of the property. The title insurer is also responsible for the cost of defending the insured title against covered claims. The insurer's actual exposure at any given time, however, generally is less than the total face amount of policies outstanding because the coverage of a lender's policy is reduced and eventually terminated as a result of payment of the mortgage loan. A title insurer also generally does not know when a property has been sold or refinanced except when it issues the replacement coverage. Because of these factors, the total liability of a title underwriter on outstanding policies cannot be precisely determined.

Title insurance companies typically issue title insurance policies directly through branch offices or through title agencies which are subsidiaries of the title insurance company, or indirectly through independent third party agencies unaffiliated with the title insurance company. Where the policy is issued through a branch or wholly-owned subsidiary agency operation, the title insurance company typically performs or directs the search, and the premiums collected are retained by the title company. Where the policy is issued through an independent agent, the agent generally performs the search (in some areas searches are performed by approved attorneys), examines the title, collects the premium and retains a majority of the premium. The remainder of the premium is remitted to the title insurance company as compensation, part of which is for bearing the risk of loss in the event a claim is made under the policy. The percentage of the premium retained by an agent varies from region to region and is sometimes regulated by the states. The title insurance company is obligated to pay title claims in accordance with the terms of its policies, regardless of whether the title insurance company issues policies through its direct operations or through independent agents.

Prior to issuing policies, title insurers and their agents attempt to reduce the risk of future claim losses by accurately performing searches and examinations. A title insurance company's predominant expense relates to such searches and examinations, the preparation of preliminary title reports, policies or commitments, the maintenance of title "plants," which are indexed compilations of public records, maps and other relevant historical documents, and the facilitation and closing of real estate transactions. Claim losses generally result from errors made in the title search and examination process, from hidden defects such as fraud, forgery, incapacity, or missing heirs of the property, and from closing related errors.

Residential real estate business results from the construction, sale, resale and refinancing of residential properties, while commercial real estate business results from similar activities with respect to properties with a business or commercial use. Commercial real estate title insurance policies insure title to commercial real property, and generally involve higher coverage amounts and yield higher premiums. Residential real estate transaction volume is primarily affected by macroeconomic and seasonal factors while commercial real estate transaction volume is affected primarily by fluctuations in local supply and demand conditions for commercial space.

Direct and Agency Operations. We provide title insurance services through our direct operations and through independent title insurance agents who issue title policies on behalf of our title insurance companies. Our title insurance companies determine the terms and conditions upon which they will insure title to the real property according to their underwriting standards, policies and procedures.

Direct Operations. In our direct operations, the title insurer issues the title insurance policy and retains the entire premium paid in connection with the transaction. Our direct operations provide the following benefits:

- higher margins because we retain the entire premium from each transaction instead of paying a commission to an independent agent;
- continuity of service levels to a broad range of customers; and
- additional sources of income through escrow and closing services.

Prior to the acquisition of the LFG Underwriters, we had over 1,000 offices throughout the U.S. primarily providing residential real estate title insurance. With the acquisition of the LFG underwriters on December 22, 2008, we added approximately 500 direct offices, of which approximately 180 have been eliminated. Management

is currently in the process of analyzing certain of these direct offices to determine how many additional offices may be eliminated. During 2008 and 2007, as title insurance activity has decreased, we have closed and consolidated a number of our offices. Our commercial real estate title insurance business is operated almost exclusively through our direct operations. We maintain direct operations for our commercial title insurance business in all the major real estate markets including New York, Los Angeles, Chicago, Atlanta, Dallas, Philadelphia, Phoenix, Seattle and Houston.

Agency Operations. In our agency operations, the search and examination function is performed by an independent agent or the agent may purchase the search and examination from us. In either case, the agent is responsible to ensure that the search and examination is completed. The agent thus retains the majority of the title premium collected, with the balance remitted to the title underwriter for bearing the risk of loss in the event that a claim is made under the title insurance policy. Independent agents may select among several title underwriters based upon their relationship with the underwriter, the amount of the premium “split” offered by the underwriter, the overall terms and conditions of the agency agreement and the scope of services offered to the agent. Premium splits vary by geographic region, and in some states are fixed by insurance regulatory requirements. Our relationship with each agent is governed by an agency agreement defining how the agent issues a title insurance policy on our behalf. The agency agreement also sets forth the agent’s liability to us for policy losses attributable to the agent’s errors. An agency agreement is usually terminable without cause upon 30 days’ notice or immediately for cause. In determining whether to engage or retain an independent agent, we consider the agent’s experience, financial condition and loss history. For each agent with whom we enter into an agency agreement we maintain financial and loss experience records. We also conduct periodic audits of our agents and periodically decrease the number of agents with which we transact business in an effort to reduce future expenses and manage risks. During 2008, prior to the acquisition of the LFG Underwriters, we decreased the number of agents with which we transact business by approximately 1,300. With the acquisition of the LFG Underwriters on December 22, 2008, we added a total of approximately 7,000 agency relationships. Since that acquisition, we have terminated our agreements with approximately 3,000 of those agents and we expect to terminate our agreements with an additional 500 agents. During 2007, we reduced the number of agents with which we transact business by over 1,000.

Fees and Premiums. One method of analyzing our business is to examine the level of premiums generated by direct and agency operations. The following table presents the percentages of our title insurance premiums generated by direct and agency operations:

	Year Ended December 31,					
	2008		2007		2006	
	Amount	%	Amount	%	Amount	%
	(Dollars in thousands)					
Direct	\$1,140,266	42.3%	\$1,601,768	42.1%	\$1,957,064	42.5%
Agency	<u>1,554,743</u>	<u>57.7</u>	<u>2,198,690</u>	<u>57.9</u>	<u>2,649,136</u>	<u>57.5</u>
Total title insurance premiums	<u>\$2,695,009</u>	<u>100.0%</u>	<u>\$3,800,458</u>	<u>100.0%</u>	<u>\$4,606,200</u>	<u>100.0%</u>

The premium for title insurance is due in full when the real estate transaction is closed. We recognize title insurance premium revenues from direct operations upon the closing of the transaction, whereas premium revenues from agency operations include an accrual based on estimates of the volume of transactions that have closed in a particular period for which premiums have not yet been reported to us. The accrual for agency premiums is necessary because of the lag between the closing of these transactions and the reporting of these policies to us by the agent, and is based on estimates utilizing historical information.

Geographic Operations. Prior to the acquisition of the LFG Underwriters, our direct operations were divided into approximately 170 profit centers. With the acquisition of the LFG Underwriters, we added approximately 80 profit centers, approximately 30 of which have been eliminated or combined. Each profit center processes title insurance transactions within its geographical area, which is usually identified by a county, a group of counties forming a region, or a state, depending on the management structure in that part of the country. We also transact title insurance business through a network of approximately 9,000 agents, primarily in those areas in which agents are the more prevalent title insurance provider. This includes approximately 4,000 agents that were added through our acquisition of the LFG Underwriters.

The following table sets forth the approximate dollar and percentage volumes of our title insurance premium revenue by state.

	Year Ended December 31,					
	2008		2007		2006	
	Amount	%	Amount	%	Amount	%
	(Dollars in thousands)					
California	\$ 473,768	17.6%	\$ 625,993	16.5%	\$ 810,961	17.6%
Texas	337,907	12.5	479,973	12.6	514,228	11.2
Florida	208,412	7.7	412,313	10.8	635,066	13.8
New York	199,240	7.4	305,142	8.0	360,779	7.8
Illinois	118,518	4.4	161,936	4.3	199,936	4.3
All others	<u>1,357,164</u>	<u>50.4</u>	<u>1,815,101</u>	<u>47.8</u>	<u>2,085,230</u>	<u>45.3</u>
Totals	<u>\$2,695,041</u>	<u>100.2%</u>	<u>\$3,800,458</u>	<u>100.0%</u>	<u>\$4,606,200</u>	<u>100.0%</u>

Escrow, Title-Related and Other Fees. In addition to fees for underwriting title insurance policies, we derive a significant amount of our revenues from escrow, title-related and other services, including closing services. The escrow and other services provided by us include all of those typically required in connection with residential and commercial real estate purchase and refinance activities. Escrow, title-related and other fees represented approximately 26.5%, 20.5%, and 11.8% of our revenues in 2008, 2007, and 2006, respectively.

Reinsurance and Coinsurance. In a limited number of situations we limit our maximum loss exposure by reinsuring certain risks with other title insurers under agent fidelity, excess of loss and case-by-case reinsurance agreements. We also earn a small amount of additional income, which is reflected in our direct premiums, by assuming reinsurance for certain risks of other title insurers. Reinsurance agreements provide generally that the reinsurer is liable for loss and loss adjustment expense payments exceeding the amount retained by the ceding company. However, the ceding company remains primarily liable in the event the reinsurer does not meet its contractual obligations.

We also use coinsurance in our commercial title business to provide coverage in amounts greater than we would be willing or able to provide individually. In coinsurance transactions, each individual underwriting company issues a separate policy and assumes a portion of the overall total risk. As a coinsurer we are only liable for the portion of the risk we assume.

Specialty Insurance

We issue various insurance policies and contracts, which include the following:

- *Flood insurance.* We issue new and renewal flood insurance policies in conjunction with the NFIP. The NFIP bears all insurance risk related to these policies.
- *Home warranty.* We issue one-year, renewable contracts that protect homeowners against defects in household systems and appliances.
- *Personal lines insurance.* We offer and underwrite homeowners insurance in 49 states. Automobile insurance is currently underwritten in 29 states. We will expand into several additional states in 2009 where favorable underwriting potential exists. In addition, we underwrite personal umbrella, inland marine (boat and recreational watercraft), and other personal lines niche products in selected markets.

Sales and Marketing

Our sales and marketing efforts are primarily organized around our lines of business.

Fidelity National Title Group

We market and distribute our title and escrow products and services to customers in the residential and commercial market sectors of the real estate industry through customer solicitation by sales personnel. Although in

many instances the individual homeowner is the beneficiary of a title insurance policy, we do not focus our marketing efforts on the homeowner. We actively encourage our sales personnel to develop new business relationships with persons in the real estate community, such as real estate sales agents and brokers, financial institutions, independent escrow companies and title agents, real estate developers, mortgage brokers and attorneys who order title insurance policies for their clients. While our smaller, local clients remain important, large customers, such as national residential mortgage lenders, real estate investment trusts and developers have become an increasingly important part of our business. The buying criteria of locally based clients differ from those of large, geographically diverse customers in that the former tend to emphasize personal relationships and ease of transaction execution, while the latter generally place more emphasis on consistent product delivery across diverse geographical regions and ability of service providers to meet their information systems requirements for electronic product delivery.

Specialty Insurance

Specialty insurance is marketed through three distinct channels. We market our program through our in-house agency via direct mail to customers of our affiliated operations. This direct channel constituted approximately 15%, 15%, and 17% of our non-flood premium writings in 2008, 2007, and 2006, respectively. The second distribution channel is through independent agents and brokers nationwide. Approximately 83%, 79%, and 76% of our non-flood premium and the vast majority of our flood business was placed through this channel in 2008, 2007, and 2006, respectively. We currently have in excess of 17,000 independent agencies nationwide actively producing business on our behalf. The third distribution channel is through captive independent agents in California. This channel, comprised of 11 captive independent agents at the end of 2008, accounted for 2%, 6%, and 7% of the non-flood premium volume in 2008, 2007, and 2006, respectively.

Patents, Trademarks and Other Intellectual Property

We rely on a combination of contractual restrictions, internal security practices, and copyright and trade secret law to establish and protect our software, technology, and expertise. Further, we have developed a number of brands that have accumulated substantial goodwill in the marketplace, and we rely on trademark law to protect our rights in that area. We intend to continue our policy of taking all measures we deem necessary to protect our copyright, trade secret, and trademark rights. These legal protections and arrangements afford only limited protection of our proprietary rights, and there is no assurance that our competitors will not independently develop or license products, services, or capabilities that are substantially equivalent or superior to ours. In general, we believe that we own most proprietary rights necessary for the conduct of our business, although we do license certain items, none of which is material, under arms-length agreements for varying terms.

Technology and Research and Development

As a national provider of real estate transaction products and services, we participate in an industry that is subject to significant change, frequent new product and service introductions and evolving industry standards. We believe that our future success will depend in part on our ability to anticipate industry changes and offer products and services that meet evolving industry standards. In connection with our service offerings, we are continuing to deploy new information system technologies to our direct and agency operations. We expect to improve the process of ordering title and escrow services and improve the delivery of our products to our customers.

Competition

Fidelity National Title Group

The title insurance industry is highly competitive, with the top five insurance companies (which included FNF and LFG) accounting for 92.8% of net premiums collected in 2007 according to Demotech. The number and size of competing companies varies in the different geographic areas in which we conduct our business. In our principal markets, competitors include other major title underwriters such as The First American Corporation, Old Republic International Corporation and Stewart Information Services Corporation, as well as numerous smaller title insurance companies, underwritten title companies and independent agency operations at the regional and local

level. These smaller companies may expand into other markets in which we compete. Several of these smaller competitors have closed their operations as a result of the significant decrease in activity in the residential real estate market. Also, the removal of regulatory barriers might result in new competitors entering the title insurance business, and those new competitors may include diversified financial services companies that have greater financial resources than we do and possess other competitive advantages. Competition among the major title insurance companies, expansion by smaller regional companies and any new entrants with alternative products could affect our business operations and financial condition.

Competition in the title insurance industry is based primarily on expertise, service and price. In addition, the financial strength of the insurer has become an increasingly important factor in decisions relating to the purchase of title insurance, particularly in multi-state transactions and in situations involving real estate-related investment vehicles such as real estate investment trusts and real estate mortgage investment conduits.

The title insurance industry has also experienced periods of consolidation. We expect that, from time to time, we may evaluate opportunities for the acquisition of books of business or of title insurance companies or other complementary businesses, for business combinations with other concerns and for the provision of insurance related advisory services to third parties. There can be no assurance, however, that any suitable business opportunity will arise.

Specialty Insurance

In our specialty insurance segment, we compete with the national, regional and local insurance carriers. Depending on geographic location, various personal lines carriers, such as State Farm, Allstate, Farmers, Travelers, Hartford, Nationwide and numerous other companies compete for this personal lines business. In our home warranty business, our competitors include American Home Shield and The First American Corporation. In addition to price, service and convenience are competitive factors. We strive to compete primarily through providing an efficient and streamlined product delivery platform.

Regulation

Our insurance subsidiaries, including title insurers, property and casualty insurers, underwritten title companies and insurance agencies, are subject to extensive regulation under applicable state laws. Each of the insurers is subject to a holding company act in its state of domicile, which regulates, among other matters, the ability to pay dividends and enter into transactions with affiliates. The laws of most states in which we transact business establish supervisory agencies with broad administrative powers relating to issuing and revoking licenses to transact business, regulating trade practices, licensing agents, approving policy forms, accounting practices, financial practices, establishing reserve and capital and surplus as regards policyholders (“capital and surplus”) requirements, defining suitable investments for reserves and capital and surplus and approving rate schedules. The process of state regulation of changes in rates ranges from states which set rates, to states where individual companies or associations of companies prepare rate filings which are submitted for approval, to a few states in which rate changes do not need to be filed for approval.

Since we are governed by both state and federal governments and the applicable insurance laws and regulations are constantly subject to change, it is not possible to predict the potential effects on our insurance operations, particularly our Fidelity National Title Group segment, of any laws or regulations that may become more restrictive in the future or if new restrictive laws will be enacted. See “Item 3 Legal Proceedings” for a description of certain recent regulatory developments in California.

Pursuant to statutory accounting requirements of the various states in which our title insurers are domiciled, these insurers must defer a portion of premiums earned as an unearned premium reserve for the protection of policyholders (in addition to their reserves for known claims) and must maintain qualified assets in an amount equal to the statutory requirements. The level of unearned premium reserve required to be maintained at any time is determined by statutory formula based upon either the age, number of policies, and dollar amount of policy liabilities underwritten, or the age and dollar amount of statutory premiums written. As of December 31, 2008, the combined statutory unearned premium reserve required and reported for our title insurers was \$2,137.2 million. In

addition to statutory unearned premium reserves and reserves for known claims, each of our insurers maintains surplus funds for policyholder protection and business operations.

Each of our insurance subsidiaries is regulated by the insurance regulatory authority in its respective state of domicile, as well as that of each state in which it is licensed. The insurance commissioners of their respective states of domicile are the primary regulators of our insurance subsidiaries. Each of the insurers is subject to periodic regulatory financial examination by regulatory authorities, and certain of these examinations are currently ongoing.

Under the statutes governing insurance holding companies in most states, insurers may not enter into certain transactions, including sales, reinsurance agreements and service or management contracts, with their affiliates unless the regulatory authority of the insurer's state of domicile has received notice at least 30 days prior to the intended effective date of such transaction and has not objected to, or has approved, the transaction within the 30 day period.

As a holding company with no significant business operations of our own, we depend on dividends or other distributions from our subsidiaries as the principal source of cash to meet our obligations, including the payment of interest on and repayment of principal of any debt obligations, and to pay any dividends to our stockholders. The payment of dividends or other distributions to us by our insurers is regulated by the insurance laws and regulations of their respective states of domicile. In general, an insurance company subsidiary may not pay an "extraordinary" dividend or distribution unless the applicable insurance regulator has received notice of the intended payment at least 30 days prior to payment and has not objected to or has approved the payment within the 30-day period. In general, an "extraordinary" dividend or distribution is statutorily defined as a dividend or distribution that, together with other dividends and distributions made within the preceding 12 months, exceeds the greater of:

- 10% of the insurer's statutory surplus as of the immediately prior year end; or
- the statutory net income of the insurer during the prior calendar year.

The laws and regulations of some jurisdictions also prohibit an insurer from declaring or paying a dividend except out of its earned surplus or require the insurer to obtain prior regulatory approval. During 2009, our directly owned title insurers can pay dividends or make distributions to us of approximately \$214.7 million without prior regulatory approval; however, insurance regulators have the authority to prohibit the payment of ordinary dividends or other payments by our title insurers to us (such as a payment under a tax sharing agreement or for employee or other services) if they determine that such payment could be adverse to our policyholders.

The combined statutory capital and surplus of our title insurers was \$634.9 million and \$652.6 million as of December 31, 2008 and 2007, respectively. The combined statutory earnings of our title insurers were \$170.9 million (excluding the LFG Underwriters), \$204.8 million, and \$413.8 million for the years ended December 31, 2008, 2007, and 2006, respectively.

As a condition to continued authority to underwrite policies in the states in which our insurers conduct their business, they are required to pay certain fees and file information regarding their officers, directors and financial condition.

Pursuant to statutory requirements of the various states in which our insurers are domiciled, they must maintain certain levels of minimum capital and surplus. Each of our insurers has complied with the minimum statutory requirements as of December 31, 2008.

Our underwritten title companies are also subject to certain regulation by insurance regulatory or banking authorities, primarily relating to minimum net worth. Minimum net worth requirements for each underwritten title company is as follows: \$7.5 million for Fidelity National Title Company, \$2.5 million for Fidelity National Title Company of California, \$3.0 million for Chicago Title Company, \$0.4 million for Ticor Title Company of California, Commonwealth Land Title Company, Lawyers Title Company, and Gateway Title Company, and \$0.1 million for Napa Valley Title Company. All of our companies were in compliance with their respective minimum net worth requirements at December 31, 2008.

We receive inquiries and requests for information from state insurance departments, attorneys general and other regulatory agencies from time to time about various matters relating to our business. Sometimes these take the

form of civil investigative subpoenas. We attempt to cooperate with all such inquiries. From time to time, we are assessed fines for violations of regulations or other matters or enter into settlements with such authorities which require us to pay money or take other actions. For a discussion of certain pending matters, see Item 3, Legal Proceedings.

Before a person can acquire control of a U.S. insurance company, prior written approval must be obtained from the insurance commissioner of the state in which the insurer is domiciled. Prior to granting approval of an application to acquire control of a domestic insurer, the state insurance commissioner will consider such factors as the financial strength of the applicant, the integrity and management of the applicant’s board of directors and executive officers, the acquirer’s plans for the insurer’s board of directors and executive officers, the acquirer’s plans for the future operations of the domestic insurer and any anti-competitive results that may arise from the consummation of the acquisition of control. Generally, state statutes provide that control over a domestic insurer is presumed to exist if any person, directly or indirectly, owns, controls, holds with the power to vote, or holds proxies representing 10% or more of the voting securities of the domestic insurer. (In the state of Florida, where one of our title insurers is commercially domiciled, control may be presumed to exist upon acquisition of 5% or more of the insurer’s voting securities.) Because a person acquiring 10% or more of our common shares would indirectly control the same percentage of the stock of our insurers, the insurance change of control laws would likely apply to such a transaction (and any acquisition of 5% or more would require filing a disclaimer of control with, or obtaining a change of control approval from, the State of Florida).

The National Association of Insurance Commissioners (“NAIC”) has adopted an instruction requiring an annual certification of reserve adequacy by a qualified actuary. Because all of the states in which our title insurers are domiciled require adherence to NAIC filing procedures, each such insurer, unless it qualifies for an exemption, must file an actuarial opinion with respect to the adequacy of its reserves.

Ratings

Our title insurance underwriters are regularly assigned ratings by independent agencies designed to indicate their financial condition and/or claims paying ability. The rating agencies determine ratings by quantitatively and qualitatively analyzing financial data and other information. Our title subsidiaries include Alamo Title, Chicago Title, Commonwealth Land Title, Fidelity National Title, Lawyers Title, LandAmerica Title of New Jersey, Security Union Title, Ticor Title, and United Capital Title. Standard & Poor’s Ratings Group (“S&P”), Moody’s Investors Service (“Moody’s”), Fitch Ratings, Ltd. (“Fitch”), and A. M. Best Company (“A.M. Best”) provide ratings for the entire FNF family of companies as a whole as follows:

	<u>S&P</u>	<u>Moody’s</u>	<u>Fitch(1)</u>	<u>A.M. Best</u>
FNF family of companies	A	A3	BBB	A

(1) Fitch has also assigned a rating of BBB- to the LFG Underwriters.

Demotech provides financial strength/stability ratings for each of our principal title insurance underwriters individually, as follows:

Alamo Title Insurance	A’
Chicago Title Insurance Co.	A”
Chicago Title Insurance Co. of Oregon	A’
Commonwealth Land Title Insurance Co.	A
Fidelity National Title Insurance Co.	A’
Lawyers Title Insurance Corporation	A
LandAmerica NJ Title Insurance Company	N/A
Security Union Title Insurance Co.	A’
Ticor Title Insurance Co.	A’
Ticor Title Insurance Co. of Florida	A
United Capital Title Insurance Co.	A’

The ratings of S&P, Moody's, A.M. Best, Fitch, and Demotech described above are not designed to be, and do not serve as, measures of protection or valuation offered to investors. These financial strength ratings should not be relied on with respect to making an investment in our securities. See "Risk Factors — If the rating agencies downgrade our Company, our results of operations and competitive position in the title insurance industry may suffer" for further information.

Investment Policies and Investment Portfolio

Our investment policy is designed to maximize total return through investment income and capital appreciation consistent with moderate risk of principal, while providing adequate liquidity and complying with internal and regulatory guidelines. We also make investments in certain equity securities in order to take advantage of perceived value and for strategic purposes. Various states regulate what types of assets qualify for purposes of capital and surplus and statutory unearned premium reserves. We manage our investment portfolio and do not utilize third party investment managers. Due to the magnitude of our investment portfolio in relation to our claims loss reserves, we do not specifically match durations of our investments to the cash outflows required to pay claims, but do manage outflows on a shorter time frame. Maintaining shorter durations on our investment portfolio allows us to mitigate our interest rate risk and, in a rising interest rate environment, to increase our investment revenue, which may offset some of the decline in premiums and service revenues we would expect in such an environment.

As of December 31, 2008 and 2007, the carrying amount, which approximates the fair value, of total investments excluding investments in unconsolidated affiliates was \$3.7 billion and \$3.4 billion, respectively.

We purchase investment grade fixed maturity securities, selected non-investment grade fixed maturity securities and equity securities. The securities in our portfolio are subject to economic conditions and normal market risks and uncertainties. Our fixed maturities at December 31, 2008 include auction rate securities with a par value of \$88.8 million and fair value of \$32.1 million, which were included in the assets of the LFG Underwriters that we acquired on December 22, 2008. These auction rate securities make up one percent of our total portfolio and are our only securities classified as level 3 for valuation purposes.

The following table presents certain information regarding the investment ratings of our fixed maturity portfolio at December 31, 2008 and 2007.

Rating(1)	December 31,							
	2008				2007			
	Amortized Cost	% of Total	Fair Value	% of Total	Amortized Cost	% of Total	Fair Value	% of Total
	(Dollars in thousands)							
AAA	\$1,154,868	40.7%	\$1,194,028	41.8%	\$1,681,547	60.0%	\$1,706,834	60.4%
AA	621,375	21.9	627,731	22.0	597,608	21.3	602,881	21.4
A	778,528	27.5	760,964	26.7	399,995	14.3	399,074	14.1
BBB	231,919	8.2	223,293	7.8	100,784	3.6	97,340	3.5
BB	5,136	0.2	4,448	0.2	3,913	0.1	3,827	0.1
Other	42,383	1.5	43,365	1.5	19,785	0.7	14,616	0.5
	<u>\$2,834,209</u>	<u>100.0%</u>	<u>\$2,853,829</u>	<u>100.0%</u>	<u>\$2,803,632</u>	<u>100.0%</u>	<u>\$2,824,572</u>	<u>100.0%</u>

(1) Ratings as assigned by Standard & Poor's Ratings Group and Moody's Investors Services.

The following table presents certain information regarding contractual maturities of our fixed maturity securities at December 31, 2008:

<u>Maturity</u>	<u>December 31, 2008</u>			
	<u>Amortized Cost</u>	<u>% of Total</u>	<u>Fair Value</u>	<u>% of Total</u>
	(Dollars in thousands)			
One year or less	\$ 313,583	11.1%	\$ 315,826	11.1%
After one year through five years	1,123,303	39.6	1,129,429	39.6
After five years through ten years	845,396	29.8	848,144	29.7
After ten years	288,220	10.2	295,974	10.3
Mortgage-backed securities	<u>263,707</u>	<u>9.3</u>	<u>264,456</u>	<u>9.3</u>
	<u>\$2,834,209</u>	<u>100.0%</u>	<u>\$2,853,829</u>	<u>100.0%</u>

At December 31, 2008, the majority of our mortgage-backed securities were acquired as a result of the acquisition of the LFG Underwriters. Of the total balance, 97% of these securities are rated AAA. They are made up of \$150.5 million of agency mortgage-backed securities, \$38.8 million of agency collateralized mortgage obligations, and \$75.2 million of commercial mortgage-backed securities.

Expected maturities may differ from contractual maturities because certain borrowers have the right to call or prepay obligations with or without call or prepayment penalties. Fixed maturity securities with an amortized cost of \$440.1 million and a fair value of \$448.6 million were callable at December 31, 2008.

Our equity securities at December 31, 2008 and 2007 consisted of investments in various industry groups at a cost basis of \$79.8 million and \$96.1 million, respectively, and fair value of \$71.5 million and \$93.3 million, respectively. There were no significant investments in banks, trust and insurance companies at December 31, 2008 or 2007.

In addition, at December 31, 2008 and 2007, we held \$644.5 million and \$738.4 million, respectively, in investments that are accounted for using the equity method (see note D of Notes to Consolidated Financial Statements).

Short-term investments, which consist primarily of securities purchased under agreements to resell, commercial paper and money market instruments which have an original maturity of one year or less, are carried at amortized cost, which approximates fair value. As of December 31, 2008 and 2007, short-term investments amounted to \$788.4 million and \$427.4 million, respectively.

Our investment results for the years ended December 31, 2008, 2007 and 2006 were as follows:

	<u>December 31,</u>		
	<u>2008</u>	<u>2007</u>	<u>2006</u>
	(Dollars in thousands)		
Net investment income(1)	\$ 153,770	\$ 219,771	\$ 244,185
Average invested assets	\$3,545,490	\$4,414,951	\$5,088,863
Effective return on average invested assets	4.3%	5.0%	4.8%

(1) Net investment income as reported in our Consolidated Statements of Earnings has been adjusted in the presentation above to provide the tax equivalent yield on tax exempt investments.

Employees

As of January 31, 2009, we had approximately 13,700 full-time equivalent employees, excluding the employees that were added with the acquisition of the LFG Underwriters. With that acquisition, we added approximately 5,500 employees, including 1,600 employees that have been terminated since the acquisition. During the three years ended December 31, 2008, we sought to reduce our head count as activity in our Fidelity National Title Group segment declined. In that segment, we have reduced our full-time equivalent employees by

about 2,100 during 2008, 3,100 during 2007 and 1,700 during 2006. We believe that our relations with employees are generally good. None of our employees are subject to collective bargaining agreements.

Statement Regarding Forward-Looking Information

The statements contained in this Form 10-K or in our other documents or in oral presentations or other statements made by our management that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including statements regarding our expectations, hopes, intentions, or strategies regarding the future. These statements relate to, among other things, future financial and operating results of Fidelity. In many cases, you can identify forward-looking statements by terminology such as “may,” “will,” “should,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “predict,” “potential,” or “continue,” or the negative of these terms and other comparable terminology. Actual results could differ materially from those anticipated in these statements as a result of a number of factors, including, but not limited to:

- the possibility that revenues, cost savings, growth prospects, and any other synergies expected from our acquisition of the LFG Underwriters will not be realized (see “Recent Developments” in Item 7, Management’s Discussion and Analysis of Financial Condition and Results of Operations);
- changes in general economic, business, and political conditions, including changes in the financial markets;
- continued weakness or adverse changes in the level of real estate activity, which may be caused by, among other things, high or increasing interest rates, a limited supply of mortgage funding, or a weak U.S. economy;
- our potential inability to find suitable acquisition candidates, as well as the risks associated with acquisitions in lines of business that will not necessarily be limited to our traditional areas of focus, or difficulties integrating acquisitions;
- our dependence on distributions from our title insurance underwriters as our main source of cash flow;
- significant competition that our operating subsidiaries face;
- compliance with extensive government regulation of our operating subsidiaries and adverse changes in applicable laws or regulations or in their application by regulators;
- regulatory investigations of the title insurance industry;
- our business concentration in the State of California, the source of approximately 18% of our title insurance premiums; and
- other risks detailed elsewhere in this document and in our other filings with the SEC.

We are not under any obligation (and expressly disclaim any such obligation) to update or alter our forward-looking statements, whether as a result of new information, future events or otherwise. You should carefully consider the possibility that actual results may differ materially from our forward-looking statements.

Additional Information

Our website address is www.fnf.com. We make available free of charge on or through our website our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and all amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended, as soon as reasonably practicable after such material is electronically filed with or furnished to the Securities and Exchange Commission. However, the information found on our website is not part of this or any other report.

Item 1A. Risk Factors

In addition to the normal risks of business, we are subject to significant risks and uncertainties, including those listed below and others described elsewhere in this Annual Report on Form 10-K. Any of the risks described herein could result in a significant or material adverse effect on our results of operations or financial condition.

General

If adverse changes in the levels of real estate activity occur, our revenues may decline.

Title insurance revenue is closely related to the level of real estate activity which includes sales, mortgage financing and mortgage refinancing. The levels of real estate activity are primarily affected by the average price of real estate sales, the availability of funds to finance purchases and mortgage interest rates. Both the volume and the average price of residential real estate transactions have recently experienced declines in many parts of the country, and these trends appear likely to continue. The volume of refinancing transactions in particular and mortgage originations in general declined in the 2006 through 2008 period from 2005 and prior levels, resulting in reduction of revenues in some of our businesses.

We have found that residential real estate activity generally decreases in the following situations:

- when mortgage interest rates are high or increasing;
- when the mortgage funding supply is limited; and
- when the United States economy is weak.

Declines in the level of real estate activity or the average price of real estate sales are likely to adversely affect our title insurance revenues. In 2008, the sharply rising mortgage delinquency and default rates caused negative operating results at a number of banks and financial institutions and, as a result, have significantly reduced the level of lending activity. The current Mortgage Bankers Association forecast is for approximately \$2.0 trillion of mortgage originations in 2009 compared to \$1.7 trillion in 2008. In December 2008 and continuing into February 2009, our open order volumes for refinancing transactions have increased, reflecting lower interest rates. However, it is too soon to tell if the portion of these open orders that actually closes will be consistent with our closing percentages in prior periods or how long this increased activity will last. Several banks have failed in recent months and others may fail in the short to medium term, further reducing the capacity of the mortgage industry to make loans. Our revenues in future periods will continue to be subject to these and other factors which are beyond our control and, as a result, are likely to fluctuate.

We have recorded goodwill as a result of prior acquisitions, and an economic downturn could cause these balances to become impaired, requiring write-downs that would reduce our operating income.

Goodwill aggregated approximately \$1,581.7 million, or 18.9% of our total assets, as of December 31, 2008. Current accounting rules require that goodwill be assessed for impairment at least annually or whenever changes in circumstances indicate that the carrying amount may not be recoverable from estimated future cash flows. Factors that may be considered a change in circumstance indicating the carrying value of our intangible assets, including goodwill, may not be recoverable include, but are not limited to, significant underperformance relative to historical or projected future operating results, a significant decline in our stock price and market capitalization, and negative industry or economic trends. However, if the current worldwide economic downturn continues, the carrying amount of our goodwill may no longer be recoverable, and we may be required to record an impairment charge, which would have a negative impact on our results of operations and financial condition. We will continue to monitor our market capitalization and the impact of the current economic downturn on our business to determine if there is an impairment of goodwill in future periods.

If the recent worsening of economic and credit market conditions continues or increases, it could have a material adverse impact on our investment portfolio.

Our investment portfolio is exposed to economic and financial market risks, including changes in interest rates, credit markets and prices of marketable equity and fixed-income securities. Our investment policy is designed to maximize total return through investment income and capital appreciation consistent with moderate risk of principal, while providing adequate liquidity and complying with internal and regulatory guidelines. To achieve this objective, our marketable debt investments are primarily investment grade, liquid, fixed-income securities and money market instruments denominated in U.S. dollars. We also make investments in certain equity securities in order to take advantage of perceived value and for strategic purposes. Recent economic and credit market conditions

have adversely affected the ability of some issuers of investment securities to repay their obligations and have affected and may further affect the values of investment securities. If the carrying value of our investments exceeds the fair value, and the decline in fair value is deemed to be other-than-temporary, we will be required to write down the value of our investments, which could materially harm our results of operations and financial condition.

If we observe changes in the rate of title insurance claims, it may be necessary for us to record additional charges to our claim loss reserve. This may result in lower net earnings and the potential for earnings volatility.

At each quarter end, our recorded reserve for claim losses is initially the result of taking the prior recorded reserve for claim losses, adding the current provision to that balance and subtracting actual paid claims from that balance, resulting in an amount that management then compares to the actuarial point estimate provided in the actuarial calculation. Due to the uncertainty and judgment used by both management and our actuary, our ultimate liability may be greater or less than our current reserves and/or our actuary's calculation. If the recorded amount is within a reasonable range of the actuary's point estimate, but not at the point estimate, management assesses other factors in order to be comfortable with the position of the recorded reserve within a range. These factors, which are more qualitative than quantitative, can change from period to period and include items such as current trends in the real estate industry (which management can assess, but for which there is a time lag in the development of the data used by our actuary), the stratification of certain claims (large vs. small), improvements in our claims management processes, and other cost saving measures. If the recorded amount is not within a reasonable range of the actuary's point estimate, we would record a charge and reassess the long-term provision on a go forward basis.

As a result of adverse claim loss development on prior policy years, we recorded charges in 2008 and 2007 totaling \$261.6 million (\$157.0 million net of income taxes) and \$217.2 million (\$159.5 million net of income taxes) in our provision for claim losses. These charges were recorded in addition to our provision for claim losses of 8.5% and 7.5%, respectively. These charges brought our reserve position to a level that represents our best estimate of our ultimate liability. We will reassess the provision to be recorded in future periods consistent with this methodology and can make no assurance that we will not need to record charges in the future to increase reserves in respect of prior periods.

Our insurance subsidiaries must comply with extensive regulations. These regulations may increase our costs or impede or impose burdensome conditions on actions that we might seek to take to increase the revenues of those subsidiaries.

Our insurance businesses are subject to extensive regulation by state insurance authorities in each state in which they operate. These agencies have broad administrative and supervisory power relating to the following, among other matters:

- licensing requirements;
- trade and marketing practices;
- accounting and financing practices;
- capital and surplus requirements;
- the amount of dividends and other payments made by insurance subsidiaries;
- investment practices;
- rate schedules;
- deposits of securities for the benefit of policyholders;
- establishing reserves; and
- regulation of reinsurance.

Most states also regulate insurance holding companies like us with respect to acquisitions, changes of control and the terms of transactions with our affiliates. State regulations may impede or impose burdensome conditions on

our ability to increase or maintain rate levels or on other actions that we may want to take to enhance our operating results. In addition, we may incur significant costs in the course of complying with regulatory requirements. We cannot assure you that future legislative or regulatory changes will not adversely affect our business operations. See “Business — Regulation.”

State regulation of the rates we charge for title insurance could adversely affect our results of operations.

Our title insurance subsidiaries are subject to extensive rate regulation by the applicable state agencies in the jurisdictions in which they operate. Title insurance rates are regulated differently in the various states, with some states requiring the subsidiaries to file and receive approval of rates before such rates become effective and some states promulgating the rates that can be charged. In almost all states in which our title subsidiaries operate, our rates must not be excessive, inadequate or unfairly discriminatory. See also the risk factor below relating to regulatory conditions in California.

Regulatory investigations of the insurance industry may lead to fines, settlements, new regulation or legal uncertainty, which could negatively affect our results of operations.

We receive inquiries and requests for information from state insurance departments, attorneys general and other regulatory agencies from time to time about various matters relating to our business. Sometimes these take the form of civil investigative subpoenas. We attempt to cooperate with all such inquiries. From time to time, we are assessed fines for violations of regulations or other matters or enter into settlements with such authorities which require us to pay money or take other actions. These fines may be significant and actions we are required to take may adversely affect our business.

Because we are dependent upon California for approximately 18 percent of our title insurance premiums, our business may be adversely affected by regulatory conditions in California.

California is the largest source of revenue for the title insurance industry and, in 2008, California-based premiums accounted for 32% of premiums earned by our direct operations and 8% of our agency premium revenues. In the aggregate, California accounted for approximately 17.6% of our total title insurance premiums for 2008. A significant part of our revenues and profitability are therefore subject to our operations in California and to the prevailing regulatory conditions in California. Adverse regulatory developments in California, which could include reductions in the maximum rates permitted to be charged, inadequate rate increases or more fundamental changes in the design or implementation of the California title insurance regulatory framework, could have a material adverse effect on our results of operations and financial condition.

In January 2007, the State of California adopted regulations that would have significant effects on the title insurance industry in California. The Company, as well as others, has been engaged in discussions with the California Department of Insurance (the “CDI”) regarding possible industry reforms that may result in the CDI’s decision to modify or repeal the regulations prior to their implementation. On June 17, 2008, the CDI filed with the Office of Administrative Law revised title insurance regulations containing substantial changes to the existing regulations. Hearings on revised regulations were held in August. We, through the California Land Title Association, continue to work with the CDI to refine certain aspects of the proposed regulations, including the statistical reporting provisions.

If the rating agencies downgrade our Company, our results of operations and competitive position in the title insurance industry may suffer.

Ratings have always been an important factor in establishing the competitive position of insurance companies. Our title insurance subsidiaries are rated by S&P, Moody’s, Fitch, A.M. Best, and Demotech. Ratings reflect the opinion of a rating agency with regard to an insurance company’s or insurance holding company’s financial strength, operating performance and ability to meet its obligations to policyholders and are not evaluations directed to investors. On December 23, 2008, Fitch downgraded FNF’s financial strength ratings from A- to BBB. The following announcements have been made by the rating agencies regarding the current status of our ratings: S&P — CreditWatch with negative implications, Fitch — Rating Watch Negative, A.M. Best — under review with negative

implications, and Moody's — stable. In addition, Fitch has announced that the ratings of the underwriters that we recently acquired from LFG are on Rating Watch Evolving. Our ratings are subject to continued periodic review by rating agencies and the continued retention of those ratings cannot be assured. If our ratings are reduced from their current levels by those entities, our results of operations could be adversely affected.

Our rate of growth could be adversely affected if we are unable to acquire suitable acquisition candidates.

As part of our growth strategy, we have made numerous acquisitions and we plan to continue to acquire complementary businesses, products and services. This strategy depends on our ability to identify suitable acquisition candidates and, assuming we find them, to finance such acquisitions on acceptable terms. We have historically used, and in the future may continue to use, a variety of sources of financing to fund our acquisitions, including cash from operations, debt and equity. Our ability to finance our acquisitions is subject to a number of risks, including the availability of adequate cash reserves from operations or of acceptable financing terms and variability in our stock price. These factors may inhibit our ability to pursue attractive acquisition targets. If we are unable to acquire suitable acquisition candidates, we may experience slower growth.

Our management has articulated a willingness to seek growth through acquisitions in lines of business that will not necessarily be limited to our traditional areas of focus or geographic areas. This expansion of our business subjects us to associated risks, such as the diversion of management's attention and lack of experience in operating such businesses, and may affect our credit and ability to repay our debt.

Our management has stated that we may make acquisitions in lines of business that are not directly tied to or synergistic with our core operating segments. Accordingly, we have in the past year acquired, and may in the future acquire, businesses in industries or geographic areas with which management is less familiar than we are with our core businesses. These activities involve risks that could adversely affect our operating results, such as diversion of management's attention and lack of substantial experience in operating such businesses. There can be no guarantee that we will not enter into transactions or make acquisitions that will cause us to incur additional debt, increase our exposure to market and other risks and cause our credit or financial strength ratings to decline.

We may encounter difficulties managing our growth and successfully integrating new businesses, which could adversely affect our results of operations.

We have historically achieved growth through a combination of developing new products and services, increasing our market share for existing products, and making acquisitions. Part of our strategy is to pursue opportunities to diversify and expand our operations by acquiring or making investments in other companies. The success of each acquisition will depend upon:

- our ability to integrate the acquired business' operations, products and personnel;
- our ability to retain key personnel of the acquired business;
- our ability to expand our financial and management controls and reporting systems and procedures;
- our ability to maintain the customers and goodwill of the acquired business; and
- any unexpected costs or unforeseen liabilities associated with the acquired business.

The integration of two previously separate companies is a challenging, time-consuming and costly process. It is possible that the integration process could result in the loss of key employees, the disruption of each company's ongoing businesses or inconsistencies in standards, controls, procedures and policies that adversely affect each company's ability to maintain relationships with suppliers, customers and employees or to achieve the anticipated benefits of the combination. In addition, any successful integration of companies will require the dedication of significant management resources, which will temporarily detract attention from our day-to-day businesses.

Our recent acquisition of subsidiaries of LandAmerica Financial Group, Inc. (“LFG”) may expose us to certain risks.

On December 22, 2008, we completed the acquisition of LFG’s two principal title insurance underwriters, Lawyers Title Insurance Corporation and Commonwealth Land Title Insurance Company, as well as United Capital Title Insurance Company (collectively, the “LFG Subsidiaries”).

The LFG Subsidiaries have experienced financial difficulties in recent quarters. The acquisition may have unforeseen negative effects on our company, including potentially if there are significant undisclosed liabilities that we did not discover in our due diligence review or otherwise prior to closing. Further, we face challenges in integrating the LFG Subsidiaries. These challenges include eliminating redundant operations, facilities and systems, coordinating management and personnel, retaining key employees, managing different corporate cultures, and achieving cost reductions. There can be no assurance that we will be able to fully integrate all aspects of the acquired business successfully or achieve the level of cost reductions we hope to achieve, and the process of integrating this acquisition may disrupt our business and divert our resources.

We are a holding company and depend on distributions from our subsidiaries for cash.

We are a holding company whose primary assets are the securities of our operating subsidiaries. Our ability to pay interest on our outstanding debt and our other obligations and to pay dividends is dependent on the ability of our subsidiaries to pay dividends or make other distributions or payments to us. Our subsidiaries are not obligated to make funds available to us. If our operating subsidiaries are not able to pay dividends to us, we may not be able to meet our obligations or pay dividends on our common stock.

Our title insurance and specialty insurance subsidiaries must comply with state laws which require them to maintain minimum amounts of working capital, surplus and reserves, and place restrictions on the amount of dividends that they can distribute to us. Compliance with these laws will limit the amounts our regulated subsidiaries can dividend to us. During 2009, our title insurers will be able to pay dividends or make distributions to us without prior regulatory approval of approximately \$214.7 million.

The maximum dividend permitted by law is not necessarily indicative of an insurer’s actual ability to pay dividends, which may be constrained by business and regulatory considerations, such as the impact of dividends on surplus, which could affect an insurer’s ratings or competitive position, the amount of premiums that can be written and the ability to pay future dividends. Further, depending on business and regulatory conditions, we may in the future need to retain cash in our underwriters or even contribute cash to one or more of them in order to maintain their ratings or their statutory capital position. Such a requirement could be the result of investment losses, reserve charges, adverse operating conditions in the current economic environment or changes in interpretation of statutory accounting requirements by regulators. Further, the LFG Underwriters recently acquired by us could have unexpected liabilities or asset exposures that only become apparent over time which adversely affect their surplus.

Our specialty insurance segment is a smaller operation with respect to which we have announced that we are considering our strategic alternatives and, as a result, it is unlikely to be a significant source of dividends to us in 2009.

We could have conflicts with FIS and LPS, and our chairman of our board of directors and other officers and directors could have conflicts of interest due to their relationships with FIS or LPS.

FIS and we were under common ownership by another publicly traded company, also called Fidelity National Financial, Inc. (“Old FNF”) until October 2006, when Old FNF distributed all of its FNF shares to the stockholders of Old FNF. In November 2006, Old FNF then merged into FIS. On July 2, 2008, FIS completed the spin-off of its former Lender Processing Services operating segment into a separate publicly traded company, referred to as LPS, by distributing all of its shares of LPS to FIS shareholders through a stock dividend.

Conflicts may arise between FIS and us, or LPS and us, in each case as a result of our ongoing agreements and the nature of our respective businesses. Among other things, following the merger between Old FNF and FIS, FIS and we have remained parties to a variety of agreements, some of which were assigned to LPS by FIS in the spin-off. We also became a party to a variety of agreements with FIS and LPS in connection with the spin-off, and we may

enter into further agreements with FIS or LPS. Certain of our executive officers and directors could be subject to conflicts of interest with respect to such agreements and other matters due to their relationships with FIS or LPS.

Some of our executive officers and directors own substantial amounts of FIS and LPS stock and stock options. Such ownership could create or appear to create potential conflicts of interest when our directors and officers are faced with decisions that involve FIS or LPS or any of their respective subsidiaries.

William P. Foley, II, is the chairman of our board of directors, the executive chairman of the board of FIS and the chairman of the board of LPS. As a result of his roles, he has obligations to us, FIS and LPS and may have conflicts of interest with respect to matters potentially or actually involving or affecting our and FIS's or LPS's respective businesses. In addition, Mr. Foley may also have conflicts of time with respect to his multiple responsibilities. If his duties to each of these companies require more time than Mr. Foley is able to allot, then his oversight of that company's activities could be diminished. Finally, FIS, LPS and we have overlapping directors and officers.

Matters that could give rise to conflicts between us and FIS or LPS include, among other things:

- our ongoing and future relationships with FIS or LPS, including related party agreements and other arrangements with respect to the administration of tax matters, employee benefits, indemnification, claims administration and handling, and other matters; and
- the quality and pricing of services that we have agreed to provide to FIS or LPS or that it has agreed to provide to us.

We seek to manage these potential conflicts through dispute resolution and other provisions of our agreements with FIS and LPS and through oversight by independent members of our board of directors. However, there can be no assurance that such measures will be effective or that we will be able to resolve all potential conflicts with FIS and LPS, or that the resolution of any such conflicts will be no less favorable to us than if we were dealing with a third party.

Provisions of our certificate of incorporation may prevent us from receiving the benefit of certain corporate opportunities.

Because FIS may engage in some of the same activities in which we engage, there is a risk that we may be in direct competition with FIS over business activities and corporate opportunities. To address these potential conflicts, a corporate opportunity policy is incorporated into our certificate of incorporation. Among other things, this policy provides that FIS has no duty not to compete with us. The policy also limits the situations in which one of our directors or officers, if also a director or officer of FIS, must offer corporate opportunities to us of which such individual becomes aware. These provisions may limit the corporate opportunities of which we are made aware or which are offered to us.

The markets in which our principal operating subsidiaries operate are highly competitive. Some of our potential competitors have greater resources than we do, and we may face competition from new entrants with alternative products or services.

The title insurance industry is highly competitive. According to Demotech, the top five title insurance companies (which included FNF and LFG) accounted for 92.8% of net premiums collected in 2007. Over 40 independent title insurance companies accounted for the remaining 7.2% of the market. The number and size of competing companies varies in the different geographic areas in which we conduct our title insurance business. In our principal markets, competitors include other major title underwriters such as The First American Corporation, Old Republic International Corporation and Stewart Information Services Corporation, as well as numerous smaller title insurance companies, underwritten title companies, and independent agency operations at the regional and local level. These smaller companies may expand into other markets in which we compete.

Also, the removal of regulatory barriers might result in new competitors entering the title insurance business, and those new competitors may include companies that have greater financial resources than we do and possess other competitive advantages. Competition among the major title insurance companies, expansion by smaller

regional companies and any new entrants with alternative products could affect our business operations and financial condition.

From time to time, we adjust the title insurance rates we charge in a particular state as a result of competitive conditions in that state. Changes in price could have an adverse impact on our results of operations, although its ultimate impact will depend, among other things, on the volume and mix of our future business in that state and within various portions of the state.

The markets for our other products and services are also very competitive, and we expect the markets for all of our products and services to remain highly competitive. Our failure to remain competitive may have a material adverse effect on our business, financial condition and results of operations.

Our 1031 exchange business may be adversely affected by proposed regulations under Section 468B and Section 7872 of the Internal Revenue Code.

The IRS has proposed regulations under Section 468B regarding the taxation of the income earned on escrow accounts, trusts and other funds used during deferred exchanges of like-kind property and under Section 7872 regarding below-market loans to facilitators of these exchanges. The proposed regulations affect taxpayers that engage in like-kind exchanges and escrow holders, trustees, qualified intermediaries, and others that hold funds during like-kind exchanges. We currently do not know what effect these changes will have on our 1031 exchange businesses.

Item 1B. *Unresolved Staff Comments*

None.

Item 2. *Properties*

The Company has its corporate headquarters on its campus in Jacksonville, Florida, which it leases from its former affiliate, LPS. The majority of our branch offices are leased from third parties (see note L to Notes to Consolidated Financial Statements). Our subsidiaries conduct their business operations primarily in leased office space in 44 states, Washington, DC, Puerto Rico, Canada, and Mexico.

Item 3. *Legal Proceedings*

In the ordinary course of business, we are involved in various pending and threatened litigation matters related to our operations, some of which include claims for punitive or exemplary damages. We believe that no actions, other than those listed below, depart from customary litigation incidental to our business. As background to the disclosure below, please note the following:

- These matters raise difficult and complicated factual and legal issues and are subject to many uncertainties and complexities, including but not limited to the underlying facts of each matter, novel legal issues, variations between jurisdictions in which matters are being litigated, differences in applicable laws and judicial interpretations, the length of time before many of these matters might be resolved by settlement or through litigation and, in some cases, the timing of their resolutions relative to other similar cases brought against other companies, the fact that many of these matters are putative class actions in which a class has not been certified and in which the purported class may not be clearly defined, the fact that many of these matters involve multi-state class actions in which the applicable law for the claims at issue is in dispute and therefore unclear, and the current challenging legal environment faced by large corporations and insurance companies.
- In these matters, plaintiffs seek a variety of remedies including equitable relief in the form of injunctive and other remedies and monetary relief in the form of compensatory damages. In most cases, the monetary damages sought include punitive or treble damages. Often more specific information beyond the type of relief sought is not available because plaintiffs have not requested more specific relief in their court pleadings. In addition, the dollar amount of damages sought is frequently not stated with specificity. In those cases where plaintiffs have made a statement with regard to monetary damages, they often specify damages either just above or below a jurisdictional limit regardless of the facts of the case. These limits represent

either the jurisdictional threshold for bringing a case in federal court or the maximum they can seek without risking removal from state court to federal court. In our experience, monetary demands in plaintiffs' court pleadings bear little relation to the ultimate loss, if any, that we may experience. None of the cases described below includes a statement as to the dollar amount of damages demanded. Instead, each of the cases includes a demand in an amount to be proved at trial.

- For the reasons specified above, it is not possible to make meaningful estimates of the amount or range of loss that could result from these matters at this time. We review these matters on an ongoing basis and follow the provisions of Statement of Financial Accounting Standards ("SFAS") No. 5, "Accounting for Contingencies" when making accrual and disclosure decisions. When assessing reasonably possible and probable outcomes, management bases its decision on its assessment of the ultimate outcome following all appeals.
- We intend to vigorously defend each of these matters. In our opinion, while some of these matters may be material to our operating results for any particular period if an unfavorable outcome results, none will have a material adverse effect on our overall financial condition.

There are class actions (*Dubin v. Security Union Title Insurance Company*, filed on March 12, 2003, in the Court of Common Pleas, Cuyahoga County, Ohio and *Randleman v. Fidelity National Title Insurance Company*, filed on February 15, 2006 in the U.S. District Court for the Northern District of Ohio, Western Division; *Patterson v. Fidelity National Title Insurance Company of New York*, filed on October 27, 2003 in the Court of Common Pleas of Allegheny County, Pennsylvania; *O'Day v. Ticor Title Insurance Company of Florida*, filed on October 18, 2006 in the U.S. District Court for the Eastern District of Pennsylvania; *Cohen v. Chicago Title - Insurance Company*, filed on January 27, 2006 in the Court of Common Pleas of Philadelphia County, Pennsylvania; *Guizarri v. Ticor Title Insurance Company*, filed on October 17, 2006 in the U.S. District Court for the Eastern District of Pennsylvania; *Alberton v. Commonwealth Land Title Insurance Company* filed on July 24, 2006 in the United States District Court of the Eastern District of Pennsylvania; *Henderson, Miles, individually and on behalf of all others similarly situated v. Lawyers Title Insurance Corporation*, filed on January 25, 2002, in the Common Pleas Court of Cuyahoga County, Ohio; *Simon, Rodney P. and Tracy L. v. Commonwealth Land Title Insurance Company*, filed on March 5, 2003, in the Court of Common Pleas for Cuyahoga County, Ohio; *Macula v. Lawyers Title Insurance Corporation*, filed on May 25, 2007 in the U.S. District Court for the Northern District of Ohio, Eastern Division; *Higgins, Kenneth and Deete, individually and on behalf of others similarly situated v. Commonwealth Land Title Insurance Company*, filed on September 20, 2004, in the Circuit Court of Nassau County, State of Florida; *DeCooman, Shariee L., individually and on behalf of all others similarly situated v. Lawyers Title Insurance Corporation*, filed on August 12, 2005 in the Court of Common Pleas of Allegheny County, Pennsylvania; *Hancock v. Chicago Title Insurance Company*, filed on August 22, 2007; *Villafranca v. Ticor Title Insurance Company*, filed on January 25, 2008; *Chapman v. Commonwealth Land Title Insurance Company*, filed on January 29, 2009; filed in the United States District Court for the Northern District of Texas; *Leslie v. Fidelity National Title Insurance Company*, filed on August 22, 2008; *Kingsberry v. Chicago Title Insurance Company*, filed on January 8, 2008, in the United States District Court for the Western District of Washington; *Tenhundfeld v. Chicago Title Insurance Company*, filed on February 15, 2007, in the United States District Court for the Eastern District of Kentucky; *Lind v. Fidelity National Title Insurance Company*, filed on April 24, 2008, in the United States District Court for the District of Oregon) pending against several title insurance companies, including Security Union Title Insurance Company, Fidelity National Title Insurance Company, Chicago Title Insurance Company, Ticor Title Insurance Company of Florida, Commonwealth Land Title Insurance Company, Lawyers Title Insurance Corporation, and Ticor Title Insurance Company, alleging improper premiums were charged for title insurance. These cases allege that the named defendant companies failed to provide notice of premium discounts to consumers refinancing their mortgages, and failed to give discounts in refinancing transactions in violation of the filed rates.

In February 2008, thirteen putative class actions were commenced against several title insurance companies, including Fidelity National Title Insurance Company, Chicago Title Insurance Company, Security Union Title Insurance Company and Ticor Title Insurance Company (collectively, the "Fidelity Affiliates"). The complaints also name FNF (together with the Fidelity Affiliates, the "Fidelity Defendants") as a defendant based on its ownership of the Fidelity Affiliates. The complaints, which are brought on behalf of a putative class of consumers

who purchased title insurance in New York, allege that the defendants conspired to inflate rates for title insurance through the Title Insurance Rate Service Association, Inc. (“TIRSA”), a New York State-approved rate service organization which is also named as a defendant. Each of the complaints asserts a cause of action under the Sherman Act and several of the complaints include claims under the Real Estate Settlement Procedures Act as well as New York State statutory and common law claims. The complaints seek monetary damages, including treble damages, as well as injunctive relief. Subsequently, similar complaints were filed in many federal courts. There are now approximately 65 complaints pending alleging that the Fidelity Defendants conspired with their competitors to unlawfully inflate rates for title insurance in every major market in the United States. A motion was filed before the Multidistrict Litigation Panel to consolidate and or coordinate these actions in the United States District Court in the Southern District of New York. However, that motion was denied. The cases are generally being consolidated before one district court judge in each state and scheduled for the filing of consolidated complaints and motion practice. (These cases are Dolan, et al. v. Fidelity Nat’l Title Ins. Co., et al. (Consolidated New York Actions), filed on February 1, 2008 in the Eastern District of New York; In re California Title Insurance Litigation, filed on March 10, 2008 in the Northern District of California; In re Washington Title Insurance Litigation, filed on March 10, 2008 in the Western District of Washington; In re Pennsylvania Title Insurance Litigation, filed on March 11, 2008 in the Eastern District of Pennsylvania; Gougeon, et al. v. Chicago Title Ins. Co., et al. filed on March 12, 2008 in D. Massachusetts; In Re Title Insurance Antitrust Cases, filed March 18, 2008 in the Northern District of Ohio; Classic Homes and Development v. Fidelity Nat’l Title Ins. Co., et al. filed on March 19, 2008 in the Eastern District of Arkansas; In re New Jersey Title Insurance Litigation filed on March 19, 2008 in D. New Jersey; Backel, et al. v. Fidelity Nat’l Title Ins. Co., et al., filed on March 20, 2008 in the Southern District of West Virginia; Winn, et al v. Alamo Title Ins. Co., et al., filed on April 3, 2008 in the Eastern District of Texas; McCray, et al. v. Fidelity Nat’l Title Ins. Co., et al filed on October 15, 2008 in the District of Delaware).

On September 24, 2007 a third party complaint was filed in the In Re Ameriquest Mortgage Lending Practices Litigation in the United States District Court for the Northern District of Illinois by Ameriquest Mortgage Company (“Ameriquest”) and Argent Mortgage Company (“Argent”) against numerous title insurers and agents including Chicago Title Company, Fidelity National Title Company, Fidelity National Title Insurance Company, American Pioneer Title Insurance Company (now known as Ticor Title Insurance Company of Florida), Chicago Title of Michigan, Fidelity National Title Insurance Company of New York, Transnation Title Insurance Company (now known as Lawyers Title Insurance Corporation), Commonwealth Land Title Company, and Ticor Title Insurance Company (collectively, the “FNF Affiliates”). The third party complaint alleges that Ameriquest and Argent have been sued by a class of borrowers alleging that they violated the Truth in Lending Act (“TILA”) by failing to comply with the notice of right to cancel provisions and making misrepresentations in lending to the borrowers, who now seek money damages. Ameriquest and Argent allege that the FNF Affiliates contracted and warranted to close these loans in conformity with the lender’s instructions which correctly followed the requirements of TILA and contained no misrepresentations; therefore, if Ameriquest and Argent are liable to the class, then the FNF Affiliates are liable to them for failing to close the lending transactions as agreed. Ameriquest and Argent seek to recover the cost of resolving the class action against them including their attorney’s fees and costs in the action. The title defendants are organizing to form a defense group and, as requested by the court, are exploring the possibility of filing a single collective response. Recently, the Seventh Circuit, in which these matters are pending, ruled that TILA violations as alleged in these complaints could not be the subject of a class action.

There are class actions pending against FNF, Fidelity National Title Group and several title insurance companies, including Fidelity National Title Insurance Company, Chicago Title Insurance Company, United Title, Inc. (Halpin v. United Title, Inc. filed on January 25, 2008 in the Boulder County District Court, Colorado, Case No. 2008CV99), and Ticor Title Insurance Company, alleging overcharges for government recording fees. These cases allege that the named defendant companies charged fees in excess of the fees charged by government entities in closing transactions and seek various remedies including compensatory damages, prejudgment interest, punitive damages and attorney’s fees. One case recently filed in Kansas seeks to certify a national class against Chicago Title Insurance Company (Hartis v. CTIC filed on August 21, 2008 in the U.S. District Court for the Western District of Missouri, Case No. 08-CV-0607-W-DW). Although the Federal District Court in Kansas refused to certify a national class previously filed by the same plaintiff’s attorneys, this suit seeks to overcome that Court’s objections to certification (Doll v. Chicago Title Insurance Company, filed on September 28, 2006 in the U.S. District Court for the District of Kansas). And, although a similar case filed in Indiana was decertified by the appellate court (Gresh v

CTIC filed on April 29, 2003 in the Lake Superior Court, Hammond, Indiana, Case No. 45D01-0304-PL-0064), and we have moved to decertify a companion case there (Roark v Ticor filed on April 29, 2003 in Lake Superior Court, Hammond, Indiana), the Missouri courts have refused to decertify a case now pending and set for trial June 1, 2009 (Krause v. CTIC filed on September 2, 2005 in Circuit Court of Jackson County, Kansas City, Missouri). On January 30, 2009, the court granted the Fidelity defendants' motion for summary judgment in the recording fee class action in the Federal District Court in Texas, which alleged recording fee overcharges in five states (Arevalo v. Chicago Title Insurance Company and Ticor Title Insurance Company, filed on March 24, 2006 in the U.S. District Court for the Western District of Texas, San Antonio Division, Case No. SA 06CA0265 0G). On January 26, 2009 a recording fee class action was filed in New Jersey. (Arthur Chassen individually and on behalf of all others similarly situated v Fidelity National Financial, filed in the U.S. District Court for New Jersey, Case Number 09-291 (PGS).

There are class actions (Cornelius et al. individually and on behalf of all others similarly situated, v. Fidelity National Title Company et al., W.D.Wash. Case No. 2:08-cv-00754-MJP, filed on May 14, 2008, in the U.S. District Court for the Western District of Washington; Bushbeck, individually and on behalf of all others similarly situated, v. Chicago Title Insurance Co., W.D.Wash. Case No. 2:08-CV-00755-JLR filed on May 14, 2008, in the U.S. District Court for the Western District of Washington; Hanka, individually and on behalf of all others similarly situated, v. Chicago Title Insurance Company, W.D. Wash. Case No. 2:08-cv-00984-JLR filed on June 26, 2008, in the U.S. District Court for the Western District of Washington) pending against Fidelity National Title Company, Fidelity National Title Company of Washington, Inc., and Chicago Title Insurance Company, alleging that the named defendants in each case charged unnecessary reconveyance fees (Cornelius, Bushbeck) and unnecessary "junk" fees (wire fees; document download fees) (Hanka) without performing any separate service for those fees which was not already included as a service for the "escrow fee". Additionally, two of the cases (Cornelius and Hanka) allege that the named defendants wrongfully earned interest or other benefits on escrowed funds from the time funds were deposited into escrow until any disbursement checks cleared the account. Motions for class certification have not yet been filed in any of these cases.

On December 3, 2007, a former title officer for Lawyers Title Insurance Corporation in California filed a putative class action suit against Lawyers and LandAmerica Financial Group, Inc. ("LFG") (together, the "Defendants") in the Superior Court of California for Los Angeles County (Chaffin v. Lawyers Title Company and LandAmerica Financial Group, Inc., filed on December 3, 2007 in the Superior Court for Los Angeles County). A similar putative class action was filed against the Defendants by former Lawyers escrow officers in California, in the same court on December 12, 2007 (Hay et al. v. Lawyers Title Company and LandAmerica Financial Group, Inc., filed on December 12, 2007 in the Superior Court for Los Angeles County). The plaintiffs' complaints in both lawsuits allege failure to pay overtime and other related violations of the California Labor Code, as well as unfair business practices under the California Business and Professions Code § 17200 on behalf of all current and former California title and escrow officers. The underlying basis for both lawsuits is an alleged misclassification of title and escrow officers as "exempt" employees for purposes of the California Labor Code, which resulted in a failure to pay overtime and provide for required meal and rest breaks. Although such employees were reclassified as "non-exempt" beginning on January 1, 2006, the complaints allege similar violations of the California Labor Code even after that date for alleged "off-the-clock" work. The plaintiffs' complaints in both cases demand an unspecified amount of back wages, statutory penalties, declaratory and injunctive relief, punitive damages, interest, and attorneys' fees and costs. The plaintiffs have yet to file a motion for class certification, as the parties have agreed to mediation in May 2009. Should further litigation prove necessary following the mediation, we believe we have meritorious defenses both to class certification and to liability.

Various governmental entities are studying the title insurance product, market, pricing, business practices, and potential regulatory and legislative changes. We receive inquiries and requests for information from state insurance departments, attorneys general and other regulatory agencies from time to time about various matters relating to our business. Sometimes these take the form of civil investigative subpoenas. We attempt to cooperate with all such inquiries. From time to time, we are assessed fines for violations of regulations or other matters or enter into settlements with such authorities which require us to pay money or take other actions. For a description of certain pending regulatory matters in California, see Item 1A, Risk Factors.

Item 4. Submission of Matters to a Vote of Security Holders

None.

PART II

Item 5. Market for Registrant's Common Equity and Related Stockholder Matters and Issuer Purchases of Equity Securities

Our common stock is traded on the New York Stock Exchange under the symbol "FNF". The following table shows, for the periods indicated, the high and low sales prices of our common stock, as reported by the New York Stock Exchange, and the amounts of dividends per share declared on our common stock.

	<u>High</u>	<u>Low</u>	<u>Cash Dividends Declared</u>
Year ended December 31, 2008			
First quarter	\$20.96	\$12.60	\$0.30
Second quarter	19.17	12.56	0.30
Third quarter	18.19	11.93	0.30
Fourth quarter	18.51	6.66	0.15
Year ended December 31, 2007			
First quarter	\$26.21	\$22.92	\$0.30
Second quarter	28.62	22.92	0.30
Third quarter	24.22	16.46	0.30
Fourth quarter	17.81	13.10	0.30

On January 30, 2009 the last reported sale price of our common stock on the New York Stock Exchange was \$14.62 per share. As of January 30, 2009, we had approximately 5,487 stockholders of record.

On February 3, 2009, our Board of Directors formally declared a \$0.15 per share cash dividend that is payable on March 31, 2009 to stockholders of record as of March 17, 2009.

Our current dividend policy anticipates the payment of quarterly dividends in the future. The declaration and payment of dividends will be at the discretion of our Board of Directors and will be dependent upon our future earnings, financial condition and capital requirements. Our ability to declare dividends is subject to restrictions under our existing credit agreement. We do not believe the restrictions contained in our credit agreement will, in the foreseeable future, adversely affect our ability to pay cash dividends at the current dividend rate.

Since we are a holding company, our ability to pay dividends will depend largely on the ability of our subsidiaries to pay dividends to us, and the ability of our title insurance subsidiaries to do so is subject to, among other factors, their compliance with applicable insurance regulations. As of December 31, 2008, \$1,547.5 million of the Company's net assets are restricted from dividend payments without prior approval from the Departments of Insurance in the States where our title insurance subsidiaries are domiciled. During 2009, our directly owned title insurance subsidiaries can pay dividends or make distributions to us of approximately \$214.7 million without prior approval. The limits placed on such subsidiaries' abilities to pay dividends affect our ability to pay dividends.

On October 25, 2006, our Board of Directors approved a three-year stock repurchase program under which we can repurchase up to 25 million shares of our common stock. We may make purchases from time to time in the open market, in block purchases or in privately negotiated transactions, depending on market conditions and other factors. We began purchasing shares under this program on a regular basis on April 30, 2007, and, through December 31, 2008, we had repurchased a total of 12,840,470 shares for \$229.1 million, or an average of \$17.84 per share, none of which were purchased in the three months ended December 31, 2008. We have not repurchased any shares under this program since December 31, 2008. For more information, please see "Liquidity and Capital Resources" in Item 7 of this Form 10-K.

Item 6. Selected Financial Data

The information set forth below should be read in conjunction with the consolidated financial statements and related notes and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” included elsewhere in this Form 10-K. Certain reclassifications have been made to the prior year amounts to conform with the 2008 presentation.

Acquisitions among entities under common control such as Old FNF’s 2006 contribution of assets to us in connection with the 2006 Distribution are not considered business combinations and are to be accounted for at historical cost in accordance with Emerging Issues Task Force (“EITF”) 90-5, “Exchanges of Ownership Interests between Enterprises under Common Control.” Furthermore, the substance of that asset contribution, the 2006 Distribution and the Old FNF-FIS merger is effectively a reverse spin-off of FIS by Old FNF in accordance with EITF 02-11, “Accounting for Reverse Spinoffs.” Accordingly, the historical financial statements of Old FNF became those of FNF. As a result, the data shown below for periods or dates prior to October 24, 2006, the date the 2006 Distribution was completed, are the data of Old FNF, including the results of both FIS and us (referred to as FNT) as subsidiaries of Old FNF. Following completion of the 2006 Distribution, however, the criteria to account for FIS as discontinued operations as prescribed by SFAS No. 144, “Accounting for the Impairment or Disposal of Long-Lived Assets,” were not met. This is primarily due to our continuing involvement with and significant influence over FIS subsequent to the merger of Old FNF and FIS through common board members, common senior management and continuing business relationships. As a result, for periods prior to October 24, 2006, FIS continues to be included in our consolidated financial statements.

- (1) Our financial results for the year ended December 31, 2008, include a charge to our provision for claim losses of \$261.6 million (\$157.0 million net of income taxes) which we recorded as a result of adverse claim loss development on prior policy years and the results of various entities acquired on various dates during 2008.
- (2) Our financial results for the year ended December 31, 2007, include charges to our provision for claim losses totaling \$217.2 million (\$159.5 million net of income taxes) which we recorded as a result of adverse claim loss development on prior policy years and the results of various entities acquired on various dates during 2007.
- (3) Beginning October 24, 2006, the date on which the 2006 Distribution was completed, our financial results no longer include the results of FIS. The operations of FIS continue to be included in our results for periods prior to October 24, 2006. In addition, FIS's financial results for 2006 include the results of operations of Certegy Inc. ("Certegy") since February 1, 2006, the date on which Certegy was acquired by FIS (see note B of Notes to Consolidated Financial Statements).
- (4) Our financial results for the year ended December 31, 2005 include in revenue and net earnings a \$318.2 million gain on sale relating to the issuance of subsidiary stock, approximately \$100.0 million in

additional income tax expense relating to the distribution to our shareholders of a 17.5% interest of FNT and additional minority interest expense related to the minority interests issued in FNT and FIS. (See note A of the Notes to Consolidated Financial Statements).

- (5) Our financial results for the year ended December 31, 2004 include the results of various entities acquired on various dates during 2004.
- (6) Our historical basic and diluted earnings per share for 2006 and 2005 have been calculated using FNT's basic and diluted weighted average shares outstanding.
- (7) Unaudited pro forma net earnings per share for 2004 is calculated using the number of outstanding shares of Old FNF on a date prior to the distribution of FNT shares to Old FNF shareholders in 2005.
- (8) Investments as of December 31, 2008, 2007, 2006, 2005, and 2004 include securities pledged to secure trust deposits of \$382.5 million, \$513.8 million, \$696.8 million, \$656.0 million, and \$546.0 million, respectively. Investments as of December 31, 2008, 2007, 2006, and 2005 include securities pledged relating to our securities lending program of \$103.6 million, \$264.2 million, \$305.3 million and \$138.7 million, respectively.
- (9) Cash and cash equivalents as of December 31, 2008, 2007, 2006, 2005, and 2004 include cash pledged to secure trust deposits of \$109.6 million, \$193.5 million, \$228.5 million, \$234.7 million, and \$195.2 million, respectively. Cash and cash equivalents as of December 31, 2008, 2007, 2006 and 2005 include cash pledged relating to our securities lending program of \$107.6 million, \$271.8 million, \$316.0 million, and \$143.4 million, respectively.
- (10) As a result of adverse title insurance claim loss development on prior policy years, we recorded charges in 2008 totaling \$261.6 million, or \$157.0 million net of income taxes, and in 2007 totaling \$217.2 million, or \$159.5 million net of income taxes, to our provision for claim losses. These charges were recorded in addition to our provision for claim losses of 8.5% and 7.5% for the years ended December 31, 2008 and 2007, respectively.
- (11) Book value per share is calculated as stockholders' equity at December 31 of each year presented divided by actual shares outstanding at December 31 of each year presented.
- (12) Includes title insurance premiums and escrow, title-related and other fees.

Selected Quarterly Financial Data (Unaudited)

Selected quarterly financial data is as follows:

	Quarter Ended			
	March 31,	June 30,	September 30,(1)	December 31,(2)
	(In thousands, except per share data)			
2008				
Revenue	\$1,137,160	\$1,179,798	\$ 989,683	\$1,022,454
Earnings (loss) before income taxes, equity in income of unconsolidated affiliates, and minority interest	36,367	13,527	(322,874)	(22,413)
Net earnings (loss)	27,245	6,925	(198,302)	(14,884)
Basic earnings (loss) per share	0.13	0.03	(0.95)	(0.07)
Diluted earnings (loss) per share	0.13	0.03	(0.95)	(0.07)
Dividends paid per share	0.30	0.30	0.30	0.15
2007				
Revenue	\$1,366,880	\$1,495,000	\$1,361,408	\$1,299,887
Earnings (loss) before income taxes, equity in income of unconsolidated affiliates, and minority interest	124,705	126,441	(66)	(75,402)
Net earnings (loss)	83,399	84,835	6,472	(44,937)
Basic earnings (loss) per share	0.38	0.39	0.03	(0.21)
Diluted earnings (loss) per share	0.37	0.38	0.03	(0.21)
Dividends paid per share	0.30	0.30	0.30	0.30

(1) Includes loss provision charge of \$261.6 million, or \$157.0 million net of income taxes, in 2008 and \$81.5 million, or \$55.5 million net of income taxes, in 2007.

(2) Includes loss provision charge of \$135.7 million, or \$104.0 million net of income taxes, in 2007.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the Consolidated Financial Statements and the Notes thereto and Selected Financial Data included elsewhere in this Form 10-K.

The results of operations and statement of financial position reported on this Form 10-K have been adjusted for certain items and reclassifications determined subsequent to our earnings release on February 4, 2009. These adjustments primarily relate to purchase accounting reclassifications on the balance sheet that arose as we continued to analyze balances in conjunction with the acquisition of the LFG Underwriters on December 22, 2008 and other adjustments arising during the completion of the audit of our reported results. These adjustments reduced our 2008 year to date earnings approximately \$21.7 million pre-tax, \$13.2 million after-tax, or \$0.06 per share, as compared with the amounts reported in our earnings release on February 4, 2009.

Premium revenues from agency operations and agency commissions include an accrual based on estimates using historical information of the volume of transactions that have closed in a particular period for which premiums have not yet been reported to us. The accrual for agency premiums is necessary because of the lag between the closing of these transactions and the reporting of these policies to us by the agent. During the third quarter of 2008, we re-evaluated and refined the method that we use to estimate this accrual, which resulted in a reduction in revenue from agency title insurance premiums of \$138.5 million compared to the revenues that would have been accrued under our prior method. The impact of this adjustment was a decrease of \$11.8 million in pre-tax earnings and \$7.6 million in net income, or approximately \$0.04 per share, compared to the amounts that would have been recorded under our prior method. We believe that this adjustment is properly reflected as a change in accounting estimate in the third quarter of 2008.

Recent Developments

On December 22, 2008, we completed the acquisition of LandAmerica Financial Group, Inc.'s ("LFG") two principal title insurance underwriters, Commonwealth Land Title Insurance Company ("Commonwealth") and Lawyers Title Insurance Corporation ("Lawyers"), as well as United Capital Title Insurance Company ("United"). The total purchase price for Commonwealth and Lawyers was \$238.0 million, net of cash acquired of \$8.8 million, and was comprised of \$134.8 million paid in cash by two of our title insurance underwriters, Fidelity National Title Insurance Company and Chicago Title Insurance Company, a \$50 million subordinated note due in 2013 (see note I of Notes to Consolidated Financial Statements), and \$50 million in FNF common stock (3,176,620 shares valued at \$15.74 per share at the time of closing). In addition, Fidelity National Title Insurance Company purchased United from an indirect subsidiary of LFG for a purchase price of approximately \$12 million, equal to an estimate (subject to post-closing adjustment) of the statutory net worth of United at the time of closing. The operations of these companies are included in the Fidelity National Title Group segment from their acquisition date of December 22, 2008.

During 2008, prior to the acquisition, the LFG Underwriters generated significant revenue but had substantial losses from operations. Since the acquisition, FNF has been engaged in an effort to reduce overhead at the LFG Underwriters and restore them to profitability. Through the end of January, FNF had eliminated approximately 1,500 of the 5,500 employees and closed approximately 125 of the offices acquired in the transaction. Agent relationships are also being evaluated and reductions in the agency base have also occurred and are continuing. As a result of these measures, and due in part to the loss of business momentum at the LFG Underwriters prior to the acquisition resulting from the Chapter 11 case of LFG and other causes, it seems likely that the operations of the LFG Underwriters will, at least initially, be somewhat less sizable than they were historically. For the months of January and February 2009, the direct operations of the LFG Underwriters contributed an average of approximately 16% of the total direct orders opened by the Company. Therefore, the reported results of the LFG Underwriters for prior periods are not necessarily indicative of the results to be expected for any future period.

Overview

We are a holding company that is a provider, through our subsidiaries, of title insurance, specialty insurance, claims management services, and information services. We are the nation's largest title insurance company through our title insurance underwriters — Fidelity National Title, Chicago Title, Commonwealth Land Title, Lawyers Title, Ticor Title, Security Union Title, and Alamo Title — which collectively issued more title insurance policies in 2007 than any other title company in the United States. We also provide flood insurance, personal lines insurance, and home warranty insurance through our specialty insurance subsidiaries. We are also a leading provider of outsourced claims management services to large corporate and public sector entities through our minority-owned affiliate, Sedgwick CMS Holdings ("Sedgwick") and a provider of information services in the human resources, retail, and transportation markets through another minority-owned affiliate, Ceridian Corporation ("Ceridian").

Prior to October 24, 2006, we were known as Fidelity National Title Group, Inc. ("FNT") and were a majority-owned subsidiary of another publicly traded company, also called Fidelity National Financial, Inc. ("Old FNF"). On October 24, 2006, Old FNF transferred certain assets to us in return for the issuance of 45,265,956 shares of our common stock to Old FNF. Old FNF then distributed to its shareholders all of its shares of our common stock, making FNT a stand alone public company (the "2006 Distribution"). On November 9, 2006, Old FNF was then merged with and into another of its subsidiaries, Fidelity National Information Services, Inc. ("FIS"), after which we changed our name to Fidelity National Financial, Inc. ("FNF" or the "Company"). On November 10, 2006, our common stock began trading on the New York Stock Exchange under the trading symbol "FNF." On July 2, 2008, FIS completed the spin-off of its former Lender Processing Services operating segment into a separate publicly traded company, referred to as LPS, by distributing all of its shares of LPS to FIS shareholders through a stock dividend. Old FNF's chairman of the board and chief executive officer is now our chairman of the board, the executive chairman of the board of FIS, and the chairman of the board of LPS. Other key members of Old FNF's senior management have also continued their involvement at FNF, FIS, and LPS in executive capacities. Under applicable accounting principles, following these transactions, Old FNF's historical financial statements, with the exception of equity and earnings per share, became our historical financial statements, including the results of FIS through the date of our spin-off from Old FNF. For periods prior to October 24, 2006 our equity has been derived

from FNT's historical equity and our historical basic and diluted earnings per share have been calculated using FNT's basic and diluted weighted average shares outstanding.

We currently have three reporting segments as follows:

- *Fidelity National Title Group.* This segment consists of the operation of our title insurance underwriters and related businesses. This segment provides core title insurance and escrow and other title-related services including collection and trust activities, trustee's sales guarantees, recordings and reconveyances.
- *Specialty Insurance.* The specialty insurance segment consists of certain subsidiaries that issue flood, home warranty, homeowners, automobile and other personal lines insurance policies. Our Board of Directors has authorized us to investigate strategic alternatives for certain of our specialty insurance businesses. The assets to be evaluated include the flood insurance and personal lines insurance businesses, but not the home warranty business. However, there can be no assurance that any transaction will be completed.
- *Corporate and Other.* The corporate and other segment consists of the operations of the parent holding company, certain other unallocated corporate overhead expenses, other smaller operations, and our share in the operations of certain equity investments, including Sedgwick, Ceridian and Remy International, Inc. ("Remy").

Through October 23, 2006, our results also included the operations of FIS as a separate segment. This segment provided transaction processing services, consisting principally of technology solutions for banks and other financial institutions, credit and debit card services and check risk management and related services for retailers and others. This segment also provided lender processing services, consisting principally of technology solutions for mortgage lenders, selected mortgage origination services such as title agency and closing services, default management and mortgage information services. FIS's credit and debit card services and check risk management services were added through its merger with Certegy Inc. ("Certegy"). This merger closed in February 2006 and as a result these businesses are not included in FIS's financial information prior to the closing.

Related Party Transactions

Our financial statements reflect transactions with FIS and LPS, which are related parties. Please see note A of the Notes to Consolidated Financial Statements.

Business Trends and Conditions

Fidelity National Title Group

Title insurance revenue is closely related to the level of real estate activity which includes sales, mortgage financing and mortgage refinancing. The levels of real estate activity are primarily affected by the average price of real estate sales, the availability of funds to finance purchases and mortgage interest rates. Both the volume and the average price of residential real estate transactions have recently experienced declines in many parts of the country, and these trends appear likely to continue. Declines in the level of real estate activity or the average price of real estate sales are likely to adversely affect our title insurance revenues. The volume of refinancing transactions in particular and mortgage originations in general declined in the 2006 through 2008 period from 2005 and prior levels, resulting in reduction of revenues in some of our businesses.

We have found that residential real estate activity generally decreases in the following situations:

- when mortgage interest rates are high or increasing;
- when the mortgage funding supply is limited; and
- when the United States economy is weak.

Because these factors can change dramatically, revenue levels in the title insurance industry can also change dramatically. For example, from January 2001 through June 2004, the Federal Reserve decreased interest rates by a total of 550 basis points, bringing interest rates down to a level not seen before in recent history and increasing the

volume of residential real estate purchases and refinance activity. From June 2004 through September 2007, the Federal Reserve increased interest rates by a total of 425 basis points. In 2007, as interest rates on adjustable rate mortgages reset to higher rates, foreclosures on subprime mortgage loans increased to record levels. This resulted in a significant decrease in levels of available mortgage funding as investors became wary of the risk associated with investing in subprime mortgage loans. In addition, tighter lending standards and a bearish outlook on the real estate environment caused potential home buyers to become reluctant to purchase homes. In 2008, the increase in foreclosure activity, which had previously been limited to the subprime mortgage market, became more widespread as borrowers encountered difficulties in attempting to refinance their adjustable rate mortgages. In 2008, the sharply rising mortgage delinquency and default rates caused negative operating results at a number of banks and financial institutions and, as a result, significantly reduced the level of lending activity. Several banks have failed in recent months and others may fail in the short to medium term, further reducing the capacity of the mortgage industry to make loans. As a result of these factors, our title insurance order counts and revenues have decreased substantially. The Federal Reserve tried to alleviate investors' concerns by reducing interest rates by a total of 75 basis points in late 2007, 325 basis points through October 2008, and another 75-100 basis points in December 2008. The federal funds rate is now 0.0%-0.25% compared to 5.25% in August 2007. A reduction in rates in the first quarter of 2008 resulted in a temporary increase in refinance order volumes that was not sustained. The further reduction in rates in the fourth quarter of 2008 has resulted in another increase in refinance order volumes in December 2008 and continuing into February 2009. However, it is too soon to tell if the portion of these open orders that actually closes will be consistent with our closing percentages in prior periods or how long this increased activity will last. According to the Mortgage Bankers Association's ("MBA") current mortgage finance forecast, U.S. mortgage originations (including refinancings) were approximately \$1.7 trillion, \$2.3 trillion, and \$2.7 trillion in 2008, 2007, and 2006, respectively. The MBA's Mortgage Finance Forecast estimates a \$2.0 trillion mortgage origination market for 2009, which would be an increase of 12.1% from 2008. The MBA further forecasts that the 12.1% increase will result primarily from refinance transactions.

Our revenues in future periods will continue to be subject to these and other factors which are beyond our control and, as a result, are likely to fluctuate.

In October 2008, we announced our plans to begin the process of reviewing and increasing our title insurance rates across the country. Since that time, we have instituted revised rates that are now effective in approximately 21 states, including a 10% increase in California. The pricing increases have been generally in the range 5-10%. Additional rate revisions are pending in a number of other states and we are also analyzing the filed rates of the LFG Underwriters to make them consistent with the rest of our underwriters.

Because commercial real estate transactions tend to be driven more by supply and demand for commercial space and occupancy rates in a particular area rather than by macroeconomic events, our commercial real estate title insurance business can generate revenues which are not dependent on the industry cycles discussed above.

Historically, real estate transactions have produced seasonal revenue levels for title insurers. The first calendar quarter is typically the weakest quarter in terms of revenue due to the generally low volume of home sales during January and February. The third calendar quarter has been typically the strongest in terms of revenue primarily due to a higher volume of home sales in the summer months and the fourth quarter is usually also strong due to commercial entities desiring to complete transactions by year-end. In 2007 and 2008, we have seen a divergence from these historical trends as tighter lending standards, including a significant reduction in the availability of mortgage lending, combined with rising default levels and a bearish outlook on the real estate environment have caused potential home buyers to be more reluctant to buy homes and have suppressed refinance activity. In addition, we have experienced a significant decrease in our commercial fee per file, which we believe is due, in part, to delays in the closings of many larger deals resulting from difficulties or delays in obtaining financing.

Specialty Insurance

Our specialty insurance business participates in the NFIP. We earn fees under that program for settling flood claims and administering the program. We serve as administrator and processor in our flood insurance business, and bear none of the underwriting or claims risk. The U.S. federal government is guarantor of flood insurance coverage written under NFIP and bears the underwriting risk. Revenues from our flood insurance business are impacted by

the volume and magnitude of claims processed as well as the volume and rates for policies written. For example, when a large number of claims are processed as a result of a natural disaster, such as a hurricane, we experience an increase in the fees that we receive for settling the claims.

Revenues from our homeowners' insurance and home warranty businesses are impacted by the level of residential real estate purchase activity in the U.S. and the general state of the economy as well as our market share. Recently, revenues from our homeowners' insurance business have decreased as a result of efforts to tighten our underwriting standards and eliminate unprofitable agents and territories, a strategy which we believe will benefit the Company in the long term.

Critical Accounting Estimates

The accounting estimates described below are those we consider critical in preparing our Consolidated Financial Statements. Management is required to make estimates and assumptions that can affect the reported amounts of assets and liabilities and disclosures with respect to contingent assets and liabilities at the date of the Consolidated Financial Statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from those estimates. See note A of Notes to the Consolidated Financial Statements for a more detailed description of the significant accounting policies that have been followed in preparing our Consolidated Financial Statements.

Reserve for Claim Losses. Title companies issue two types of policies since both the buyer and lender in real estate transactions want to know that their interest in the property is insured against certain title defects outlined in the policy. An owner's policy insures the buyer against such defects for as long as he or she owns the property (as well as against warranty claims arising out of the sale of the property by such owner). A lender's policy insures the priority of the lender's security interest over the claims that other parties may have in the property. The maximum amount of liability under a title insurance policy is generally the face amount of the policy plus the cost of defending the insured's title against an adverse claim. While most non-title forms of insurance, including property and casualty, provide for the assumption of risk of loss arising out of unforeseen future events, title insurance serves to protect the policyholder from risk of loss from events that predate the issuance of the policy.

Unlike many other forms of insurance, title insurance requires only a one-time premium for continuous coverage until another policy is warranted due to changes in property circumstances arising from refinance, resale, additional liens, or other events. Unless we issue the subsequent policy, we receive no notice that our exposure under our policy has ended and, as a result, we are unable to track the actual terminations of our exposures.

Our reserve for claim losses includes reserves for known claims ("PLR") as well as for losses that have been incurred but not yet reported to us ("IBNR"), net of recoupments. We reserve for each known claim based on our review of the estimated amount of the claim and the costs required to settle the claim. Reserves for IBNR claims are estimates that are established at the time the premium revenue is recognized and are based upon historical experience and other factors, including industry trends, claim loss history, legal environment, geographic considerations, and the types of policies written. We also reserve for losses arising from escrow, closing and disbursement functions due to fraud or operational error.

The table below summarizes our reserves for known claims and incurred but not reported claims related to title insurance.

	As of December 31, 2008	%	As of December 31, 2007	%
	(In thousands)			
PLR	\$ 369,085	13.8%	\$ 214,243	16.2%
IBNR	<u>2,309,902</u>	<u>86.2%</u>	<u>1,108,379</u>	<u>83.8%</u>
Total Reserve	<u>\$2,678,987</u>	<u>100.0%</u>	<u>\$1,322,622</u>	<u>100.0%</u>

Although most claims against title insurance policies are reported relatively soon after the policy has been issued, claims may be reported many years later. By their nature, claims are often complex, vary greatly in dollar amounts and are affected by economic and market conditions and the legal environment existing at the time of

settlement of the claims. Estimating future title loss payments is difficult because of the complex nature of title claims, the long periods of time over which claims are paid, significantly varying dollar amounts of individual claims and other factors.

Our process for recording our reserves for claim losses begins with analysis of our loss provision rate. Management forecasts ultimate losses for each policy year based upon examination of historical policy year loss emergence (development) and adjustment of the emergence patterns to reflect policy year differences in the effects of various influences on the timing, frequency and severity of claims. Management also uses a technique that relies on historical loss emergence and on a premium-based exposure measurement. The latter technique is particularly applicable to the most recent policy years, which have few reported claims relative to an expected ultimate claim volume. After considering historical claim losses, reporting patterns and current market information, and analyzing quantitative and qualitative data provided by our legal, claims and underwriting departments, management determines a loss provision rate, which it records as a percentage of current premiums. This loss provision rate is set to provide for losses on current year policies. We have been recording our loss provision at 8.5% and 7.5% of premiums during 2008 and 2007, respectively. At each quarter end, our recorded reserve for claim losses is initially the result of taking the prior recorded reserve for claim losses, adding the current provision to that balance and subtracting actual paid claims from that balance, resulting in an amount that management then compares to the actuarial point estimate provided in the actuarial calculation.

Due to the uncertainty inherent in the process and to the judgment used by both management and our actuary, our ultimate liability may be greater or less than our current reserves and/or our actuary's calculation. If the recorded amount is within a reasonable range of the actuary's point estimate, but not at the point estimate, management assesses other factors in order to be comfortable with the position of the recorded reserve within a range. These factors, which are more qualitative than quantitative, can change from period to period, and include items such as current trends in the real estate industry (which management can assess, but for which there is a time lag in the development of the data used by our internal actuary), the stratification of certain claims (large vs. small), improvements in the Company's claims management processes, and other cost saving measures. If the recorded amount is not within a reasonable range of our internal actuary's point estimate, we would record a charge and reassess the loss provision rate on a go forward basis. We will continue to reassess the provision to be recorded in future periods consistent with this methodology.

At December 31, 2008, our initial reserve for claim losses, excluding the reserve for claim losses included in the net assets that we purchased from LFG, was \$1.563 billion, which was \$16.1 million, or 1.0%, higher than our internal actuary's point estimate of \$1.547 billion. We believe our recorded position is adequate as of December 31, 2008. As of September 30, 2008, our initial recorded reserve for claim losses was \$1.303 billion, \$261.6 million lower than our internal actuary's point estimate of \$1.565 billion. As a result, at September 30, 2008, management determined that our initial recorded amount was outside of a reasonable range from our internal actuary's estimate and we recorded a charge of \$261.6 million in addition to our 8.5% provision for claim losses. This charge resulted in a balance of \$1.565 billion in our title insurance claim loss reserve, which was in agreement with our actuary's point estimate at September 30, 2008. The significant development during the quarter ended September 30, 2008, was due to changes in our actuarial model resulting, in part, from adverse claim loss development on prior policy years. Because of continued adverse reported and paid claim trends over the previous six quarters, our actuarial model in the third quarter of 2008 was modified to more heavily weight the three most recent full years' data on loss experience and to incorporate that data into the assumptions and factors that determine ultimate expected loss experience for all prior calendar years. We also had an external actuary perform an independent review of our reserve position at September 30, 2008, and the conclusion reached by the external actuary was consistent with that of our internal actuarial model.

In connection with the acquisition of the LFG Underwriters on December 22, 2008, we have recorded a reserve for claim losses of \$1.116 billion. The acquired reserves were computed by performing an actuarial analysis which utilized a process similar to FNF's process described above and then applying an adjustment to the actuarial balance to record the acquired reserves at their estimated fair value as of December 31, 2008. The fair value adjustments were calculated by taking the estimated payment stream of the actuarial reserves and discounting them utilizing the U.S. Treasury Yield Curve. We then applied a discounted risk and profit load to the discounted reserves to estimate the fair value of the claim loss reserves at December 31, 2008.

As of December 31, 2007, our initial recorded reserve for claim losses was \$1.187 billion, \$97.3 million lower than our internal actuary's point estimate of \$1.284 billion. As of September 30, 2007, our initial recorded reserve for claim losses was \$1.152 billion, \$81.5 million lower than our internal actuary's estimate of \$1.233 billion. As a result, at December 31, 2007 and at September 30, 2007, management determined that our initial recorded amounts were outside of a reasonable range from our internal actuary's estimates and we recorded total charges in 2007 of \$217.2 million (made up of \$81.5 million in the third quarter and \$135.7 million in the fourth quarter) in addition to our 7.5% provision for claim losses. These charges resulted in a balance of \$1.323 billion in our title insurance claim loss reserve at December 31, 2007, which was \$39 million, or 3%, higher than the actuary's point estimate but still within a reasonable range. Management believed the appropriate reserve was higher than the actuary's point estimate because, in our judgment, as a result of the actuarial models and assumptions used, the full extent of adverse development in the trend of paid claims had not yet been fully reflected in the actuary's estimate at December 31, 2007. We believed that such adverse paid development would result in an increase in ultimate losses for prior years over and above those projected by our internal actuary's point estimate, thus we provided for ultimate loss in excess of such estimate. Please see Item IA, Risk Factors, "If we observe changes in the rate of title insurance claims, it may be necessary for us to record additional charges to our claim loss reserve. This may result in lower net earnings and the potential for earnings volatility."

The table below presents our title insurance loss development experience for the past three years.

	<u>2008</u>	<u>2007</u>	<u>2006</u>
		(In thousands)	
Beginning balance	\$1,354,061	\$1,154,872	\$1,068,072
Reserve assumed/(transferred)(a)	1,115,803	—	(8,515)
Claims loss provision related to:			
Current year	229,076	285,034	306,179
Prior years	<u>261,876</u>	<u>217,216</u>	<u>39,399</u>
Total claims loss provision	<u>490,952</u>	<u>502,250</u>	<u>345,578</u>
Claims paid, net of recoupments related to:			
Current year	(12,865)	(16,982)	(18,815)
Prior years	<u>(268,964)</u>	<u>(286,079)</u>	<u>(231,448)</u>
Total claims paid, net of recoupments	<u>(281,829)</u>	<u>(303,061)</u>	<u>(250,263)</u>
Ending balance	<u>\$2,678,987</u>	<u>\$1,354,061</u>	<u>\$1,154,872</u>
Title premiums	\$2,695,009	\$3,800,458	\$4,608,329

	<u>2008</u>	<u>2007</u>	<u>2006</u>
	(In thousands)		
Provision for claim losses as a percentage of title insurance premiums:			
Current year	8.5%	7.5%	6.6%
Prior years	<u>9.7%</u>	<u>5.7%</u>	<u>0.9%</u>
Total provision	<u>18.2%</u>	<u>13.2%</u>	<u>7.5%</u>

(a) Reserves assumed in 2008 were assumed in the purchase of the LFG Underwriters.

An approximate \$27.0 million increase (decrease) in our annualized provision for claim losses would occur if our loss provision rate were 1% higher (lower), based on 2008 title premiums of \$2,695.0 million. A 5% increase (decrease) in our estimate of the reserve for claim losses would result in an increase (decrease) in our provision for claim losses of approximately \$133.9 million.

Additionally, for our specialty insurance businesses, we had claims reserves of \$59.6 million and \$65.8 million as of December 31, 2008 and 2007.

Valuation of Investments. We regularly review our investment portfolio for factors that may indicate that a decline in fair value of an investment is other-than-temporary. Some factors considered in evaluating whether or not a decline in fair value is other-than-temporary include: (i) our ability and intent to retain the investment for a period of time sufficient to allow for a recovery in value; (ii) the duration and extent to which the fair value has been less than cost; and (iii) the financial condition and prospects of the issuer. Such reviews are inherently uncertain and the value of the investment may not fully recover or may decline in future periods resulting in a realized loss. Investments are selected for analysis whenever an unrealized loss is greater than a certain threshold that we determine based on the size of our portfolio. Fixed maturity investments that have unrealized losses caused by interest rate movements are not at risk as we have the ability and intent to hold them to maturity. Unrealized losses on investments in equity securities and fixed maturity instruments that are susceptible to credit related declines are evaluated based on the aforementioned factors. Currently available market data is considered and estimates are made as to the duration and prospects for recovery, and the ability to retain the investment until such recovery takes place. These estimates are revisited quarterly and any material degradation in the prospect for recovery will be considered in the other than temporary impairment analysis. We believe that our monitoring and analysis has allowed for the proper recognition of other than temporary impairments over the past three year period. Any change in estimate in this area will have an impact on the results of operations of the period in which a charge is taken. Our investment portfolio exposure to sub-prime mortgage backed securities is immaterial.

In September 2006, the Financial Accounting Standards Board (“FASB”) issued SFAS No. 157, “Fair Value Measurements” (“SFAS 157”). SFAS 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements by establishing a fair value hierarchy based on the quality of inputs used to measure fair value.

SFAS 157 does not require any new fair value measurements, but applies under other accounting pronouncements that require or permit fair value measurements. SFAS 157 is effective for financial statements for fiscal years beginning after November 15, 2007. We adopted SFAS 157 as of January 1, 2008. FASB Staff Position SFAS No. 157-2, “Effective Date of FASB Statement No. 157,” delays the effective date of SFAS 157 with respect to nonfinancial assets and nonfinancial liabilities that are not remeasured at fair value on a recurring basis until fiscal years beginning after November 15, 2008. Accordingly, the Company has not yet applied the disclosure requirements of SFAS 157 to certain such nonfinancial assets for which fair value measurements are determined on a non-recurring basis only when there is an indication of potential impairment.

The fair value hierarchy established by SFAS 157 includes three levels which are based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument. In accordance with SFAS No. 157, our financial assets and liabilities that are recorded in the Consolidated Balance Sheets are categorized based on the inputs to the valuation techniques as follows:

Level 1. Financial assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market that we have the ability to access.

Level 2. Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable either directly or indirectly for substantially the full term of the asset or liability.

Level 3. Financial assets and liabilities whose values are based on model inputs that are unobservable.

The following table presents our fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2008 (in thousands):

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Fixed maturities available for sale	\$ —	\$2,821,774	\$32,055	\$2,853,829
Equity securities available for sale	<u>71,516</u>	<u>—</u>	<u>—</u>	<u>71,516</u>
Total	<u>\$71,516</u>	<u>\$2,821,774</u>	<u>\$32,055</u>	<u>\$2,925,345</u>

Our level 2 fair value measures for fixed-maturities available for sale are provided by third-party pricing services. We utilize one firm for our taxable bond portfolio and another for our municipal bond portfolio. These pricing services are leading global providers of financial market data, analytics and related services to financial institutions. We only rely on one price for each instrument to determine the carrying amount of the assets on our balance sheet. The inputs utilized in these pricing methodologies include observable measures such as benchmark yields, reported trades, broker dealer quotes, issuer spreads, two sided markets, benchmark securities, bids, offers and reference data including market research publications. We believe that these investments are in actively traded markets. We review the pricing methodologies for all of our level 2 securities to ensure that we are comfortable with them and compare the resulting prices to other publicly available measures of fair value. Our fixed maturities classified as level 3 consist of auction rate securities for which there is no active market and are valued using models with some non-observable inputs. Fair values for these securities are provided by a third-party pricing service. These securities represent one percent of our total portfolio.

During 2008, 2007, and 2006, we recorded other than temporary impairments totaling \$59.0 million, \$3.1 million, and \$9.1 million, respectively. Impairment charges in 2008 included \$25.4 million related to our fixed maturity securities, \$30.1 million related to our equity securities, and \$3.4 million related to other investments that were deemed other than temporarily impaired. The impairment charges relating to the fixed maturity securities primarily related to our conclusion that the credit risk relating to the holdings was too high to not impair the assets and record the loss through earnings. The impairment charges relating to the equity securities related primarily to the duration of the unrealized loss and inability to predict the time to recover if the investment continued to be held.

Goodwill. We have made acquisitions in the past that have resulted in a significant amount of goodwill. As of December 31, 2008 and 2007, goodwill aggregated \$1,581.7 million and \$1,344.6 million, respectively. The majority of our goodwill as of December 31, 2008 and 2007 relates to goodwill recorded in connection with the Chicago Title merger in 2000. The increase of \$237.1 million for the year ended December 31, 2008, relates primarily to our acquisition of the LFG Underwriters. The process of determining whether or not an asset, such as goodwill, is impaired or recoverable relies on projections of future cash flows, operating results and market conditions. While we believe that our estimates of future cash flows are reasonable, these estimates are not guarantees of future performance and are subject to risks and uncertainties that may cause actual results to differ from what is assumed in our impairment tests. In evaluating the recoverability of goodwill, we perform an annual goodwill impairment test based on an analysis of the discounted future cash flows generated by the underlying assets. We have completed our annual goodwill impairment tests in each of the past three years and have determined that we have a fair value in excess of our carrying value. Such analyses are particularly sensitive to changes in estimates of future cash flows and discount rates. Changes to these estimates might result in material changes in fair value and determination of the recoverability of goodwill which may result in charges against earnings and a reduction in the carrying value of our goodwill.

Other Intangible Assets. We have significant intangible assets that were acquired through business acquisitions. These assets consist of purchased customer relationships, contracts, and the excess of purchase price over the fair value of identifiable net assets acquired (goodwill), discussed above. The determination of estimated useful lives and the allocation of the purchase price to the fair values of the intangible assets requires significant judgment and may affect the amount of future amortization on intangible assets other than goodwill.

The valuation of intangible assets such as software, purchased customer relationships and contracts involves significant estimates and assumptions concerning matters such as customer retention, future cash flows and discount rates. If any of these assumptions change, it could affect the carrying value of these assets. Purchased customer relationships are amortized over their estimated useful lives using an accelerated method which takes into consideration expected customer attrition rates over a ten-year period. Contractual relationships are generally amortized using the straight-line method over their contractual life. In 2008, we determined that the carrying value of certain of our intangible assets may not be recoverable and recorded impairment charges of \$4.0 million, relating to the write-off of these assets. These impairments were recorded as other operating expense in our 2008 Consolidated Statements of Earnings. There were no impairment charges recorded relating to intangible assets during 2007 or 2006.

Computer Software. Computer software includes the fair value of software acquired in business combinations, purchased software and capitalized software development costs. Purchased software is recorded at cost and amortized using the straight line method over a 3 year period and software acquired in business combinations is recorded at its fair value and amortized using straight line and accelerated methods over their estimated useful lives, ranging from 5 to 10 years. During 2008, we recorded impairment expense of \$4.5 million related to computer software. These impairments were recorded as depreciation and amortization expense in our 2008 Consolidated Statement of Earnings.

Capitalized software development costs are accounted for in accordance with either SFAS No. 86, "Accounting for the Costs of Computer Software to Be Sold, Leased, or Otherwise Marketed" ("SFAS 86"), or with The American Institute of Certified Public Accountant's ("AICPA") Statement of Position ("SOP") No. 98-1, "Accounting for the Costs of Computer Software Developed or Obtained for Internal Use" ("SOP 98-1"). After the technological feasibility of the software has been established (for SFAS 86 software), or at the beginning of application development (for SOP 98-1 software), software development costs, which include salaries and related payroll costs and costs of independent contractors incurred during development, are capitalized. Research and development costs incurred prior to the establishment of technological feasibility (for SFAS 86 software), or prior to application development (for SOP 98-1 software), are expensed as incurred. For software subject to the provisions of SFAS 86, software development costs are amortized on a product by product basis commencing on the date of general release of the products, generally the greater of (1) the straight line method over its estimated useful life, which ranges from three to seven years or (2) the ratio of current revenues to total anticipated revenue over its useful life. The cost of purchased software that is subject to the provisions of SOP 98-1 is amortized on a straight-line basis over its estimated useful life.

Revenue Recognition. The following describes our revenue recognition policies as they pertain to each of our segments:

Fidelity National Title Group. Our direct title insurance premiums and escrow, title-related and other fees are recognized as revenue at the time of closing of the related transaction as the earnings process is then considered complete, whereas premium revenues from agency operations and agency commissions include an accrual based on estimates using historical information of the volume of transactions that have closed in a particular period for which premiums have not yet been reported to us. The accrual for agency premiums is necessary because of the lag between the closing of these transactions and the reporting of these policies to us by the agent. During the second half of 2008, we re-evaluated and refined the method that we use to estimate this accrual, which resulted in a reduction in 2008 revenue from agency title insurance premiums of \$138.5 million compared to the revenues that would have been accrued under our prior method. The impact of this adjustment was a decrease of \$11.8 million in 2008 pre-tax earnings and \$7.6 million in 2008 net income, or approximately \$0.04 per share, compared to the amounts that would have been recorded under our prior method. We believe that this adjustment is properly reflected as a change in accounting estimate in 2008. We are likely to continue to have changes to our accrual for agency revenue in the future.

Specialty Insurance Segment. Revenues from home warranty and personal lines insurance policies are recognized over the life of the policy, which is one year. Revenues and commissions related to the sale of flood insurance are recognized when the policy is reported.

Accounting for Income Taxes. As part of the process of preparing the consolidated financial statements, we are required to determine income taxes in each of the jurisdictions in which we operate. This process involves estimating actual current tax expense together with assessing temporary differences resulting from differing recognition of items for income tax and accounting purposes. These differences result in deferred income tax assets and liabilities, which are included within the Consolidated Balance Sheets. We must then assess the likelihood that deferred income tax assets will be recovered from future taxable income and, to the extent we believe that recovery is not likely, establish a valuation allowance. To the extent we establish a valuation allowance or increase this allowance in a period, we must reflect this increase as an expense within income tax expense in the statement of earnings. Determination of the income tax expense requires estimates and can involve complex issues that may require an extended period to resolve. Further, the estimated level of annual pre-tax income can cause the overall effective income tax rate to vary from period to period. We believe that our tax positions comply with applicable tax

law and that we adequately provide for any known tax contingencies. We believe the estimates and assumptions used to support our evaluation of tax benefit realization are reasonable. However, final determination of prior-year tax liabilities, either by settlement with tax authorities or expiration of statutes of limitations, could be materially different than estimates reflected in assets and liabilities and historical income tax provisions. The outcome of these final determinations could have a material effect on our income tax provision, net income or cash flows in the period that determination is made.

Certain Factors Affecting Comparability

Year ended December 31, 2008. As a result of a change in our actuarial model resulting, in part, from adverse claim loss development on prior policy years, we recorded a charge in 2008 of \$261.6 million, or \$157.0 million net of income taxes, to our provision for claim losses. This charge was recorded in addition to our 8.5% provision for claim losses.

Year ended December 31, 2007. As a result of adverse claim loss development on prior policy years, we recorded charges in 2007 totaling \$217.2 million, or \$159.5 million net of income taxes, to our provision for claim losses. These charges were recorded in addition to our 7.5% provision for claim losses.

Year ended December 31, 2006. For periods prior to October 24, 2006, the date of the closing of the 2006 Distribution, our Consolidated Statements of Earnings included the results of FIS. (See note A of the Notes to Consolidated Financial Statements for a description of the accounting treatment of the 2006 asset contribution by FNF and the 2006 Distribution).

Results of Operations

Consolidated Results of Operations

Net (loss) earnings. The following table presents certain financial data for the years indicated:

	Year Ended December 31,		
	2008	2007	2006
	(Dollars in thousands)		
Total revenue	<u>\$4,329,095</u>	<u>\$5,523,175</u>	<u>\$9,434,064</u>
Total expenses	<u>\$4,624,488</u>	<u>\$5,347,497</u>	<u>\$8,492,899</u>
Net (loss) earnings	<u>\$ (179,016)</u>	<u>\$ 129,769</u>	<u>\$ 437,761</u>

Revenue. The following table presents the components of our revenue:

	Year Ended December 31,		
	2008	2007	2006
	(Dollars in thousands)		
Direct title insurance premiums	\$1,140,266	\$1,601,768	\$1,957,064
Agency title insurance premiums	1,554,743	2,198,690	2,649,136
Escrow, title-related and other fees	1,148,539	1,132,415	1,114,047
Transaction processing	—	—	3,094,370
Specialty insurance	373,392	386,427	394,613
Interest and investment income	134,370	185,417	206,607
Realized gains and losses, net	<u>(22,215)</u>	<u>18,458</u>	<u>18,562</u>
Total revenue	<u>\$4,329,095</u>	<u>\$5,523,175</u>	<u>\$9,434,399</u>
Orders opened by direct title operations	1,860,400	2,259,800	3,146,200
Orders closed by direct title operations	1,121,200	1,434,800	2,051,500

Total revenue in 2008 decreased \$1,194.1 million compared to 2007, reflecting decreases across all business segments. Total revenue in 2007 decreased \$3,911.2 million compared to 2006, reflecting decreases in the Fidelity

National Title Group and specialty insurance segments, partially offset by an increase in the corporate and other segment. In addition, revenues in 2006 included \$3,289.1 million of revenues from FIS and LPS operations.

The following table presents the percentages of title insurance premiums generated by our direct and agency operations:

	Year Ended December 31,					
	2008		2007		2006	
	Amount	%	Amount	%	Amount	%
	(Dollars in thousands)					
Direct	\$1,140,266	42.3%	\$1,601,768	42.1%	\$1,957,064	42.5%
Agency	1,554,743	57.7	2,198,690	57.9	2,649,136	57.5
Total title insurance premiums . .	<u>\$2,695,009</u>	<u>100.0%</u>	<u>\$3,800,458</u>	<u>100.0%</u>	<u>\$4,606,200</u>	<u>100.0%</u>

Title insurance premiums were \$2,695.0 million in 2008, \$3,800.5 million in 2007, and \$4,606.2 million in 2006. Both direct and agency title premiums decreased in each period.

In 2008 and 2007, our mix of direct and agency title premiums stayed relatively consistent, with agency premiums making up 57.7% of total premiums in 2008, compared with 57.9% in 2007 and 57.5% in 2006.

LPS operates a title agency business that serves as an agent for our title operations. However, because the operations of LPS were included in our results for periods prior to October 24, 2006, title premiums generated by LPS were included in our direct title premiums prior to that date and in our agency title premiums after that date. Direct title premiums decreased \$461.5 million, or 28.8%, in 2008 compared to 2007. Direct title premiums decreased \$281.8 million, or 15.0%, in 2007 compared to 2006, excluding \$73.5 million in direct title premiums generated by LPS prior to October 24, 2006. The decreased level of direct title premiums in 2008 is the result of decreases in closed order volumes and fee per file. The decrease in direct title premiums in 2007 is the result of a decrease in closed order volumes partially offset by increases in fee per file. Excluding the operations of LPS in 2006, closed order volumes in our direct operations were approximately 1,121,200 in 2008, 1,434,800 in 2007, and 1,777,900 in 2006, with decreases in each case reflecting declines in the purchase and refinance markets, which were partially offset by some strengthening in the refinance market very close to the end of 2008. These declines can be attributed to the lack of liquidity in the mortgage market as mortgage default levels continued to increase, and to falling home prices, which have caused potential buyers to defer purchase decisions. Average mortgage interest rates in the year ended December 31, 2008, were slightly lower than rates in the year ended December 31, 2007 and decreased substantially at the end of 2008 as the government introduced programs intended to increase liquidity in the mortgage markets. In September 2007, the Federal Reserve began decreasing interest rates to infuse money into the economy, decreasing rates by a total of 100 basis points during 2007. During 2008, the Federal Reserve continued to decrease the federal funds rate by a total of 325 basis points through October 2008 and an additional 75-100 basis points in December 2008. The federal funds rate is now 0.0%-0.25% compared to 5.25% in August 2007. A reduction in rates in the first quarter of 2008 resulted in a temporary increase in refinance order volumes that was not sustained. The further reduction in rates in the fourth quarter of 2008 resulted in another increase in refinance order volumes in the last several weeks of 2008 and the start of 2009. The average fee per file in our direct operations, excluding the operations of LPS in 2006, was \$1,503, \$1,635, and \$1,580 for the years ended December 31, 2008, 2007, and 2006, respectively. The decrease in 2008 reflects a decline in home values, a slowing commercial market and an increase in refinance volumes relative to purchase volumes, while the increase in 2007 reflects strength in the commercial market.

For the years ended December 31, 2008, 2007, and 2006, agency title premiums include premiums generated by LPS of \$212.3 million, \$149.4 million and \$22.4 million, respectively. Excluding those title premiums generated by LPS, agency title premiums decreased \$706.9 million, or 34.5%, in 2008 compared to 2007 and \$577.4 million, or 22.0%, in 2007 compared to 2006. The decreases in 2008 and 2007 were primarily due to decreases in accrued agency premiums that were relatively consistent with the decreases in direct title premiums. The decrease in 2008 also includes a change in accounting estimate related to an accrual that is included in agency premium revenues and commissions. The accrual is based on estimates using historical information of the volume of transactions that have closed in a particular period for which premiums have not yet been reported to us. The accrual for agency premiums

is necessary because of the lag between the closing of these transactions and the reporting of these policies to us by the agent. During 2008, we re-evaluated and refined the method that we use to estimate this accrual, which resulted in a reduction in revenue from agency title insurance premiums of \$138.5 million compared to the revenues that would have been accrued under our prior method. The impact of this adjustment was a decrease of \$11.8 million in pre-tax earnings and \$7.6 million in net income, or approximately \$0.04 per share, compared to the amounts that would have been recorded under our prior method. We believe that this adjustment is properly reflected as a change in accounting estimate in 2008.

Escrow, title-related and other fees increased \$16.1 million, or 1.4%, from 2007 to 2008 and increased \$18.4 million, or 1.6%, from 2006 to 2007. Escrow, title-related, and other fees were \$1,148.5 million, \$1,132.4 million, and \$1,114.0 million in 2008, 2007, and 2006, respectively. At Fidelity National Title Group, escrow and other title-related fees, which are more directly related to our direct operations, fluctuated in a pattern generally consistent with the fluctuation in direct title insurance premiums and order counts during the three years ended December 31, 2008. They were also impacted in 2007 by an increase in the proportionate share of direct title premiums provided by commercial activity, for which escrow fees as a percentage of premiums are lower, and by reduced escrow rates in the western part of the country. Offsetting the decline in escrow and title-related fees, other fees increased \$113.6 million, or 22.4%, and \$61.0 million, or 13.7%, at Fidelity National Title Group for the years ended December 31, 2008 and 2007, respectively. The increase in 2008 included the impact of recent acquisitions, including the recently acquired Colorado title insurance operations, Property Insight, LLC, and ATM Holdings, Inc. The increases in 2008 and 2007 were also partly due to increases of \$75.7 million and \$19.6 million, respectively, in revenues associated with a division of our business that manages real estate owned by financial institutions. Other fees increased \$16.4 million and \$93.1 million in the corporate and other segment for the years ended December 31, 2008 and 2007, respectively, reflecting increases in revenues relating to recent acquisitions, including the purchase of certain leasing assets from FIS in 2007. Other fees in the corporate and other segment also reflected a gain of \$0.4 million relating to our timberland holdings in 2008 and income of \$12.3 million in fees associated with the syndication of investors in the acquisition of Ceridian in 2007.

Interest and investment income levels are primarily a function of securities markets, interest rates and the amount of cash available for investment. Interest and investment income was \$134.4 million, \$185.4 million, and \$206.6 million for the years ended December 31, 2008, 2007, and 2006, respectively. Average invested assets were \$3,545.5 million, \$4,531.2 million, and \$5,088.9 million for the years ended December 31, 2008, 2007, and 2006, respectively. The tax equivalent yield, excluding realized gains and losses, was 4.3%, 5.0%, and 4.8% for the years ended December 31, 2008, 2007, and 2006, respectively.

Net realized (losses) gains were \$(22.2) million, \$18.5 million, and \$18.6 million for the years ended December 31, 2008, 2007, and 2006, respectively. The net realized loss for the year ended December 31, 2008, included impairment charges totaling \$59.0 million on fixed maturity and equity securities and other investments that were deemed to be other than temporarily impaired, net realized gains on sales of investments of \$4.4 million, net gains on sales of other assets of \$7.5 million, and a gain of \$24.8 million on the sale of 20% of our interest in Sedgwick. During the years ended December 31, 2007 and 2006, we recorded impairment charges on equity investments that we considered to be other-than-temporarily impaired, resulting in charges of \$3.1 million and \$9.1 million, respectively, with the remainder of net realized gains each made up of a number of gains and losses on various transactions, none of which were individually significant.

Expenses. The following table presents the components of our expenses:

	Year Ended December 31,		
	2008	2007	2006
	(Dollars in thousands)		
Personnel costs	\$1,355,845	\$1,700,935	\$3,225,319
Other operating expenses	1,208,647	1,109,438	2,075,101
Agent commissions	1,218,044	1,698,215	2,035,423
Depreciation and amortization	142,759	130,092	460,750
Provision for claim losses	630,404	653,876	486,334
Interest expense	<u>68,789</u>	<u>54,941</u>	<u>209,972</u>
Total expenses	<u>\$4,624,488</u>	<u>\$5,347,497</u>	<u>\$8,492,899</u>

Our operating expenses consist primarily of personnel costs, other operating expenses, which in our title insurance business are incurred as orders are received and processed, and agent commissions, which are incurred as revenue is recognized. Title insurance premiums, escrow and other title-related fees are generally recognized as income at the time the underlying transaction closes. As a result, direct title operations revenue lags approximately 45-60 days behind expenses and therefore gross margins may fluctuate. The changes in the market environment, mix of business between direct and agency operations and the contributions from our various business units have impacted margins and net earnings. We have implemented programs and have taken necessary actions to maintain expense levels consistent with revenue streams. However, a short time lag exists in reducing variable costs, and certain fixed costs are incurred regardless of revenue levels.

Personnel costs include base salaries, commissions, benefits, stock-based compensation and bonuses paid to employees, and are one of our most significant operating expenses. Excluding personnel costs related to FIS of \$1,357.4 million in 2006, personnel costs totaled \$1,355.8 million, \$1,700.9 million, and \$1,867.9 million for the years ended December 31, 2008, 2007 and 2006, respectively. Excluding FIS operations, personnel costs as a percentage of total revenues were 31.3%, 30.8%, and 30.4% for the years ended December 31, 2008, 2007, and 2006, respectively. The decrease in personnel costs in 2008 was primarily due to employee reductions in the Fidelity National Title Group and corporate and other business segments, partially offset by an increase in the specialty insurance segment. The decrease in 2007 was primarily due to a decrease in the Fidelity National Title Group segment, partially offset by an increase in the corporate and other segment. On a consolidated basis, we reduced our full-time equivalent employees by about 2,100 during 2008 and 3,100 during 2007. The increases in the corporate and other segment are primarily the result of acquisitions. Included in personnel costs is stock-based compensation expense of \$32.7 million, \$29.9 million, and \$65.0 million for the years ended December 31, 2008, 2007, and 2006, respectively. Excluding stock-based compensation related to FIS, stock based compensation costs were \$29.9 million for the year ended December 31, 2006.

Other operating expenses consist primarily of facilities expenses, title plant maintenance, premium taxes (which insurance underwriters are required to pay on title premiums in lieu of franchise and other state taxes), postage and courier services, computer services, professional services, travel expenses, general insurance, and trade and notes receivable allowances. Excluding other operating expenses of \$1,115.2 million in 2006 related to FIS, other operating expenses were \$1,208.6 million, \$1,109.4 million, and \$959.9 million for the years ended December 31, 2008, 2007, and 2006, respectively, with increases in all three business segments.

Agent commissions represent the portion of premiums retained by agents pursuant to the terms of their respective agency contracts. Agent commissions and the resulting percentage of agent premiums we retain vary according to regional differences in real estate closing practices and state regulations.

The following table illustrates the relationship of agent title premiums and agent commissions:

	Year Ended December 31,					
	2008		2007		2006	
	Amount	%	Amount	%	Amount	%
	(Dollars in thousands)					
Agent title premiums	\$1,554,743	100.0%	\$2,198,690	100.0%	\$2,649,136	100.0%
Agent commissions	<u>1,218,044</u>	<u>78.3</u>	<u>1,698,215</u>	<u>77.2</u>	<u>2,035,423</u>	<u>76.8</u>
Net.	<u>\$ 336,699</u>	<u>21.7%</u>	<u>\$ 500,475</u>	<u>22.8%</u>	<u>\$ 613,713</u>	<u>23.2%</u>

Net margin from agency title insurance premiums we retain as a percentage of total agency premiums remained relatively consistent at 22% to 23% for the three years ended December 31, 2008, 2007, and 2006.

Depreciation and amortization expense, excluding FIS depreciation and amortization of \$343.6 million in 2006, was \$142.8 million, \$130.1 million, and \$117.2 million for the years ended December 31, 2008, 2007, and 2006, respectively. The increase in 2008 reflects increases in the corporate and other segment, partially offset by decreases in the Fidelity National Title Group and specialty insurance segments. The increase in 2007 reflects increases in the Fidelity National Title Group and corporate and other segments, partially offset by a decrease in the specialty insurance segment. The increases in the corporate and other segment in each case reflect recent acquisitions.

The provision for claim losses includes an estimate of anticipated title and title-related claims, escrow losses and claims relating to our specialty insurance segment. We monitor our claims loss experience on a continual basis and adjust the provision for claim losses accordingly as new information becomes known, new loss patterns emerge, or as other contributing factors are considered and incorporated into the analysis of the reserve for claim losses. The provision for claim loss for the years ended December 31, 2008, 2007, and 2006, was made up of \$491.0 million, \$502.3 million, and \$345.6 million, respectively, from the Fidelity National Title Group segment and \$139.5 million, \$151.6 million, and \$140.6 million, respectively, from the specialty insurance segment. The provision for claim loss is discussed in further detail in the segment level below.

Excluding interest expense attributable to FIS of \$154.2 million in 2006, interest expense for the years ended December 31, 2008, 2007, and 2006 was \$68.8 million, \$54.9 million, and \$55.8 million, respectively. The increase in 2008 was primarily due to increased borrowings resulting from our investment in Ceridian during the fourth quarter of 2007 and 2008 borrowings used for general corporate purposes.

Income tax (benefit) expense was \$(125.5) million, \$46.8 million, and \$350.9 million for the years ended December 31, 2008, 2007, and 2006, respectively. Income tax (benefit) expense as a percentage of (loss) earnings before income taxes for the years ended December 31, 2008, 2007, and 2006 was 42.5%, 26.6%, and 37.3%, respectively. The fluctuation in income tax (benefit) expense as a percentage of (loss) earnings before income taxes is attributable to our estimate of ultimate income tax liability, and changes in the characteristics of net (loss) earnings year to year, such as the weighting of operating income versus investment income. Income tax (benefit) expense as a percentage of earnings before income taxes was higher than normal for the year ended December 31, 2008, due to the fact that, in periods when a net loss is recognized, the effect of tax-exempt interest income is reversed. Generally, when pretax income is recognized, tax-exempt income has the effect of lowering the effective tax rate whereas, when a pretax loss is recognized, tax-exempt income has the effect of increasing the effective tax rate. Income tax expense as a percentage of earnings before income taxes was lower for the year ended December 31, 2007 compared to 2006 primarily due to the increase in the proportion of tax-exempt interest income to pre-tax earnings.

Equity in (losses) earnings of unconsolidated affiliates was \$(13.4) million, \$0.8 million, and \$1.7 million for the years ended December 31, 2008, 2007, and 2006 and, in 2008, primarily consisted of our equity in the net (losses) earnings of Ceridian, Remy, and Sedgwick.

Minority interest for the years ended December 31, 2008, 2007, and 2006 was \$(4.2) million, less than \$0.1 million, and \$154.6 million, respectively. For the year ended December 31, 2006, minority interest is primarily

attributable to earnings generated by FIS and FNT, in which, prior to October 24, 2006, Old FNF held ownership positions of 50.7% and 82.5%, respectively.

Segment Results of Operations

Fidelity National Title Group

The following table presents certain financial data for the years indicated:

	Year Ended December 31,		
	2008	2007	2006
	(Dollars in thousands)		
Direct title insurance premiums	\$1,140,266	\$1,601,768	\$1,883,357
Agency title insurance premiums	1,554,743	2,198,690	2,724,972
Escrow, title-related and other fees	1,034,250	1,034,574	1,109,293
Interest and investment income	120,157	164,874	165,305
Realized gains and losses, net	<u>(32,889)</u>	<u>5,080</u>	<u>14,627</u>
Total revenue	<u>3,816,527</u>	<u>5,004,986</u>	<u>5,897,554</u>
Personnel costs	1,253,563	1,594,516	1,789,805
Other operating expenses	964,282	891,838	891,112
Agent commissions	1,218,044	1,698,085	2,099,244
Depreciation and amortization	114,989	120,223	110,486
Provision for claim losses	490,952	502,250	345,578
Interest expense	<u>5,657</u>	<u>14,597</u>	<u>12,755</u>
Total expenses	<u>4,047,487</u>	<u>4,821,509</u>	<u>5,248,980</u>
(Loss) earnings before income taxes, equity in (loss) income of unconsolidated affiliates, and minority interest	<u>\$ (230,960)</u>	<u>\$ 183,477</u>	<u>\$ 648,574</u>

Total revenues in 2008 decreased \$1,188.5 million to \$3,816.5 million, a decrease of 23.7% compared to 2007. Total revenues in 2007 decreased \$892.6 million to \$5,005.0 million, a decrease of 15.1% compared to 2006. For an analysis of this segment's revenues, please see the analysis of direct and agency title insurance premiums and escrow and other title-related fees under "Consolidated Results of Operations."

Interest and investment income levels are primarily a function of securities markets, interest rates and the amount of cash available for investment. Interest and investment income for the years ended December 31, 2008, 2007 and 2006, was \$120.2 million, \$164.9 million, and \$165.3 million, respectively. The decrease in 2008 compared to 2007 was the result of decreases in both average invested assets and a decrease in interest rates. In 2007, an increase in interest rates was partially offset by a decrease in the short-term investment asset base. For the years ended December 31, 2008, 2007, and 2006, average invested assets were \$3,104.7 million, \$3,791.4 million, and \$4,009.4 million, respectively, and the tax equivalent yield, excluding realized gains and losses, was 4.4%, 5.3%, and 4.8%, respectively.

Net realized gains and losses for the years ended December 31, 2008, 2007, and 2006 were \$(32.9) million, \$5.1 million, \$14.6 million, respectively. Net realized gains and losses recorded in the year ended December 31, 2008, included impairment charges of \$48.8 million on fixed maturity and equity securities and other investments that were deemed other than temporarily impaired, net realized gains on investments of \$15.0 million, and net gains from sales of other assets of \$1.6 million. The impairment charges relating to the fixed maturity securities primarily related to our conclusion that the credit risk relating to the holdings was high and thus the assets are likely permanently impaired. The impairment charges relating to the equity securities were based on the duration of the unrealized loss and inability to predict the time to recover if the investment continued to be held. For the years ended December 31, 2007 and 2006, realized gains and losses were each made up of a number of gains and losses on various transactions, none of which were individually significant.

Personnel costs include base salaries, commissions, benefits and bonuses paid to employees, and are one of our most significant operating expenses. Personnel costs totaled \$1,253.6 million, \$1,594.5 million, and \$1,789.8 million for the years ended December 31, 2008, 2007, and 2006, respectively. The decreases in each case resulted from decreases in the number of personnel implemented in response to the decline in order volumes and from decreases in average annualized personnel costs per employee. Personnel costs, as a percentage of direct title insurance premiums and escrow, title-related and other fees, were 57.6% in 2008, 60.5% in 2007, and 59.8% in 2006. Average employee count decreased to 13,957 in 2008, excluding the impact of the LFG Underwriters, from 16,416 in 2007 and 18,352 in 2006.

Other operating expenses consist primarily of facilities expenses, title plant maintenance, premium taxes (which insurance underwriters are required to pay on title premiums in lieu of franchise and other state taxes), postage and courier services, computer services, professional services, advertising expenses, general insurance, and trade and notes receivable allowances. Other operating expenses totaled \$964.3 million, \$891.8 million, and \$891.1 million for the years ended December 31, 2008, 2007 and 2006, respectively. Other operating expenses as a percentage of direct title insurance premiums and escrow, title-related and other fees were 44.3% in 2008, 33.8% in 2007, and 29.8% in 2006. Other operating expenses for the years ended December 31, 2008 and 2007, included \$23.4 million and \$13.0 million, respectively, in abandoned lease charges relating to office closures. The increase in other operating expenses in 2008 also included a decrease of \$101.4 million in benefits related to our escrow balances, which are reflected as an offset to other operating expenses, equal increases in revenues and expenses of \$75.7 million associated with a division of our business that manages real estate owned by financial institutions, and recent acquisitions. These increases were partially offset by operating expense reductions in our core title operations as we continue to cut costs in response to the decrease in title insurance and other title-related activity. The increase in 2007 was primarily due to a decrease in benefits related to our escrow balances, which are reflected as an offset to other operating expenses, an increase in legal and regulatory expenses, and the abandoned lease charge noted above. As a result of holding customers' assets in escrow, we have ongoing programs for realizing economic benefits. Those economic benefits related to escrow balances decreased in 2008 and 2007 due to decreases in escrow balances and increases in the portion of those benefits derived from tax exempt income. Legal and regulatory expenses increased in 2007 due to an increase in class action litigation and our response to a target letter received from the United States Attorney's Office in the Southern District of Texas, which was successfully resolved in 2007.

Agent commissions represent the portion of premiums retained by agents pursuant to the terms of their respective agency contracts. Agent commissions and the resulting percentage of agent premiums we retain vary according to regional differences in real estate closing practices and state regulations.

The provision for claim losses includes an estimate of anticipated title and title-related claims and escrow losses. The estimate of anticipated title and title-related claims is accrued as a percentage of title premium revenue based on our historical loss experience and other relevant factors. We monitor our claims loss experience on a continual basis and adjust the provision for claim losses accordingly as new information becomes known, new loss patterns emerge, or as other contributing factors are considered and incorporated into the analysis of the reserve for claim losses. The claim loss provision for title insurance was \$491.0 million, \$502.3 million, and \$345.6 million for the years ended December 31, 2008, 2007, and 2006, respectively. These amounts reflected claim loss provision rates of 8.5%, 7.5%, and 7.5% of title premiums for the years ended December 31, 2008, 2007, and 2006, respectively, and also included additional charges as follows: For the year ended December 31, 2008, an additional charge of \$261.6 million was due to a change in our actuarial model which resulted, in part, from adverse claim loss development on prior policy years, and, for the year ended December 31, 2007, additional charges totaling \$217.2 million resulted from adverse claim loss development on prior policy years. For the year ended December 31, 2008, in response to greater than anticipated claims experience, we increased our claim loss provision rate from 7.5% to 8.5% of total title premiums. See "Critical Accounting Estimates" for further discussion relating to the Company's reserve for claim losses and the related charges. Our claim loss provision as a percentage of total title premiums was 18.2%, 13.2%, and 7.5% for the years ended December 31, 2008, 2007, and 2006, respectively. Starting in the fourth quarter of 2008, we began to revise certain aspects of our approach to processing claims. Key changes implemented include a greater effort to collect contributions from agents that bear responsibility for losses, more stringent enforcement of documentation requirements for proof of claims, a more efficient process for dealing

with minor, technical claim matters, and a greater focus on hiring counsel with lower rates. Our claims paid in the fourth quarter declined compared to the third quarter of 2008. We have also continued, in 2008, a process of reducing our total number of agents, with a focus in part on dropping agents producing higher claims ratios. These measures are collectively designed to reduce our claims expenses, although we have not yet had enough experience with the new approaches to accurately predict how successful we will be. We are taking similar measures with respect to the LFG Underwriters we recently acquired.

Specialty Insurance Segment

	<u>Year Ended December 31,</u>		
	<u>2008</u>	<u>2007</u>	<u>2006</u>
	(Dollars in thousands)		
Revenue	\$373,392	\$386,427	\$394,613
Interest and investment income	12,929	16,231	15,565
Realized gains and losses, net	<u>(3,007)</u>	<u>23</u>	<u>17</u>
Total revenue	<u>383,314</u>	<u>402,681</u>	<u>410,195</u>
Personnel costs	45,228	45,499	45,145
Other operating expenses	158,269	144,992	144,702
Depreciation and amortization	4,896	6,046	6,254
Provision for claim losses	139,452	151,626	140,625
Interest expense	<u>487</u>	<u>1,478</u>	<u>1,443</u>
Total expenses	<u>348,332</u>	<u>349,641</u>	<u>338,169</u>
Earnings before income taxes and minority interest	<u>\$ 34,982</u>	<u>\$ 53,040</u>	<u>\$ 72,026</u>

Revenues from specialty insurance include revenues from the issuance of flood, homeowners', automobile, and other personal lines insurance policies and home warranty policies. In our flood insurance business, we provide coverage under the National Flood Insurance Program, which is the U.S. federal flood insurance program, and receive fees for selling policies and for assistance in settling claims. Specialty insurance revenues were \$383.3 million, \$402.7 million, and \$410.2 million for the years ended December 31, 2008, 2007, and 2006, respectively. The decrease in revenues in 2008 compared to 2007 was due to decreases in revenues from the homeowners' and automobile insurance and home warranty lines of business and to a decrease in interest and investment income, partially offset by an increase in flood revenues. The decrease in revenues in 2007 compared to 2006 was due to decreases in flood and home warranty revenues, partially offset by an increase in revenues from the homeowners' and automobile insurance lines.

Flood revenues increased \$11.9 million, or 8.2%, in 2008 compared to 2007, reflecting volume and rate increases, and claims processing revenues related to the 2008 hurricane season, partially offset by a decrease in the annual marketing incentive bonus received from the Federal Emergency Management Agency. Flood revenues decreased \$7.4 million, or 4.8%, in 2007 compared to 2006, reflecting a less active hurricane season, partially offset by volume and rate increases.

Revenues from the homeowners' and automobile insurance lines of business decreased \$20.1 million, or 11.9%, in 2008 compared to 2007, reflecting a declining housing market and a decrease in volume as we have undergone efforts to tighten our underwriting standards and eliminate unprofitable agents and territories. Revenues from these business lines increased \$6.6 million, or 4.3%, in 2007 compared to 2006, primarily due to growth as we expanded this business.

Revenues from the home warranty line of business decreased \$4.9 million, or 6.9%, in 2008 compared to 2007 and decreased \$7.4 million, or 9.5% in 2007, in each case primarily due to the decrease in real estate transaction volumes.

Personnel costs were \$45.2 million, \$45.5 million, and \$45.1 million for the years ended December 31, 2008, 2007, and 2006, respectively. As a percentage of total specialty insurance revenues, personnel costs were 11.8% in 2008, 11.3% in 2007, and 11.0% in 2006.

Other operating expenses in the specialty insurance segment were \$158.3 million, \$145.0 million, and \$144.7 million for the years ended December 31, 2008, 2007, and 2006, respectively. Other operating expenses in 2007 were impacted by the results of an internal review of our treatment of certain costs relating to insurance policies issued by our specialty insurance segment, in the course of which we determined that certain costs should be deferred and amortized over the life of the policy consistent with the recognition of the premiums. We recorded an adjustment as of March 31, 2007, increasing prepaid and other assets and reducing other operating expenses by \$12.2 million, representing amounts that should have been deferred as of March 31, 2007 on policies issued over the prior twelve months. This adjustment is not material to the Company's financial position or results of operations for any previously reported annual periods. Excluding this adjustment, other operating expenses as a percentage of revenues was 41.3% in 2008, 36.0% in 2007, and 35.3% in 2006, with the increase in 2008 primarily due to increases in premium tax expense and commission expense in the homeowners' and flood insurance businesses.

The provision for claim loss expense was \$139.5 million, \$151.6 million, and \$140.6 million for the years ended December 31, 2008, 2007, and 2006, respectively. The decrease in 2008 reflects the decreased business in the homeowner's and automobile insurance and home warranty businesses. The increase in 2007 was primarily the result of an increase in volumes in the homeowners' insurance business. The 2007 provision also reflects positive development in trends of prior accident years. As a percentage of premiums earned, the claim loss provision was relatively consistent at 64.8% in 2008, 63.9% in 2007, and 62.7% in 2006.

A summary of the reserve for claim losses is as follows:

	Year Ended December 31,		
	2008	2007	2006
	(Dollars in thousands)		
Beginning balance	\$ 65,849	\$ 65,764	\$ 45,434
Claim loss provision related to:			
Current year	148,824	165,659	148,328
Prior years	<u>(9,372)</u>	<u>(14,033)</u>	<u>(7,703)</u>
Total claim loss provision	139,452	151,626	140,625
Claims paid, net of recoupments related to:			
Current year	(106,534)	(115,643)	(92,893)
Prior years	<u>(39,129)</u>	<u>(35,898)</u>	<u>(27,402)</u>
Total claims paid, net of recoupments	<u>(145,663)</u>	<u>(151,541)</u>	<u>(120,295)</u>
Ending balance	<u>\$ 59,638</u>	<u>\$ 65,849</u>	<u>\$ 65,764</u>

Corporate and Other Segment

The corporate and other segment is primarily comprised of the operations of our parent holding company and smaller entities not included in our operating segments. It generated pretax losses of \$99.4 million, \$60.8 million, and \$97.5 million for the years ended December 31, 2008, 2007, and 2006, respectively. During 2008, we sold 20% of our interest in Sedgwick (reducing our interest in Sedgwick from 40% to 32%) for proceeds of \$53.9 million, resulting in a gain of \$24.8 million in the corporate and other segment. Interest expense in this segment was \$62.6 million, \$38.9 million, and \$41.6 million for the years ended December 31, 2008, 2007, and 2006, respectively, with the increase in 2008 primarily due to increased borrowings resulting from our investment in Ceridian during the fourth quarter of 2007 and 2008 borrowings used for general corporate purposes. Additionally, during 2008, we recorded \$4.0 million in impairment charges to intangible assets in the corporate and other segment. In 2007, we recorded income of \$12.3 million in management fees under an agreement entered into in connection with the acquisition of Ceridian.

Fidelity National Information Services, Inc.

The Company's consolidated results of operations include FIS's results of operations through October 23, 2006, the closing date of the 2006 Distribution. The FIS segment generated revenues of \$3,280.4 million and net earnings of \$200.0 million for the year ended December 31, 2006.

Liquidity and Capital Resources

Cash Requirements. Our current cash requirements include operating expenses, taxes, payments of interest and principal on our debt, capital expenditures, business acquisitions, dividends on our common stock, and the repurchase of shares of our common stock. Our Board of Directors has reduced our quarterly dividend from \$0.30 per share to \$0.15 per share, or approximately \$32.2 million per quarter, effective in the fourth quarter of 2008. We continually assess our capital allocation strategy, including decisions relating to the amount of our dividend, reducing debt, repurchasing our stock, and/or conserving cash. The declaration of any future dividends is at the discretion of our Board of Directors. We believe that all anticipated cash requirements for current operations will be met from internally generated funds, through cash dividends from subsidiaries, cash generated by investment securities, potential sales of non-strategic assets, borrowings on existing credit facilities, and possible issuances of debt, equity, or hybrid securities under our existing universal shelf registration statement. Our short-term and long-term liquidity requirements are monitored regularly to ensure that we can meet our cash requirements. We forecast the needs of all of our subsidiaries and periodically review their short-term and long-term projected sources and uses of funds, as well as the asset, liability, investment and cash flow assumptions underlying such forecasts.

Our insurance subsidiaries generate cash from premiums earned and their respective investment portfolios and these funds are adequate to satisfy the payments of claims and other liabilities. Due to the magnitude of our investment portfolio in relation to our claims loss reserves, we do not specifically match durations of our investments to the cash outflows required to pay claims, but do manage outflows on a shorter time frame.

Our two significant sources of internally generated funds are dividends and other payments from our subsidiaries. As a holding company, we receive cash from our subsidiaries in the form of dividends and as reimbursement for operating and other administrative expenses we incur. The reimbursements are paid within the guidelines of management agreements among us and our subsidiaries. Our insurance subsidiaries are restricted by state regulation in their ability to pay dividends and make distributions. Each state of domicile regulates the extent to which our title underwriters can pay dividends or make distributions. As of December 31, 2008, \$1.5 billion of our net assets were restricted from dividend payments without prior approval from the relevant departments of insurance. During 2009, our first tier title insurance subsidiaries can pay or make distributions to us of approximately \$214.7 million without prior regulatory approval. Our underwritten title companies and non-title insurance subsidiaries collect revenue and pay operating expenses. However, they are not regulated to the same extent as our insurance subsidiaries.

The maximum dividend permitted by law is not necessarily indicative of an insurer's actual ability to pay dividends, which may be constrained by business and regulatory considerations, such as the impact of dividends on surplus, which could affect an insurer's ratings or competitive position, the amount of premiums that can be written and the ability to pay future dividends. Further, depending on business and regulatory conditions, we may in the future need to retain cash in our underwriters or even contribute cash to one or more of them in order to maintain their ratings or their statutory capital position. Such a requirement could be the result of investment losses, reserve charges, adverse operating conditions in the current economic environment or changes in interpretation of statutory accounting requirements by regulators. Further, the LFG Subsidiaries recently acquired by us could have unexpected liabilities or asset exposures that only become apparent over time which adversely affect their surplus.

We previously announced that our Board of Directors has authorized us to investigate strategic alternatives for certain of our specialty insurance businesses. The assets being evaluated include the flood insurance and personal lines insurance businesses, but not the home warranty business. We are focused on evaluating our non-core assets and investments as potential vehicles for creating liquidity. Our intent is to use that liquidity for general corporate purposes, including payment of dividends as declared by the Board of Directors and potentially reducing debt, repurchasing shares of our stock, and/or conserving cash.

Our cash flows provided by operations for the year ended December 31, 2008, totaled \$4.6 million compared to \$341.1 million for the year ended December 31, 2007. Cash used in operations in the year ended December 31, 2008, included payments totaling \$68.1 million to settle a group of related claims for third party losses. We believe that these payments and certain previous payments on these related claims are recoverable under various insurance policies and, as of December 31, 2008, we had a receivable in the amount of \$81.4 million in respect of these payments.

Capital Expenditures. Total capital expenditures for property and equipment were \$84.2 million, \$83.9 million, and \$145.4 million for the years ended December 31, 2008, 2007, and 2006, respectively. For the years ended December 31, 2008 and 2007, capital expenditures included \$60.6 million and \$36.8 million, respectively, for the purchase of assets leased to others, including FIS. For the year ended December 31, 2006, capital expenditures included expenditures made by FIS of \$87.7 million. Total capital expenditures for software were \$17.1 million, \$29.3 million, and \$180.9 million in 2008, 2007, and 2006, respectively, and were primarily comprised of FIS expenditures in 2006.

Financing. Effective October 24, 2006, we entered into a credit agreement (the "Credit Agreement") with Bank of America, N.A. as Administrative Agent and Swing Line Lender, and the other financial institutions party thereto. Effective October 11, 2007, we exercised an option to increase the size of the credit facility by an additional \$300 million. The Credit Agreement, which replaced our previous credit agreement, provides for a \$1.1 billion unsecured revolving credit facility, including the \$300 million increase, maturing on the fifth anniversary of the closing date. Amounts under the revolving credit facility may be borrowed, repaid and reborrowed by the borrower from time to time until the maturity of the revolving credit facility. Voluntary prepayment of the revolving credit facility under the Credit Agreement is permitted at any time without fee upon proper notice and subject to a minimum dollar requirement. Revolving loans under the credit facility bear interest at a variable rate based on either (i) the higher of (a) a rate per annum equal to one-half of one percent in excess of the Federal Reserve's Federal Funds rate, or (b) Bank of America's "prime rate" or (ii) a rate per annum equal to the British Bankers Association London Interbank Offered Rate ("LIBOR") plus a margin of between 0.23%-0.675%, depending on our then current senior unsecured long-term debt rating from the rating agencies. In addition, we pay a commitment fee between 0.07%-0.175% on the entire facility, also depending on our senior unsecured long-term debt rating. During 2008, we drew a total of \$170 million from the Credit Agreement and used the proceeds for general corporate purposes. We repaid \$120 million on the credit facility in 2008 and an additional \$50 million in January 2009. As of December 31, 2008, we had outstanding debt with a principal amount of \$585 million under the Credit Agreement, bearing interest at 3.53%.

The Credit Agreement contains affirmative, negative and financial covenants customary for financings of this type, including, among other things, limits on the creation of liens, sales of assets, the incurrence of indebtedness, restricted payments, transactions with affiliates, and certain amendments. The Credit Agreement prohibits us from paying dividends to our stockholders if an event of default has occurred and is continuing or would result therefrom. The Credit Agreement requires us to maintain certain financial ratios and levels of capitalization. The Credit Agreement includes customary events of default for facilities of this type (with customary grace periods, as applicable). These events of default include a cross-default provision that, subject to limited exceptions, permits the lenders to declare the Credit Agreement in default if: (i) (A) we fail to make any payment after the applicable grace period under any indebtedness with a principal amount (including undrawn committed amounts) in excess of 3% of our net worth, as defined in the Credit Agreement, or (B) we fail to perform any other term under any such indebtedness, or any other event occurs, as a result of which the holders thereof may cause it to become due and payable prior to its maturity; or (ii) certain termination events occur under significant interest rate, equity or other swap contracts. The Credit Agreement provides that, upon the occurrence of an event of default, the interest rate on all outstanding obligations will be increased and payments of all outstanding loans may be accelerated and/or the lenders' commitments may be terminated. In addition, upon the occurrence of certain insolvency or bankruptcy related events of default, all amounts payable under the Credit Agreement shall automatically become immediately due and payable, and the lenders' commitments will automatically terminate.

On December 22, 2008, in connection with the acquisition of the LFG Underwriters, the Company entered into a \$50 million subordinated note payable to LFG, due December 2013. This note bears interest at 2.36%, payable annually. In addition, the LFG Underwriters had \$15.7 million of notes payable which are included on FNF's consolidated balance sheet at December 31, 2008.

In connection with the purchase of certain leasing assets from FIS (see “Transactions with Related Parties” in note A of Notes to Consolidated Financial Statements), we assumed certain liabilities associated with those assets, including various bank promissory notes, totaling \$134.9 at the date of purchase. We have continued to use bank promissory notes with similar terms to finance purchases of assets within our leasing operation and, as of December 31, 2008 these promissory notes totaled \$197.5 million, bore interest at various fixed rates and matured at various dates. These bank promissory notes are non-recourse obligations and are secured by interests in certain leases and underlying equipment. In addition, we also assumed a \$20 million revolving credit facility, which is secured by interests in certain leases and underlying equipment and bears interest at Prime-0.5%. As of December 31, 2008, \$13.9 million was unused. On September 30, 2007, also in connection with the acquisition of certain leasing assets from FIS, we entered into an unsecured note due to FIS in the amount of \$7.3 million. The note bears interest at LIBOR+0.45%, includes principal amortization of \$0.2 million per quarter and is due October, 2012. The balance at December 31, 2008, was \$6.2 million.

Our outstanding debt also includes \$241.1 million aggregate principal amount of our 7.30% notes due 2011 and \$249.2 million aggregate principal amount of our 5.25% notes due 2013. These notes contain customary covenants and events of default for investment grade public debt. They do not include a cross-default provision.

We lend fixed maturity and equity securities to financial institutions in short-term security lending transactions. Our security lending policy requires that the cash received as collateral be 102% or more of the fair value of the loaned securities. At December 31, 2008, we had security loans outstanding with fair values totaling of \$103.6 million. Securities loaned under such transactions may be sold or repledged by the transferee. We were liable for cash collateral under our control of \$107.6 million at December 31, 2008, which has been included in cash and in accounts payable and accrued liabilities.

In addition to the foregoing financing arrangements of the Company, our historical financial statements for 2006 reflect debt and interest expense of Old FNF and its other subsidiaries, principally FIS.

Seasonality. Historically, real estate transactions have produced seasonal revenue levels for title insurers. The first calendar quarter is typically the weakest quarter in terms of revenue due to the generally low volume of home sales during January and February. The third calendar quarter has been typically the strongest in terms of revenue primarily due to a higher volume of home sales in the summer months and the fourth calendar quarter is usually also strong due to commercial entities desiring to complete transactions by year-end. In 2007 and 2008, we have seen a divergence from these historical trends as tighter lending standards, including a significant reduction in the availability of mortgage lending, combined with rising default levels and a bearish outlook on the real estate environment have caused potential home buyers to be more reluctant to buy homes and have suppressed refinance activity.

Contractual Obligations. Our long term contractual obligations generally include our loss reserves, our credit agreements and other debt facilities and operating lease payments on certain of our premises and equipment. As of December 31, 2008, our required annual payments relating to these contractual obligations were as follows:

	<u>2009</u>	<u>2010</u>	<u>2011</u>	<u>2012</u>	<u>2013</u>	<u>Thereafter</u>	<u>Total</u>
	(Dollars in thousands)						
Notes payable	\$ 87,639	\$ 58,835	\$ 870,671	\$ 20,956	\$309,344	\$ 3,404	\$1,350,849
Operating lease payments . .	166,626	125,972	86,451	51,112	23,542	101,580	555,283
Pension and post retirement payments	14,672	12,861	13,611	13,048	13,296	92,781	160,269
Title claim losses.	443,992	370,625	294,034	229,232	178,349	1,162,755	2,678,987
Specialty insurance claim losses	<u>42,364</u>	<u>11,309</u>	<u>4,847</u>	<u>895</u>	<u>223</u>	<u>—</u>	<u>59,638</u>
Total	<u>\$755,293</u>	<u>\$579,602</u>	<u>\$1,269,614</u>	<u>\$315,243</u>	<u>\$524,754</u>	<u>\$1,360,520</u>	<u>\$4,805,026</u>

As of December 31, 2008, we had title insurance reserves of \$2,679.0 million. The amounts and timing of these obligations are estimated and are not set contractually. Nonetheless, based on historical title insurance claim experience, we anticipate the above payment patterns. While we believe that historical loss payments are a

reasonable source for projecting future claim payments, there is significant inherent uncertainty in this payment pattern estimate because of the potential impact of changes in:

- future mortgage interest rates, which will affect the number of real estate and refinancing transactions and, therefore, the rate at which title insurance claims will emerge;
- the legal environment whereby court decisions and reinterpretations of title insurance policy language to broaden coverage could increase total obligations and influence claim payout patterns;
- events such as fraud, defalcation, and multiple property title defects that can substantially and unexpectedly cause increases in both the amount and timing of estimated title insurance loss payments;
- loss cost trends whereby increases or decreases in inflationary factors (including the value of real estate) will influence the ultimate amount of title insurance loss payments; and
- claims staffing levels whereby claims may be settled at a different rate based on the future staffing levels of the claims department.

In addition to our title insurance reserves, at December 31, 2008, we held claim reserves of \$59.6 million in our specialty insurance business segment. There is uncertainty with respect to the precise payout pattern of these reserves, which we have estimated in the table above based on historical experience.

Capital Stock Transactions. On October 25, 2006, our Board of Directors approved a three-year stock repurchase program under which we can repurchase up to 25 million shares of our common stock. We may make purchases from time to time in the open market, in block purchases or in privately negotiated transactions, depending on market conditions and other factors. During 2008, we repurchased a total of 3,165,470 shares of our common stock for \$46.0 million, or an average of \$14.53 per share. Since the commencement of this plan, we have repurchased a total of 12,840,470 shares for \$229.1 million, or an average of \$17.84 per share. This includes 1,000,000 shares which we purchased in 2007 from our Chairman of the Board, William P. Foley, II. In August 2007, Mr. Foley planned to sell 1,000,000 shares of FNF stock on the open market. Because the Company was actively purchasing shares of treasury stock on the open market at the same time, the Company agreed to purchase 1,000,000 shares from Mr. Foley on August 8, 2007, for \$22.1 million, or \$22.09 per share, the market price at the time of the purchase.

Additional Minimum Pension Liability Adjustment. We recorded a net-of-tax charge of \$17.9 million to accumulated other comprehensive loss in 2008 for the change in our minimum pension liability.

Equity Investments. Our equity investments are in companies whose values are subject to significant volatility. Should the fair value of these investments fall below our cost basis and/or the financial condition or prospects of these companies deteriorate, we may determine in a future period that this decline in fair value is other-than-temporary, requiring that an impairment loss be recognized in the period such a determination is made. During the year ended December 31, 2008, we recorded impairment charges of \$30.1 million related to equity investments that we determined were other-than-temporarily impaired.

Off-Balance Sheet Arrangements. We do not engage in off-balance sheet activities other than facility and equipment leasing arrangements. On June 29, 2004, Old FNF entered into an off-balance sheet financing arrangement (commonly referred to as a “synthetic lease”). The owner/lessor in this arrangement acquired land and various real property improvements associated with new construction of an office building in Jacksonville, Florida that is part of our corporate campus and headquarters. The lease expires on June 28, 2011, with renewal subject to consent of the lessor and the lenders. The lessor is a third-party limited liability company. The synthetic lease facility provides for amounts up to \$75.0 million. As of December 31, 2008, the full \$75.0 million had been drawn on the facility to finance land costs and related fees and expenses and the outstanding balance was \$70.1 million. The lease includes guarantees by us of up to 86.7% of the outstanding lease balance, and options to purchase the facilities at the outstanding lease balance. The guarantee becomes effective if we decline to purchase the facilities at the end of the lease and also decline to renew the lease. The lessor financed the acquisition of the facilities through funding provided by third-party financial institutions. We have no affiliation or relationship with the lessor or any of its employees, directors or affiliates, and our transactions with the lessor are limited to the

operating lease agreement and the associated rent expense that is included in other operating expenses in the Consolidated Statements of Earnings.

We do not believe the lessor is a variable interest entity, as defined in FASB Interpretation No. 46R, "Consolidation of Variable Interest Entities" ("FIN 46"). In addition, we have verified that even if the lessor was determined to be a variable interest entity, we would not be required to consolidate the lessor or the assets and liabilities associated with the assets leased to us. This is because the assets leased by us will not exceed 50% of the total fair value of the lessor's assets excluding any assets that should be excluded from such calculation under FIN 46, nor did the lessor finance 95% or more of the leased balance with non-recourse debt, target equity or similar funding.

In conducting our operations, we routinely hold customers' assets in escrow, pending completion of real estate transactions. Certain of these amounts are maintained in segregated bank accounts and have not been included in the Consolidated Balance Sheets. As a result of holding these customers' assets in escrow, we have ongoing programs for realizing economic benefits during the year through favorable borrowing and vendor arrangements with various banks. There were no investments or loans outstanding as of December 31, 2008 related to these arrangements.

Recent Accounting Pronouncements

For a description of recent accounting pronouncements, please see note A of Notes to Consolidated Financial Statements included elsewhere herein.

Item 7A. *Quantitative and Qualitative Disclosure About Market Risk*

In the normal course of business, we are routinely subject to a variety of risks, as described in the Risk Factors section of this Annual Report on Form 10-K and in our other filings with the Securities and Exchange Commission. For example, we are exposed to the risk that decreased real estate activity, which depends in part on the level of interest rates, may reduce our title insurance revenues.

The risks related to our business also include certain market risks that may affect our debt and other financial instruments. At present, we face the market risks associated with our marketable equity securities subject to equity price volatility and with interest rate movements on our outstanding debt and fixed income investments.

We regularly assess these market risks and have established policies and business practices designed to protect against the adverse effects of these exposures.

At December 31, 2008, we had \$1.4 billion in long-term debt, of which \$0.6 billion bears interest at a floating rate. Our fixed maturity investments and borrowings are subject to an element of market risk from changes in interest rates. Increases and decreases in prevailing interest rates generally translate into decreases and increases in fair values of those instruments. Additionally, fair values of interest rate sensitive instruments may be affected by the creditworthiness of the issuer, prepayment options, relative values of alternative investments, the liquidity of the instrument and other general market conditions. We manage interest rate risk through a variety of measures. We monitor our interest rate risk and make investment decisions to manage the perceived risk. However, we do not currently use derivative financial instruments in any material amount to hedge these risks.

Equity price risk is the risk that we will incur economic losses due to adverse changes in equity prices. In the past, our exposure to changes in equity prices primarily resulted from our holdings of equity securities. At December 31, 2008, we held \$71.5 million in marketable equity securities (not including our equity method investments such as Sedgwick, Ceridian, and Remy, which amounted to \$644.5 million at December 31, 2008). The carrying values of investments subject to equity price risks are based on quoted market prices as of the balance sheet date. Market prices are subject to fluctuation and, consequently, the amount realized in the subsequent sale of an investment may significantly differ from the reported market value. Fluctuation in the market price of a security may result from perceived changes in the underlying economic characteristics of the investee, the relative price of alternative investments and general market conditions. Furthermore, amounts realized in the sale of a particular security may be affected by the relative quantity of the security being sold. We principally manage equity price risk in our equity securities portfolio through industry and issuer diversification and asset allocation techniques.

For purposes of this Annual Report on Form 10-K, we perform a sensitivity analysis to determine the effects that market risk exposures may have on the fair values of our debt and other financial instruments.

The financial instruments that are included in the sensitivity analysis with respect to interest rate risk include fixed maturity investments and notes payable. The financial instruments that are included in the sensitivity analysis with respect to equity price risk include marketable equity securities. With the exception of equity method investments, it is not anticipated that there would be a significant change in the fair value of other long-term investments or short-term investments if there were a change in market conditions, based on the nature and duration of the financial instruments involved.

To perform the sensitivity analysis, we assess the risk of loss in fair values from the effect of hypothetical changes in interest rates and equity prices on market-sensitive instruments. The changes in fair values for interest rate risks are determined by estimating the present value of future cash flows using various models, primarily duration modeling. The changes in fair values for equity price risk are determined by comparing the market price of investments against their reported values as of the balance sheet date.

Information provided by the sensitivity analysis does not necessarily represent the actual changes in fair value that we would incur under normal market conditions because, due to practical limitations, all variables other than the specific market risk factor are held constant. For example, our reserve for claim losses (representing 49.7% of total liabilities at December 31, 2008) is not included in the hypothetical effects.

We have no market risk sensitive instruments entered into for trading purposes; therefore, all of our market risk sensitive instruments were entered into for purposes other than trading. The results of the sensitivity analysis at December 31, 2008, and December 31, 2007, are as follows:

Interest Rate Risk

At December 31, 2008, an increase (decrease) in the levels of interest rates of 100 basis points, with all other variables held constant, would result in a (decrease) increase in the fair value of our fixed maturity securities of \$96.7 million as compared with a (decrease) increase of \$91.9 million at December 31, 2007.

Additionally, for the year ended December 31, 2008, an increase (decrease) of 100 basis points in the levels of interest rates, with all other variables held constant, would result in an increase (decrease) in the interest expense on our average outstanding floating rate debt of \$4.3 million as compared to an increase (decrease) of \$1.0 million for the year ended December 31, 2007.

Equity Price Risk

At December 31, 2008, a 20% increase (decrease) in market prices, with all other variables held constant, would result in an increase (decrease) in the fair value of our equity securities portfolio of \$14.3 million, as compared with an increase (decrease) of \$18.7 million at December 31, 2007.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders
Fidelity National Financial, Inc.:

We have audited Fidelity National Financial, Inc.'s internal control over financial reporting as of December 31, 2008, based on criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Fidelity National Financial, Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Fidelity National Financial, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2008, based on criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Fidelity National Financial, Inc. acquired Commonwealth Land Title Insurance Company, Lawyers Title Insurance Corporation, and United Capital Title Insurance Company (collectively, the "LFG Underwriters") during 2008, and management excluded from its assessment of the effectiveness of Fidelity National Financial, Inc.'s internal control over financial reporting as of December 31, 2008, the LFG Underwriters' internal control over financial reporting associated with total assets of \$1.8 billion and total revenues of \$46 million included in the consolidated financial statements of Fidelity National Financial, Inc. and Subsidiaries as of and for the year ended December 31, 2008. Our audit of internal control over financial reporting of Fidelity National Financial, Inc. also excluded an evaluation of the internal control over financial reporting of the LFG Underwriters.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Consolidated Balance Sheets of Fidelity National Financial, Inc. and subsidiaries as of December 31, 2008 and 2007, and the related Consolidated Statements of Earnings, Comprehensive Earnings, Stockholders' Equity and Cash Flows for each of the years in the three-year period ended December 31, 2008, and our report dated March 2, 2009 expressed an unqualified opinion on those Consolidated Financial Statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders
Fidelity National Financial, Inc.:

We have audited the accompanying Consolidated Balance Sheets of Fidelity National Financial, Inc. and subsidiaries as of December 31, 2008 and 2007, and the related Consolidated Statements of Earnings, Comprehensive Earnings, Stockholders' Equity and Cash Flows for each of the years in the three-year period ended December 31, 2008. These Consolidated Financial Statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these Consolidated Financial Statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the Consolidated Financial Statements referred to above present fairly, in all material respects, the financial position of Fidelity National Financial, Inc. and subsidiaries as of December 31, 2008 and 2007, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2008, in conformity with U.S. generally accepted accounting principles.

As discussed in Note J to the Consolidated Financial Statements, effective January 1, 2007, the Company adopted the recognition and disclosure provisions of Financial Accounting Standards Board Interpretation No. 48, "Accounting for Uncertainty in Income Taxes — an interpretation of FASB Statement No. 109."

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Fidelity National Financial, Inc.'s internal control over financial reporting as of December 31, 2008, based on criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated March 2, 2009 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

A. Summary of Significant Accounting Policies

The following describes the significant accounting policies of Fidelity National Financial, Inc. and its subsidiaries (collectively, the “Company” or “FNF”) which have been followed in preparing the accompanying Consolidated Financial Statements.

Description of Business

Fidelity National Financial, Inc. is a holding company that is a provider, through its subsidiaries, of title insurance, specialty insurance, claims management services, and information services. FNF is the nation’s largest title insurance company through its title insurance underwriters — Fidelity National Title, Chicago Title, Commonwealth Title, Lawyers Title, Ticor Title, Security Union Title, and Alamo Title — which collectively issued more title insurance policies in 2007 than any other title company in the United States. FNF also provides flood insurance, personal lines insurance, and home warranty insurance through its specialty insurance subsidiaries. FNF is also a leading provider of outsourced claims management services to large corporate and public sector entities through its minority-owned affiliate, Sedgwick CMS (“Sedgwick”). FNF is also a provider of information services in the human resource, retail, and transportation markets through another minority-owned affiliate, Ceridian Corporation (“Ceridian”).

Prior to October 24, 2006, the Company was known as Fidelity National Title Group, Inc. (“FNT”) and was a majority-owned subsidiary of another publicly traded company, also called Fidelity National Financial, Inc. (“Old FNF”). On October 24, 2006, Old FNF transferred certain assets, including its specialty insurance business, its interest in certain claims management operations, certain timber and real estate holdings, certain smaller operations, cash and certain investment assets, to FNT in return for the issuance of 45,265,956 shares of FNT common stock to Old FNF. Old FNF then distributed to its shareholders all of its shares of FNT common stock, making FNT a stand alone public company (the “2006 Distribution”). On November 9, 2006, Old FNF was then merged with and into another of its subsidiaries, Fidelity National Information Services, Inc. (“FIS”), after which FNT’s name was changed to Fidelity National Financial, Inc. On July 2, 2008, FIS completed the spin-off of its former Lender Processing Services operating segment into a separate publicly traded company, referred to as LPS, by distributing all of its shares of LPS to FIS shareholders through a stock dividend. As a result of these transactions, the Company’s chairman of the board is also executive chairman of the board of FIS and chairman of the board of LPS and other members of our board of directors and our management serve in similar capacities at FIS and LPS.

Under applicable accounting principles, following these transactions, Old FNF’s historical financial statements, with the exception of equity and earnings per share, became FNF’s historical financial statements, including the results of FIS through the date of FNF’s spin-off from Old FNF. For periods prior to October 24, 2006 the Company’s equity has been derived from FNT’s historical equity and its historical basic and diluted earnings per share have been calculated using FNT’s basic and diluted weighted average shares outstanding.

FNF currently has three reporting segments as follows:

- *Fidelity National Title Group.* This segment consists of the operation of FNF’s title insurance underwriters and related businesses. This segment provides core title insurance and escrow and other title related services including collection and trust activities, trustee’s sales guarantees, recordings and reconveyances.
- *Specialty Insurance.* The specialty insurance segment consists of certain subsidiaries that issue flood, home warranty, homeowners, automobile and other personal lines insurance policies. The Company recently announced that its Board of Directors has authorized the investigation of strategic alternatives for certain of its specialty insurance businesses. The assets to be evaluated include the flood insurance and personal lines insurance businesses, but not the home warranty business. However, there can be no assurance that any transaction will be completed.
- *Corporate and Other.* The corporate and other segment consists of the operations of the parent holding company, certain other unallocated corporate overhead expenses, other smaller operations, and the

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Company's share in the operations of certain equity investments, including Sedgwick, Ceridian and Remy International, Inc. ("Remy").

Through October 23, 2006, the Company's results also included the operations of FIS as a separate segment. This segment provided transaction processing services, consisting principally of technology solutions for banks and other financial institutions, credit and debit card services and check risk management and related services for retailers and others. This segment also provided lender processing services, consisting principally of technology solutions for mortgage lenders, selected mortgage origination services such as title agency and closing services, default management and mortgage information services.

Principles of Consolidation and Basis of Presentation

The accompanying Consolidated Financial Statements include the accounts of the Company and its wholly-owned and majority-owned subsidiaries. All intercompany profits, transactions and balances have been eliminated. The Company's investments in non-majority-owned partnerships and affiliates are accounted for using the equity method until such time that they become wholly or majority owned. Minority interest expense is recorded on the consolidated statement of earnings relating to majority owned subsidiaries and the appropriate minority interest liability is recorded on the Consolidated Balance Sheets in each period.

Investments

Fixed maturity securities are purchased to support the investment strategies of the Company, which are developed based on factors including rate of return, maturity, credit risk, tax considerations and regulatory requirements. Fixed maturity securities which may be sold prior to maturity to support the Company's investment strategies are carried at fair value and are classified as available for sale as of the balance sheet dates. Fair values for fixed maturity securities are principally a function of current interest rates and market conditions and are based on quoted market prices. Discount or premium is recorded for the difference between the purchase price and the principal amount. The discount or premium is amortized or accreted using the interest method and is recorded as an adjustment to interest and investment income. The interest method results in the recognition of a constant rate of return on the investment equal to the prevailing rate at the time of purchase or at the time of subsequent adjustments of book value. Changes in prepayment assumptions are accounted for prospectively.

Equity securities are considered to be available for sale and carried at fair value as of the balance sheet dates. Fair values are based on quoted market prices.

Investments in unconsolidated affiliates are recorded using the equity method of accounting (see note D).

Short-term investments, which consist primarily of securities purchased under agreements to resell, commercial paper and money market instruments, which have an original maturity of one year or less, are carried at amortized cost, which approximates fair value.

Realized gains and losses on the sale of investments are determined on the basis of the cost of the specific investments sold and are credited or charged to income on a trade date basis. Unrealized gains or losses on fixed maturity and equity securities which are classified as available for sale, net of applicable deferred income taxes (benefits), are excluded from earnings and credited or charged directly to a separate component of stockholders' equity. If any unrealized losses on fixed maturity or equity securities are deemed other-than-temporary, such unrealized losses are recognized as realized losses. Unrealized losses are deemed other-than-temporary if factors exist that cause management to believe that the value will not increase to a level sufficient to recover the Company's cost basis. Some factors considered in evaluating whether or not a decline in fair value is other-than-temporary include: (i) the Company's ability and intent to retain the investment for a period of time sufficient to allow for a recovery in value; (ii) the duration and extent to which the fair value has been less than cost; and (iii) the financial condition and prospects of the issuer. Such reviews are inherently uncertain and the value of the investment may not fully recover or may decline in future periods resulting in a realized loss.

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Cash and Cash Equivalents

Highly liquid instruments purchased with original maturities of three months or less are considered cash equivalents. The carrying amounts reported in the Consolidated Balance Sheets for these instruments approximate their fair value.

Fair Value of Financial Instruments

The fair values of financial instruments presented in the Company's Consolidated Financial Statements are estimates of the fair values at a specific point in time using available market information and appropriate valuation methodologies. These estimates are subjective in nature and involve uncertainties and significant judgment in the interpretation of current market data. Therefore, the fair values presented are not necessarily indicative of amounts the Company could realize or settle currently. The Company does not necessarily intend to dispose of or liquidate such instruments prior to maturity.

Trade and Notes Receivables

The carrying values reported in the Consolidated Balance Sheets for trade and notes receivables approximate their fair value.

Goodwill

Goodwill represents the excess of cost over fair value of identifiable net assets acquired and assumed in a business combination. SFAS No. 142, "Goodwill and Intangible Assets" ("SFAS 142") provides that goodwill and other intangible assets with indefinite useful lives should not be amortized, but shall be tested for impairment annually, or more frequently if circumstances indicate potential impairment, through a comparison of fair value to its carrying amount. In evaluating the recoverability of goodwill, the Company performs an annual goodwill impairment test based on an analysis of the discounted future cash flows generated by the underlying assets.

As required by SFAS 142, the Company completed its annual goodwill impairment tests in the fourth quarter of each respective year using a September 30 measurement date, and determined fair values were in excess of carrying values. Accordingly, no goodwill impairments have been recorded.

Capitalized Software

Capitalized software includes software acquired in business acquisitions, purchased software and internally developed capitalized software. Purchased software is recorded at cost and amortized using the straight-line method over a 3-year period and software acquired in a business acquisition is recorded at its fair value upon acquisition and amortized using straight-line and accelerated methods over its estimated useful life. Capitalized computer software development costs are accounted for in accordance with either SFAS 86, "Accounting for the Costs of Computer Software to Be Sold, Leased, or Otherwise Marketed" ("SFAS 86"), or with American Institute of Certified Public Accountants' Statement of Position ("SOP") No. 98-1, "Accounting for the Costs of Computer Software Developed or Obtained for Internal Use" ("SOP 98-1"). After the technological feasibility of the software has been established (for SFAS 86 software), or at the beginning of application development (for SOP 98-1 software), software development costs, which include salaries and related payroll costs and costs of independent contractors incurred during development, are capitalized. Research and development costs incurred prior to the establishment of technological feasibility (for SFAS 86 software), or prior to application development (for SOP 98-1 software), of a product are expensed as incurred and are not significant. The cost of internally developed computer software that is subject to the provisions of SFAS 86 is amortized on a product-by-product basis commencing on the date of general release of the products, generally the greater of (1) the straight-line method over its estimated useful life, which ranges from three to seven years or (2) the ratio of current revenues to total anticipated revenue over its useful life. The cost of purchased software that is subject to the provisions of SOP 98-1 is amortized on a straight-line basis over its estimated useful life.

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

At December 31, 2008, capitalized software costs were \$190.1 million, less accumulated amortization of \$104.4 million. At December 31, 2007, capitalized software costs were \$176.0 million, less accumulated amortization of \$82.6 million.

Amortization expense relating to computer software was \$36.8 million, \$24.5 million, and \$127.4 million for the years ended December 31, 2008, 2007, and 2006, respectively, and, in 2006, was primarily made up of amortization expense recorded by FIS.

Other Intangible Assets

The Company has other intangible assets, not including software, which consist primarily of customer relationships and contracts and trademarks which are generally recorded in connection with acquisitions at their fair value. SFAS 142 requires that intangible assets with estimable lives be amortized over their respective estimated useful lives to their estimated residual values and reviewed for impairment in accordance with SFAS 144. Customer relationships are amortized over their estimated useful lives using an accelerated method which takes into consideration expected customer attrition rates over a ten-year period. Contractual relationships are generally amortized over their contractual life. Trademarks are considered intangible assets with indefinite lives and are reviewed for impairment at least annually in accordance with SFAS 142.

During 2008, in accordance with SFAS 144, the Company determined that the carrying value of certain of its intangible assets, software and license fees may not be recoverable and recorded impairment expense of \$8.5 million relating to the impairment of these assets. This expense amount was included in other operating expenses in the Consolidated Statements of Earnings for the year ended December 31, 2008. There was no such expense recorded in 2007 or 2006.

Title Plants

Title plants are recorded at the cost incurred to construct or obtain and organize historical title information to the point it can be used to perform title searches. Costs incurred to maintain, update and operate title plants are expensed as incurred. Title plants are not amortized as they are considered to have an indefinite life if maintained. Sales of title plants are reported at the amount received net of the adjusted costs of the title plant sold. Sales of title plant copies are reported at the amount received. No cost is allocated to the sale of copies of title plants unless the carrying value of the title plant is diminished or impaired.

Property and Equipment

Property and equipment are recorded at cost, less depreciation. Depreciation is computed primarily using the straight-line method based on the estimated useful lives of the related assets: thirty years for buildings and three to seven years for furniture, fixtures and equipment. Leasehold improvements are amortized on a straight-line basis over the lesser of the term of the applicable lease or the estimated useful lives of such assets.

Reserve for Claim Losses

The Company's reserve for claim losses includes known claims for title and specialty insurance as well as losses the Company expects to incur, net of recoupments. Each known claim is reserved based on a review by the Company as to the estimated amount of the claim and the costs required to settle the claim. Reserves for claims which are incurred but not reported are established at the time premium revenue is recognized based on historical loss experience and other factors, including industry trends, claim loss history, current legal environment, geographic considerations and type of policy written. For specialty insurance, reserve for claims incurred but not reported are estimated based on historical loss experience.

The reserve for claim losses also includes reserves for losses arising from the escrow, closing and disbursement functions due to fraud or operational error.

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

If a loss is related to a policy issued by an independent agent, the Company may proceed against the independent agent pursuant to the terms of the agency agreement. In any event, the Company may proceed against third parties who are responsible for any loss under the title insurance policy under rights of subrogation.

Secured Trust Deposits

In the state of Illinois, a trust company is permitted to commingle and invest customers' assets with those of the Company, pending completion of real estate transactions. Accordingly, the Company's Consolidated Balance Sheets reflect a secured trust deposit liability of \$474.1 million and \$689.9 million at December 31, 2008 and 2007, respectively, representing customers' assets held by us and corresponding assets including cash and investments pledged as security for those trust balances.

Income Taxes

The Company recognizes deferred tax assets and liabilities for temporary differences between the financial reporting basis and the tax basis of the Company's assets and liabilities and expected benefits of utilizing net operating loss and credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The impact on deferred taxes of changes in tax rates and laws, if any, is applied to the years during which temporary differences are expected to be settled and reflected in the financial statements in the period enacted.

Reinsurance

In a limited number of situations, the Company limits its maximum loss exposure by reinsuring certain risks with other insurers. The Company also earns a small amount of additional income, which is reflected in the Company's direct premiums, by assuming reinsurance for certain risks of other insurers. The Company also cedes a portion of certain policy and other liabilities under agent fidelity, excess of loss and case-by-case reinsurance agreements. Reinsurance agreements provide that in the event of a loss (including costs, attorneys' fees and expenses) exceeding the retained amounts, the reinsurer is liable for the excess amount assumed. However, the ceding company remains primarily liable in the event the reinsurer does not meet its contractual obligations.

Revenue Recognition

Fidelity National Title Group. Direct title insurance premiums and escrow and other title-related fees are recognized as revenue at the time of closing of the related transaction as the earnings process is considered complete, whereas premium revenues from agency operations and agency commissions include an accrual based on estimates of the volume of transactions that have closed in a particular period for which premiums have not yet been reported to us. The accrual for agency premiums is necessary because of the lag between the closing of these transactions and the reporting of these policies to us by the agent. During 2008, the Company re-evaluated and refined the method that it uses to estimate this accrual, which resulted in a reduction in revenue from agency title insurance premiums of \$138.5 million compared to the revenues that would have been accrued under our prior method. The impact of this adjustment was a decrease of \$11.8 million in pre-tax earnings and \$7.6 million in net income, or approximately \$0.04 per share, compared to the amounts that would have been recorded under our prior method. The Company believes that this adjustment is properly reflected as a change in accounting estimate in 2008.

Specialty Insurance. Revenues from home warranty and personal lines insurance policies are recognized over the life of the policy, which is one year. Revenues and commissions related to the sale of flood insurance are recognized when the policy is reported.

Fidelity National Information Services, Inc. In this segment, the Company earned revenues from processing services, software licensing and software related services and data and information services.

The Company recognized revenues relating to bank processing services and mortgage processing services along with software licensing and software related services. Several of the Company's contracts included a software

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

license and one or more of the following services: data processing, development, implementation, conversion, training, programming, maintenance and application management. In some cases, these services were offered in combination with one another and in other cases the Company offered them individually. Revenues from bank and mortgage processing services were typically volume-based depending on factors such as the estimated number of accounts, transactions processed and computer resources utilized.

The substantial majority of the revenues in this business were from outsourced data processing and application management arrangements. Revenues from these arrangements were recognized as services were performed in accordance with SEC Staff Accounting Bulletin No. 104 (“SAB 104”), “Revenue Recognition” and related interpretations. SAB 104 sets forth guidance as to when revenue is realized or realizable and earned when all of the following criteria are met: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred or services have been rendered; (3) the seller’s price to the buyer is fixed and determinable; and (4) collectability is reasonably assured. Revenue and deferred costs related to implementation, conversion and programming services associated with the Company’s data processing and application management agreements were deferred during the implementation phase and subsequently recognized using the straight-line method over the term of the related agreement. The Company evaluated these deferred costs for impairment in the event any indications of impairment existed.

In the event that the Company’s arrangements with its customers included more than one product or service, the Company determined whether the individual elements could be recognized separately in accordance with the provisions of EITF No. 00-21, “Revenue Arrangements with Multiple Deliverables” (“EITF 00-21”). EITF 00-21 addresses the determination of whether an arrangement involving more than one deliverable contains more than one unit of accounting and how the arrangement consideration should be measured and allocated to the separate units of accounting. If all of the products and services were software related products and services as determined under the provisions of SOP 97-2 (“SOP 97-2”), entitled “Software Revenue Recognition,” and SOP 98-9, entitled “Modification of SOP No. 97-2, Software Revenue Recognition, with Respect to Certain Transactions,” the Company applied these pronouncements and related interpretations to determine the appropriate units of accounting and how the arrangement consideration should be measured and allocated to the separate units of accounting.

The Company recognized software license and maintenance fees as well as associated development, implementation, training, conversion and programming fees in accordance with SOP 97-2 and SOP 98-9. Initial license fees were recognized when a contract exists, the fee was fixed or determinable, software delivery had occurred and collection of the receivable was deemed probable, provided that vendor-specific objective evidence, or VSOE, had been established for each element or for the undelivered elements. The Company determined the fair value of each element or the undelivered elements in multi-element software arrangements based on VSOE. If the arrangement was subject to accounting under SOP 97-2, VSOE for each element was based on the price charged when the same element was sold separately. If evidence of fair value of all undelivered elements existed but evidence did not exist for one or more delivered elements, then revenue was recognized using the residual method. Under the residual method, the fair value of the undelivered elements is deferred and the remaining portion of the arrangement fee is recognized as revenue. If evidence of fair value does not exist for one or more undelivered elements of a contract, then all revenue is deferred until all elements are delivered or fair value is determined for all remaining undelivered elements. Revenue from maintenance and support was recognized ratably over the term of the agreement. The Company recorded deferred revenue for maintenance amounts invoiced prior to revenue recognition.

With respect to a small percentage of revenues, the Company used contract accounting, as required by SOP 97-2, when the arrangement with the customer included significant customization, modification, or production of software. For elements accounted for under contract accounting, revenue was recognized in accordance with SOP 81-1, *Accounting for Performance of Construction Type and Certain Production-Type Contracts*, using the percentage-of-completion method since reasonably dependable estimates of revenues and contract hours applicable to various elements of a contract could be made. Revenues in excess of billings on these agreements were recorded as unbilled receivables and were included in accounts receivable. Billings in excess of revenue recognized on these agreements were recorded as deferred revenue until revenue recognition criteria were met. Changes in estimates for revenues, costs and profits were recognized in the period in which they were determinable. When the Company’s

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

estimate indicated that the entire contract would be performed at a loss, a provision for the entire loss was recorded in that accounting period.

The Company recognized revenues from mortgage origination services and default management services. Mortgage origination services consisted of centralized title agency and closing services for various types of lenders. Revenues relating to centralized title agency and closing services were recognized at the time of closing of the related real estate transaction. Ancillary service fees were recognized when the service is provided. Default management services consisted of services provided to assist customers through the default and foreclosure process, including property preservation and maintenance services (such as lock changes, window replacement, debris removal and lawn service), posting and publication of foreclosure and auction notices, title searches, document preparation and recording services, and referrals for legal and property brokerage services. Revenue derived from these services was recognized as the services were performed in accordance with SAB 104 as described above.

The Company recorded revenue from providing data or data-related services. These services principally included appraisal and valuation services, property records information, real estate tax services, borrower credit and flood zone information and multiple listing software and services. Revenue derived from these services was recognized as the services were performed in accordance with SAB 104 as described above.

The Company's flood and tax units provided various services including life-of-loan monitoring services. Revenue for life-of-loan services was deferred and recognized ratably over the estimated average life of the loan service period, which was determined based on the Company's historical experience. The Company evaluated its historical experience on a periodic basis, and adjusted the estimated life of the loan service period prospectively. Revenue derived from software and service arrangements was recognized in accordance with SOP 97-2. Revenues from other services in this segment were recognized as the services were performed in accordance with SAB 104 as described above.

Earnings Per Share

Basic earnings per share is computed by dividing net earnings available to common stockholders by the weighted average number of common shares outstanding during the period. In periods when earnings are positive, diluted earnings per share is calculated by dividing net earnings available to common stockholders by the sum of the weighted average number of common shares outstanding and the impact of assumed conversions of potentially dilutive securities. For periods when the Company recognizes a net loss, diluted earnings per share is equal to basic earnings per share as the impact of assumed conversions of potentially dilutive securities is considered to be antidilutive. The Company has granted certain options, warrants and restricted stock which have been treated as common share equivalents for purposes of calculating diluted earnings per share for periods in which positive earnings have been reported.

The following table presents the computation of basic and diluted earnings per share:

	<u>Year Ended December 31,</u>		
	<u>2008</u>	<u>2007</u>	<u>2006</u>
	(In thousands, except per share data)		
Basic and diluted earnings	<u>\$(179,016)</u>	<u>\$129,769</u>	<u>\$437,761</u>
Weighted average shares outstanding during the year, basic basis	209,974	216,583	182,031
Plus: Common equivalent shares assumed from conversion of options	<u>—</u>	<u>3,406</u>	<u>830</u>
Weighted average shares outstanding during the year, diluted basis	<u>209,974</u>	<u>219,989</u>	<u>182,861</u>
Basic earnings per share	<u>\$ (0.85)</u>	<u>\$ 0.60</u>	<u>\$ 2.40</u>
Diluted earnings per share	<u>\$ (0.85)</u>	<u>\$ 0.59</u>	<u>\$ 2.39</u>

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

For the years ended December 31, 2008, 2007, and 2006, options to purchase 23,219,283 shares, 5,382,074 shares and 2,297,140 shares, respectively, of the Company's common stock were not included in the computation of diluted earnings per share because they were anti-dilutive.

Transactions with Related Parties

The Company has historically conducted business with FIS and its subsidiaries. Beginning on October 24, 2006, the Company's financial statements reflect transactions with FIS, which is a related party. Prior to October 24, 2006, these transactions were eliminated because FIS' results of operations were included in our consolidated results. On July 2, 2008, FIS completed the spin-off of its lender processing services segment into a separate publicly traded company, LPS. As part of the spin-off of LPS, a number of the agreements that were previously between FNF and FIS were amended and renegotiated to reflect the revised relationships between FNF and FIS and the new relationships between FNF and LPS. A summary of the agreements that were in effect with FIS and LPS through December 31, 2008, is as follows:

- *Title agency services by LPS.* The historical FIS subsidiaries who are party to these agreements became subsidiaries of LPS in connection with the spin-off. These agreements allow LPS to provide services to existing customers through loan facilitation transactions, primarily with large national lenders. The arrangement involves the provision of title agency services by LPS, which results in the issuance of title policies on behalf of title insurance underwriters owned by the Company. Subject to certain early termination provisions for cause, each of these agreements may be terminated upon five years' prior written notice, which notice may not be given until after the fifth anniversary of the effective date of each agreement, which ranges from July 2004 through September 2006 (thus effectively resulting in a minimum ten-year term and a rolling one-year term thereafter). Under these agreements, LPS retains commissions which, in aggregate, are equal to approximately 89% of the total title premium from title policies that LPS places with the Company's subsidiaries. LPS also performs similar functions in connection with trustee sale guarantees, a form of title insurance that the Company's subsidiaries issue as part of the foreclosure process on a defaulted loan. Effective as of January 1, 2009, this agreement was amended to provide that LPS will retain approximately 87% of the total title premiums.
- *Information Technology ("IT"), data processing services and software development services from FIS and LPS.* These agreements govern IT support services and software development provided to the Company by FIS and LPS, primarily consisting of infrastructure support and data center management. Subject to certain early termination provisions (including the payment of minimum monthly service and termination fees), both of these agreements expire on or about June 30, 2013 with an option to renew for one or two additional years. In connection with the spin-off, the agreement with FIS was amended so that certain of the services, primarily those related to infrastructure support and data center management, continue to be provided by FIS on revised terms and conditions. The Company also entered into a new agreement with LPS for the provision of certain of the services that were previously provided under the agreement with FIS, primarily those related to software application development services and other IT-related services for the Company.
- *Administrative corporate support services to and from FIS and LPS.* The Company has provided certain administrative corporate support services such as general management, statutory accounting, claims administration, corporate aviation and other administrative support services to FIS and, since July 2, 2008, to LPS. On a lesser scale, until recently, FIS has provided similar support services to the Company. The pricing of these administrative services is at cost. In connection with the spin-off, the Company entered into an agreement to provide LPS with certain corporate services, amended the agreement with FIS to reflect the change in the services provided to FIS, and terminated the agreement for FIS to provide services to the Company. All of these administrative services are provided on an at-cost basis. The term of these administrative corporate services agreements is two years, subject to early termination because the services are no longer required by the party receiving the services or upon mutual agreement of the parties and subject to extension in certain circumstances.

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

- *Other real estate, tax, and title support related services by LPS.* The historical FIS subsidiaries who are party to these agreements with the Company became subsidiaries of LPS in connection with the spin-off. Under these arrangements, the Company pays LPS for providing other real estate related services to the Company, which consist primarily of real estate, tax data and title related data services required by the Company's title insurance operations and flood zone determination and reporting services used by the Company's title insurers in connection with properties that may be located in special flood hazard areas.
- *Title plant access and title production services by LPS.* The historical FIS subsidiaries who are party to these agreements with the Company became subsidiaries of LPS in connection with the spin-off. Under these agreements, the Company's title insurers provide LPS with title plant access for real property located in various states, including online database access, physical access to title records, use of space, image system use, and use of special software, as well as other title production services. For the title plant access, LPS pays monthly fees (subject to certain minimum charges) based on the number of title reports or products ordered and other services received. For the title production services, LPS pays for services based on the number of properties searched, subject to certain minimum use. The title plant access agreement has a term of 3 years beginning in November 2006 and is automatically renewable for successive 3 year terms unless either party gives 30 days' prior written notice. The title production services agreement can be terminated by either party upon 30 days' prior written notice.
- *Real estate management, real estate lease and equipment lease agreements.* Included in the Company's revenues are amounts received related to leases of certain equipment to FIS and to LPS and the sublease of certain office space, furniture and furnishings to FIS and to LPS. In addition, the Company's expenses include expenses for a lease of office space and equipment for the Company's corporate headquarters and business operations as well as expenses for property management services for the Company's corporate headquarters building. These expenses were paid to FIS for services provided prior to the spin-off and to LPS for services provided on and after the spin-off. In connection with the spin-off and the transfer of certain real property from FIS to LPS, the Company terminated its real estate lease with FIS and entered into a new lease with LPS with terms that are similar to those of the terminated FIS lease. In addition, the Company amended its sublease with FIS to take into account a reduction in the office space leased by FIS, and entered into a new sublease with LPS for its sublease of office space in the Company's headquarters' building. The rents paid by the Company to FIS and LPS and paid to the Company by FIS and LPS under the leases and subleases are based on the same rate per square foot. The lease term for all of the leases and subleases expires on June 30, 2011. The Company also entered into a new property management agreement with LPS since LPS has replaced FIS as the principal owner and manager of the Jacksonville headquarters campus. The management fees charged to the Company are reflective of the actual operating costs of the property managed and are partially recovered by the Company in rents charged under the sublease by the Company to FIS and LPS. The term of the property management agreements coincides with that of the leases and subleases, which expire on June 30, 2011.
- *Licensing, cost sharing, business processing and other agreements.* The historical FIS subsidiaries who are party to these agreements with the Company became subsidiaries of LPS in connection with the spin-off. These agreements provide for the reimbursement of certain amounts from the Company related to various licensing and cost sharing agreements, as well as the payment of certain amounts by LPS to the Company in connection with the use of certain intellectual property, including software and business processes, and other assets or services. The software licenses have various terms, but generally may be terminated on 90 days' prior notice. The business processing license and services agreement has a 10-year term, but in connection with the spin-off, its term was amended and will expire on July 2, 2009.

On August 31, 2007, the Company completed the acquisition of Property Insight, LLC ("Property Insight"), a former FIS subsidiary, from FIS for \$95 million in cash. Property Insight is a leading provider of title plant services for the Company, as well as various national and regional underwriters. Property Insight primarily manages, maintains and updates the title plants that are owned by the Company. Additionally, Property Insight manages

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

potential title plant construction for the Company. Prior to August 31, 2007, the title plant assets of several of FNF's title insurance subsidiaries were managed or maintained by Property Insight, as a subsidiary of FIS. The underlying title plant information and software were owned by each of the Company's title insurance underwriters, but Property Insight managed and updated the information in return for either (i) a cash management fee or (ii) the right to sell that information to title insurers, including title insurance underwriters that the Company owns and other third party customers. In most cases, Property Insight was responsible for keeping the title plant assets current and fully functioning, for which the Company paid a fee to Property Insight based on the Company's use of, or access to, the title plant. In addition, each applicable title insurance underwriter owned by the Company in turn received a royalty on sales of access to its title plant assets. The Company is also a party to agreements with LPS that permit LPS and certain of its subsidiaries to access and use (but not resell) the starters databases and back plant databases of the Company's title insurance subsidiaries. Starters databases are the Company's databases of previously issued title policies and back plant databases contain historical records relating to title that are not regularly updated. Prior to July 2, 2008, these agreements were between FNF and FIS.

The Company's payments to FIS for management and maintenance of title plant assets by Property Insight were \$14.0 million for the period from January 1 through August 31, 2007, and \$5.5 million for the period from October 24, through December 31, 2006. The Company's revenues from title plant royalties were \$3.7 million for the period from January 1 through August 31, 2007, and \$0.4 million for the period from October 24 through December 31, 2006.

Through August 31, 2007, the Company paid amounts to Property Insight for capitalized software development and for title plant construction. These amounts included capitalized software development costs of \$5.4 million for the period from January 1 through August 31, 2007, and \$1.9 million for the period from October 24 through December 31, 2006, and amounts paid for capitalized title plant construction costs of \$10.3 million for the period from January 1 through August 31, 2007, and \$2.7 million for the period from October 24 through December 31, 2006. During the year ended December 31, 2008, the Company paid FIS \$0.8 million for capitalized software development costs.

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

A detail of related party items between the Company and FIS and LPS that were included in revenues and expenses for the periods presented is as follows:

	<u>Full Year 2008</u>	<u>Full Year 2007</u>	<u>October 24- December 31 2006</u>
	(In millions)		
Revenues:			
Agency title premiums earned	\$212.3	\$149.4	\$22.4
Rental revenue	25.5	—	—
Title plant revenue	8.4	—	—
Interest revenue	—	0.5	—
Total revenue	246.2	149.9	22.4
Expenses:			
Agency title commissions	\$187.9	\$132.2	\$19.5
Data processing costs	42.6	46.8	17.6
Corporate services allocated	(1.6)	(2.7)	(1.5)
Title insurance information expense	—	10.3	5.1
Other real-estate related information	11.4	13.5	2.4
Software development and services expense	54.9	53.7	3.1
Rental expense	0.2	(8.2)	0.7
License and cost sharing agreements	5.7	7.8	1.2
Interest expense	0.3	0.1	—
Total expenses	\$301.4	\$253.5	\$48.1

The Company believes the amounts earned by the Company or charged to it under each of the foregoing arrangements are fair and reasonable. The Company believes the title commissions paid are consistent with the average rate that would be available to a third party title agent given the amount and the geographic distribution of the business produced and the low risk of loss profile of the business placed. The information technology infrastructure support and data center management services provided to the Company are priced within the range of prices that FIS and LPS offer to their unaffiliated third party customers for the same types of services. However, the amounts FNF earned or was charged under these arrangements were not negotiated at arm's-length, and may not represent the terms that the Company might have obtained from an unrelated third party.

Amounts due to FIS and LPS were as follows:

	<u>December 31, 2008</u>	<u>December 31, 2007</u>
	(In millions)	
Note payable to FIS	\$6.2	\$ 7.1
Due to FIS	6.9	\$13.9
Due to LPS	3.0	\$ —

Prior to September 30, 2007, FNF had a note receivable balance of \$12.5 million due from a subsidiary of FIS. The Company earned interest revenue of \$0.5 million on this note for the year ended December 31, 2007. On September 30, 2007, the Company acquired certain leasing assets from FIS for \$15 million. As part of this acquisition, the Company assumed \$134.9 million in non-recourse notes payable (see note I), the \$12.5 million note due to a subsidiary of FIS was forgiven, and the Company entered into an unsecured note payable to FIS in the amount of \$7.3 million. The balance on this note at December 31, 2008 and 2007 was \$6.2 million and \$7.1 million, respectively, and the Company's related interest expense was \$0.3 million and \$0.1 million for the years ended December 31, 2008 and 2007, respectively. Also, as a result of related party transactions, as of December 31, 2008

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

and 2007, the Company owed \$6.9 million and \$13.9 million, respectively, to FIS, and, as of December 31, 2008, the Company owed \$3.0 million to LPS.

In August 2007, FNF's Chairman of the Board, William P. Foley, II, planned to sell 1,000,000 shares of FNF stock on the open market. Because the Company was actively purchasing shares of treasury stock on the open market at the same time, the Company agreed to purchase 1,000,000 shares from Mr. Foley on August 8, 2007, for \$22.1 million, or \$22.09 per share, the market price at the time of the purchase.

On December 6, 2007, the Company sold 1,000 shares of Series B Preferred Stock of Remy to its Chairman of the Board, William P. Foley, II, for a total of \$1.0 million, or \$1,000 per share. This per share price was equal to the per share price that the Company paid to acquire the shares.

In February 2009, the Company transferred our ownership interest in Fidelity National Real Estate Solutions, Inc. ("FNRES") to LPS in exchange for all of the outstanding shares of Investment Property Exchange Services, Inc. ("IPEX"), a company that facilitates real estate exchanges under Section 1031 of the Internal Revenue Code.

Stock-Based Compensation Plans

The Company accounts for stock-based compensation plans using the fair value method. Using the fair value method of accounting, compensation cost is measured based on the fair value of the award at the grant date and recognized over the service period.

Foreign Currency Translation

The functional currency for the foreign operations of the Company is either the U.S. Dollar or the local currency. For foreign operations where the local currency is the functional currency, the translation of foreign currencies into U.S. Dollars is performed for balance sheet accounts using exchange rates in effect at the balance sheet date and for revenue and expense accounts using a weighted average exchange rate during the period. The unrealized gains and losses resulting from the translation are included in accumulated other comprehensive earnings in the Consolidated Statements of Stockholders' Equity and are excluded from net earnings. Gains or losses resulting from foreign currency transactions are included in realized gains and losses and are insignificant in 2008, 2007, and 2006.

Management Estimates

The preparation of these Consolidated Financial Statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Consolidated Financial Statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Certain Reclassifications

Certain reclassifications have been made in the 2007 and 2006 Consolidated Financial Statements to conform to the classifications used in 2008.

B. Acquisitions

The results of operations and financial position of the entities acquired during any year are included in the Consolidated Financial Statements from and after the date of acquisition. Based on the Company's valuation, any differences between the fair value of the identifiable assets and liabilities and the purchase price paid are recorded as goodwill. The only significant acquisitions in the three years ended December 31, 2008, were the acquisitions of certain underwriters from LandAmerica Financial Group, Inc. ("LFG") in 2008 and the acquisition of an equity interest in Ceridian in 2007.

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Significant Acquisition

Acquisition of Commonwealth Land Title Insurance Company, Lawyers Title Insurance Corporation, and United Capital Title Insurance Company

On December 22, 2008, FNF completed the acquisition of LFG’s two principal title insurance underwriters, Commonwealth Land Title Insurance Company (“Commonwealth”) and Lawyers Title Insurance Corporation (“Lawyers”), as well as United Capital Title Insurance Company (“United”) (collectively, the “LFG Underwriters”). The total purchase price for Commonwealth and Lawyers was \$238.0 million, net of cash acquired of \$8.8 million, and was comprised of \$134.8 million paid in cash by two of FNF’s title insurance underwriters, Fidelity National Title Insurance Company and Chicago Title Insurance Company, a \$50 million subordinated note due in 2013 (see note I), and \$50 million in FNF common stock (3,176,620 shares valued at \$15.74 per share at the time of closing). In addition, Fidelity National Title Insurance Company purchased United from an indirect subsidiary of LFG for a purchase price of approximately \$12 million, equal to an estimate (subject to post-closing adjustment) of the statutory net worth of United at the time of closing.

The total purchase price was as follows (in millions):

Cash paid by FNF’s title insurance underwriters, net of cash acquired	\$138.0
Subordinated note payable to LFG (see note I)	50.0
FNF common stock (3,176,620 shares valued at \$15.74 per share).	50.0
Transaction costs	<u>3.8</u>
	<u>\$241.8</u>

The purchase price has been initially allocated to the LFG Underwriters’ assets acquired and liabilities assumed based on our best estimates of their fair values as of December 22, 2008. Goodwill has been recorded based on the amount that the purchase price exceeds the fair value of the net assets acquired. This estimate is preliminary and subject to adjustments as the Company completes its valuation process, which it expects to have substantially complete by the end of the first quarter of 2009. The initial purchase price allocation is as follows (in millions):

Cash and Investments	929.3
Trade and notes receivable	81.7
Title plants	95.1
Property and equipment	41.5
Deferred tax assets	151.1
Other assets	99.7
Goodwill	226.4
Reserve for claim losses	(1,115.8)
Other liabilities assumed	<u>(267.2)</u>
Total purchase price	<u>\$ 241.8</u>

The following table summarizes the other liabilities assumed in the acquisition of the LFG Underwriters (in millions):

Estimated facility closure costs	\$ 46.7
Estimated employee termination costs	14.0
Other merger related costs	3.8
Other operating liabilities	<u>202.7</u>
	<u>\$267.2</u>

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

The Company is currently evaluating various agreements, including leases, vendor and agency agreements, title plants, and customer contracts of the LFG Underwriters. This evaluation has resulted in the recognition of certain liabilities associated with exiting activities of the acquired companies. The Company expects to substantially complete this evaluation during the first half of 2009 and will adjust the amounts recorded as of December 31, 2008, to reflect the Company's revised evaluations.

Unaudited Pro Forma Results

Selected unaudited pro forma results of operations for years ended December 31, 2008 and 2007, assuming the acquisition of the LFG Underwriters had occurred as of January 1, 2007, and using actual general and administrative expenses prior to the acquisition are presented for comparative purposes below (in millions):

	2008	2007
Total revenues	\$6,413.6	\$8,614.4
Net earnings(A)	(413.0)	82.8
Pro forma earnings per share — basic	(1.94)	0.38
Pro forma earnings per share — diluted	(1.94)	0.37

(A) The pro forma net earnings for FNF and the LFG Underwriters for 2008 include charges recorded by the LFG Underwriters of \$135.1 million for impairments of other intangible assets and goodwill and charges recorded by FNF of \$261.6 million for adverse development of loss reserves. The pro forma net earnings for 2007 include charges recorded by FNF of \$217.2 million for adverse development of loss reserves.

Other Acquisitions

Acquisition of Equity Interest in Ceridian

On November 9, 2007, FNF and Thomas H. Lee Partners, LP (“THL”), along with certain co-investors, completed the acquisition of Ceridian for \$36 in cash per share of common stock, or approximately \$5.3 billion. The Company contributed approximately \$527 million of the total \$1.6 billion equity funding for the acquisition of Ceridian, resulting in a 33% ownership percentage by the Company, which the Company accounts for using the equity method of accounting for financial statement purposes. On the closing date, the Company recorded income of \$12.3 million in fees associated with the syndication of investors in the acquisition of Ceridian. Ceridian is an information services company servicing the human resources, transportation, and retail industries. Specifically, Ceridian offers a range of human resources outsourcing solutions and is a payment processor and issuer of credit, debit, and stored-value cards.

Property Insight, LLC

On August 31, 2007, the Company completed the acquisition of Property Insight, a former FIS subsidiary, from FIS for \$95 million in cash. Property Insight is a leading provider of title plant services for the Company, as well as various national and regional underwriters. Property Insight primarily manages, maintains, and updates the title plants that are owned by the Company. Additionally, Property Insight manages potential title plant construction activities for the Company.

ATM Holdings, Inc.

On August 13, 2007, the Company completed the acquisition of ATM Holdings, Inc. (“ATM”), a provider of nationwide mortgage vendor management services to the loan origination industry, for \$100 million in cash. ATM's primary subsidiary is a licensed title insurance agency which provides centralized valuation and appraisal services, as well as title and closing services, to residential mortgage originators, banks and institutional mortgage lenders throughout the United States.

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Equity Interest in Remy

The Company held an investment in Remy's Senior Subordinated Notes (the "Notes") with a total fair value of \$139.9 million until December 6, 2007, at which time Remy implemented a pre-packaged plan of bankruptcy under Chapter 11 of the Bankruptcy Code. Pursuant to the plan of bankruptcy, the Notes were converted into 4,935,065 shares of Remy common stock and rights to buy 19,909 shares of Remy Series B preferred stock. Upon execution of the plan of bankruptcy, the Company purchased all 19,909 shares of the preferred stock for \$1,000 per share, or a total of \$19.9 million, and then sold 1,000 of those shares to William P. Foley, II, the Company's chairman of the board, for \$1,000 per share, or a total of \$1.0 million. The Company now holds a 47% ownership interest in Remy, made up of 4,935,065 shares of Remy common stock with a cost basis of \$64.3 million and 18,909 shares of purchased Remy Series B preferred stock with a cost basis of \$19.5 million, and will account for this investment using the equity method. As a result of the exchange of the Notes for the shares of common and preferred stock, the Company reversed the unrealized gain of \$75.0 million that had previously been recorded in accumulated other comprehensive earnings in relation to the Notes.

Cascade Timberlands LLC

During 2006, the Company purchased equity interests in Cascade Timberlands LLC ("Cascade Timberlands") totaling 71% of Cascade Timberlands. As of December 31, 2008, the Company owned approximately 70% of the outstanding interests of Cascade Timberlands which was purchased for \$88.5 million. The primary assets of Cascade Timberlands are approximately 266,909 acres of productive timberlands located on the eastern side of the Cascade mountain range extending from Bend, Oregon south on State Highway 20 toward the California border. Cascade Timberlands was created by the secured creditors of Crown Pacific LP upon the conclusion of the bankruptcy case of Crown Pacific LP in December 2004.

Acquisition of Equity Interest in Sedgwick

On January 31, 2006, the Company, along with its equity partners, THL and Evercore Capital Partners, completed an acquisition of Sedgwick which resulted in the Company obtaining a 40% interest in Sedgwick for approximately \$126 million. In September 2006, the Company invested an additional \$6.8 million in Sedgwick, maintaining its 40% ownership interest. During 2008, the Company sold 20% of its interest in Sedgwick (reducing its interest in Sedgwick from 40% to 32%) for proceeds of \$53.9 million, resulting in a gain of \$24.8 million. Sedgwick, headquartered in Memphis, Tennessee, is a leading provider of outsourced insurance claims management services to large corporate and public sector entities.

C. Fair Value Measurements

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements" ("SFAS 157"). SFAS 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements by establishing a fair value hierarchy based on the quality of inputs used to measure fair value.

SFAS 157 does not require any new fair value measurements, but applies under other accounting pronouncements that require or permit fair value measurements. SFAS 157 is effective for financial statements for fiscal years beginning after November 15, 2007. The Company adopted SFAS 157 as of January 1, 2008. FASB Staff Position SFAS No. 157-2, "Effective Date of FASB Statement No. 157," delays the effective date of SFAS 157 with respect to nonfinancial assets and nonfinancial liabilities that are not remeasured at fair value on a recurring basis until fiscal years beginning after November 15, 2008. Accordingly, the Company has not yet applied the disclosure requirements of SFAS 157 to certain such nonfinancial assets for which fair value measurements are determined on a non-recurring basis only when there is an indication of potential impairment.

The fair value hierarchy established by SFAS 157 includes three levels which are based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

based on the lowest level input that is significant to the fair value measurement of the instrument. In accordance with SFAS No. 157, our financial assets and liabilities that are recorded on the Consolidated Balance Sheets are categorized based on the inputs to the valuation techniques as follows:

Level 1. Financial assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market that the Company has the ability to access.

Level 2. Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable either directly or indirectly for substantially the full term of the asset or liability.

Level 3. Financial assets and liabilities whose values are based on model inputs that are unobservable.

The following table presents our fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2008 (in thousands):

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Fixed maturities available for sale	\$ —	\$2,821,774	\$32,055	\$2,853,829
Equity securities available for sale	<u>71,516</u>	—	—	<u>71,516</u>
Total	<u>\$71,516</u>	<u>\$2,821,774</u>	<u>\$32,055</u>	<u>\$2,925,345</u>

The Company's level 2 fair value measures for fixed-maturities available for sale are provided by third-party pricing services. The Company utilizes one firm for its taxable bond portfolio and another for its municipal bond portfolio. These pricing services are leading global providers of financial market data, analytics and related services to financial institutions. The Company only relies on one price for each instrument to determine the carrying amount of the assets on our balance sheet. The inputs utilized in these pricing methodologies include observable measures such as benchmark yields, reported trades, broker dealer quotes, issuer spreads, two sided markets, benchmark securities, bids, offers and reference data including market research publications. The Company's fixed maturities classified as level 3 consist of auction rate securities with a par value of \$88.8 million and fair value at December 31, 2008, of \$32.1 million, which were included in the assets of the LFG Underwriters that the Company acquired on December 22, 2008. There is no active market for these auction rate securities and they are valued using models with some non-observable inputs. Fair values for these securities are provided by a third-party pricing service and represent one percent of our total portfolio.

D. Investments

The carrying amounts and fair values of the Company's fixed maturity securities at December 31, 2008 and 2007 are as follows:

At December 31, 2008, the majority of the Company's mortgage-backed and asset-backed securities were acquired as a result of the acquisition of the LFG Underwriters. They are made up of \$150.5 million of agency mortgage-backed securities, \$38.8 million of agency collateralized mortgage obligations, \$75.2 million of commercial mortgage-backed securities, and \$28.7 million of other asset-backed securities. 97% of the Company's mortgage-backed securities are rated AAA.

The change in unrealized gains (losses) on fixed maturities for the years ended December 31, 2008, 2007, and 2006 was \$(1.3) million, \$46.1 million, and \$16.5 million, respectively.

The following table presents certain information regarding contractual maturities of the Company's fixed maturity securities at December 31, 2008:

<u>Maturity</u>	December 31, 2008			
	Amortized Cost	% of Total	Fair Value	% of Total
	(Dollars in thousands)			
One year or less	\$ 313,583	11.1%	\$ 315,826	11.1%

	<u>\$2,834,209</u>	<u>100.0%</u>	<u>\$2,853,829</u>	<u>100.0%</u>
Subject to call	<u>\$ 440,073</u>	<u>13.1%</u>	<u>\$ 448,612</u>	<u>13.0%</u>

Fixed maturity securities valued at approximately \$194.3 million and \$132.6 million were on deposit with various governmental authorities at December 31, 2008 and 2007, respectively, as required by law.

Expected maturities may differ from contractual maturities because certain borrowers have the right to call or prepay obligations with or without call or prepayment penalties.

Equity securities at December 31, 2008 and 2007 consisted of investments in various industry groups at a cost basis of \$79.8 million and \$96.1 million, respectively, and fair value of \$71.5 million and \$93.3 million, respectively. There were no significant investments in banks, trust and insurance companies at December 31, 2008 or 2007.

The carrying value of the Company's investment in equity securities is fair value. As of December 31, 2008, gross unrealized gains and gross unrealized losses on equity securities were \$2.2 million and \$10.5 million, respectively. As of December 31, 2007, gross unrealized gains and gross unrealized losses on equity securities were \$6.0 million and \$8.8 million, respectively.

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

The change in unrealized gains (losses) on equity securities for the years ended December 31, 2008, 2007 and 2006 was \$(5.5) million, \$6.5 million, and \$3.0 million, respectively.

Interest and investment income consists of the following:

	Year Ended December 31,		
	2008	2007	2006
	(Dollars in thousands)		
Cash and cash equivalents	\$ 11,414	\$ 36,223	\$ 36,371
Fixed maturity securities	102,331	119,879	112,523
Equity securities	2,614	4,231	8,725
Short-term investments	11,485	18,200	29,141
Other	6,526	6,884	19,847
Total	\$134,370	\$185,417	\$206,607

The Company lends fixed maturity and equity securities to financial institutions in short-term security lending transactions. The Company's security lending policy requires that the cash received as collateral be 102% or more of the fair value of the loaned securities. At December 31, 2008 and 2007, the Company had security loans outstanding with fair values of \$103.6 million and \$264.2 million, respectively. Securities loaned under such transactions may be sold or replugged by the transferee. The Company was liable for cash collateral under its control of \$107.6 million and \$271.8 million at December 31, 2008 and 2007, respectively, which has been included in cash and cash equivalents and in accounts payable and accrued liabilities.

Net realized (losses) gains related to investments were \$(49.4) million, \$18.5 million, and \$18.6 million for the years ended December 31, 2008, 2007 and 2006, respectively.

During the years ended December 31, 2008, 2007 and 2006, gross realized gains on sales of fixed maturity securities considered available for sale were \$13.1 million, \$11.0 million, and \$1.2 million, respectively; gross realized losses were \$9.8 million, \$2.0 million, and \$1.2 million, respectively. Gross proceeds from the sale and maturity of fixed maturity securities considered available for sale amounted to \$1,231.9 million, \$4,480.1 million, and \$2,476.9 million during the years ended December 31, 2008, 2007 and 2006, respectively.

During the years ended December 31, 2008, 2007 and 2006, gross realized gains on sales of equity securities considered available for sale were \$5.9 million, \$34.2 million, and \$49.3 million, respectively; gross realized losses were \$4.9 million, \$28.8 million, and \$29.4 million, respectively. Gross proceeds from the sale of equity securities amounted to \$79.4 million, \$807.3 million, and \$648.5 million during the years ended December 31, 2008, 2007 and 2006, respectively.

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Net unrealized losses on investment securities and the fair value of the related securities, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position at December 31, 2008 and 2007 were as follows (dollars in thousands):

2008

	Less than 12 Months		12 Months or Longer		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
U.S. government and agencies	\$ 37,920	\$ (243)	\$ —	\$ —	\$ 37,920	\$ (243)
States and political subdivisions . . .	116,364	(3,740)	10,762	(1,190)	127,126	(4,930)
Corporate debt securities	451,615	(26,006)	90,043	(17,935)	541,658	(43,941)

Equity securities	22,346	(10,483)	—	—	22,346	(10,483)
Other	2,137	(39)	—	—	2,137	(39)
Total temporarily impaired securities	<u>\$674,982</u>	<u>\$(41,017)</u>	<u>\$100,805</u>	<u>\$(19,125)</u>	<u>\$775,787</u>	<u>\$(60,142)</u>

2007

	Less than 12 Months		12 Months or Longer		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
U.S. Government and Agencies . . .	\$ 3,117	\$ (3)	\$103,433	\$ (289)	106,550	(292)
States and Political Subdivisions . .	\$ 16,860	\$ (153)	\$180,137	\$ (732)	196,997	(885)
Corporate Securities	97,068	(4,671)	249,452	(9,830)	346,520	(14,501)
Foreign Securities			9,305	(35)	9,305	(35)
Equity Securities	42,259	(8,596)	454	(182)	42,713	(8,778)
Total Temporarily Impaired Securities	<u>\$159,304</u>	<u>\$(13,423)</u>	<u>\$542,781</u>	<u>\$(11,068)</u>	<u>\$702,085</u>	<u>\$(24,491)</u>

A substantial portion of the Company's unrealized losses relate to debt securities. These unrealized losses were primarily caused by widening credit spreads that the Company considers to be temporary. Because the Company has the intent and ability to hold these securities and the Company believes in the quality of the holdings and their ratings, the Company does not consider these investments to be other-than-temporarily impaired. The unrealized losses relating to equity securities were caused by market changes that the Company considers to be temporary; the Company expects recovery, and thus does not consider these investments other-than-temporarily impaired.

During 2008, 2007 and 2006, the Company incurred impairment charges relating to investments that it determined to be other than temporarily impaired, which resulted in charges of \$59.0 million, \$3.1 million, and \$9.1 million. The impairment charges in 2008 included \$25.4 million related to fixed maturity securities, \$30.1 million related to equity securities, and \$3.4 million related to other investments that were deemed other-than-temporarily impaired. The impairment charges relating to the fixed maturity securities primarily related to the Company's conclusion that the credit risk relating to the holdings was high and thus the assets are likely other-than-temporarily impaired. The impairment charges relating to the equity securities were based on the duration of the unrealized loss and inability to predict the time to recover if the investment continued to be held.

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Investments in unconsolidated affiliates are recorded using the equity method of accounting and, as of December 31, 2008 and 2007, consisted of (in thousands):

	<u>Ownership</u>	<u>2008</u>	<u>2007</u>
Ceridian	33%	\$453,129	\$503,118
Sedgwick	(a)	115,646	131,160

Other accrued liabilities	<u>214,001</u>	<u>104,957</u>
	<u>\$828,945</u>	<u>\$823,109</u>

I. Notes Payable

Notes payable consist of the following:

	<u>December 31,</u>	
	<u>2008</u>	<u>2007</u>
	(Dollars in thousands)	
Unsecured notes net of discount, interest payable semi-annually at 5.25%, due March 2013	\$ 249,217	\$ 249,033
Unsecured notes, net of discount, interest payable semi-annually at 7.30%, due August 2011	241,081	240,981
Syndicated credit agreement, unsecured, interest payable monthly at LIBOR plus 0.36% (3.53% at December 31, 2008), unused portion of \$515 million at December 31, 2008, due October 2011	585,000	535,000
Bank promissory notes, nonrecourse, secured, interest payable monthly at various fixed rates (3.7%-10.67%), various maturities	197,536	133,148
Subordinated note payable to LandAmerica Financial Group, Inc., interest payable annually at 2.36%, due December 2013	50,000	—
Other	<u>28,015</u>	<u>9,577</u>
	<u>\$1,350,849</u>	<u>\$1,167,739</u>

On December 22, 2008, in connection with the acquisition of the LFG Underwriters, the Company entered into a \$50 million subordinated note payable to LFG, due December 2013. This note bears interest at 2.36%, payable annually. In addition, the combined net assets of the LFG Underwriters included \$15.7 million of notes payable which are included on FNF's consolidated balance sheet at December 31, 2008.

At December 31, 2008, the carrying value of the Company's outstanding notes payable was approximately \$71.8 million lower than its estimated fair value. The carrying value of the Company's notes payable was approximately \$6.3 million lower than its estimated fair value at December 31, 2007. The fair value of the Company's unsecured notes payable is based on established market prices for the securities on December 31, 2008 and 2007. The fair value of the Company's remaining fixed rate and variable rate notes payable is estimated using discounted cash flow analyses based on current market interest rates and comparison of interest rates being paid to the Company's current incremental borrowing rates for similar types of borrowing arrangements.

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Effective October 24, 2006, the Company entered into a credit agreement (the “Credit Agreement”) with Bank of America, N.A. as Administrative Agent and Swing Line Lender, and other financial institutions party thereto. Effective October 11, 2007, the Company exercised an option to increase the amount of its credit facility by an additional \$300 million. The Credit Agreement provides for a \$1.1 billion unsecured revolving credit facility, including the additional \$300 million, maturing on the fifth anniversary of the closing date. Amounts under the revolving credit facility may be borrowed, repaid and reborrowed by the borrower thereunder from time to time until the maturity of the revolving credit facility. Voluntary prepayment of the revolving credit facility under the Credit Agreement is permitted at any time without fee upon proper notice and subject to a minimum dollar requirement. Revolving loans under the credit facility bear interest at a variable rate based on either (i) the higher of (a) a rate per annum equal to one-half of one percent in excess of the Federal Reserve’s Federal Funds rate, or (b) Bank of America’s “prime rate” or (ii) a rate per annum equal to LIBOR plus a margin of between 0.23%-0.675%, depending on the Company’s then current senior unsecured long-term debt rating from the rating agencies. In addition, the Company pays a commitment fee between 0.07%-0.175% on the entire facility, also depending on the Company’s senior unsecured long-term debt rating.

The Credit Agreement contains affirmative, negative and financial covenants customary for financings of this type, including, among other things, limits on the creation of liens, sales of assets, the incurrence of indebtedness, restricted payments, transactions with affiliates, and certain amendments. The Credit Agreement requires the Company to maintain certain financial ratios and levels of capitalization. The Credit Agreement prohibits us from paying dividends to our stockholders if an event of default has occurred and is continuing or would result therefrom. The Credit Agreement includes customary events of default for facilities of this type (with customary grace periods, as applicable). These events of default include a cross-default provision that, subject to limited exceptions, permits the lenders to declare the Credit Agreement in default if: (i) (A) the Company fails to make any payment after the applicable grace period under any indebtedness with a principal amount (including undrawn committed amounts) in excess of 3% of our net worth, as defined in the Credit Agreement, or (B) the Company fails to perform any other term under any such indebtedness, or any other event occurs, as a result of which the holders thereof may cause it to become due and payable prior to its maturity; or (ii) certain termination events occur under significant interest rate, equity or other swap contracts. The Credit Agreement provides that, upon the occurrence of an event of default, the interest rate on all outstanding obligations will be increased and payments of all outstanding loans may be accelerated and/or the lenders’ commitments may be terminated. In addition, upon the occurrence of certain insolvency or bankruptcy related events of default, all amounts payable under the Credit Agreement shall automatically become immediately due and payable, and the lenders’ commitments will automatically terminate. At December 31, 2008, the Company was in compliance with all of the covenants under the Credit Agreement.

In connection with the purchase of certain leasing assets from FIS (see “Transactions with Related Parties” in note A), the Company assumed certain liabilities associated with those assets, including various bank promissory notes, totaling \$134.9 million at the date of purchase. The Company has continued to use bank promissory notes with similar terms to finance purchases of assets within our leasing operations. As of December 31, 2008 and 2007, these promissory notes totaled \$197.5 million and \$133.1 million, respectively, bore interest at various fixed rates and matured at various dates. These promissory notes are non-recourse obligations and are secured by interests in certain leases and underlying equipment. In addition, the Company also assumed a \$20 million revolving credit facility. This facility is also secured by interests in certain leases and underlying equipment and bears interest at Prime-0.5%. As of December 31, 2008, \$13.9 million was unused. On September 30, 2007, in connection with the acquisition of certain leasing assets from FIS, the Company also entered into an unsecured note with FIS in the amount of \$7.3 million. The note, with a balance of \$6.2 million and \$7.1 million at December 31, 2008 and 2007, respectively, bears interest at LIBOR+0.45%, includes principal amortization of \$0.2 million per quarter and is due October, 2012.

On August 20, 2001, Old FNF completed a public offering of \$250.0 million aggregate principal amount of 7.3% notes due August 15, 2011. The notes were priced at 99.597% of par to yield 7.358% annual interest. As such, the Company recorded a discount of \$1.0 million, which is netted against the \$250.0 million aggregate principal

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

amount of notes. The discount is amortized to interest expense over 10 years, the term of the notes. The Company received net proceeds of \$247.0 million, after expenses, which were used to pay down a portion of the amount outstanding under a prior credit agreement. Interest is payable semiannually.

On March 11, 2003, Old FNF issued \$250.0 million aggregate principal amount of 5.25% notes, which are unsecured. The notes were priced at 99.247% of par to yield 5.433% annual interest. As such, the Company recorded a discount of \$1.9 million, which was netted against the \$250.0 million aggregate principal amount of notes. The discount was amortized to interest expense based on the 10-year term of the notes. The Company received net proceeds of approximately \$246.2 million, after expenses, which was used to pay a portion of the \$1,069.6 million purchase price for FIS. Interest was payable semiannually.

On January 17, 2006, \$241.3 million aggregate principal amount of the Old FNF 7.30% notes due 2011 and the entire \$250.0 million aggregate principal amount of the Old FNF 5.25% notes due 2013 were exchanged for FNF notes having identical terms. The remaining principal amount of \$8.7 million of the Old FNF 7.30% notes has been redeemed and cancelled.

Principal maturities of notes payable at December 31, 2008, are as follows (dollars in thousands):

2009	\$ 87,639
2010	58,835
2011	870,671
2012	20,956
2013	309,344
Thereafter	<u>3,404</u>
	<u>\$1,350,849</u>

J. Income Taxes

Income tax (benefit) expense consists of the following:

	<u>Year Ended December 31,</u>		
	<u>2008</u>	<u>2007</u>	<u>2006</u>
	(Dollars in thousands)		
Current	\$ (91,847)	\$55,212	\$331,327
Deferred	<u>(33,695)</u>	<u>(8,436)</u>	<u>19,544</u>
	<u>\$(125,542)</u>	<u>\$46,776</u>	<u>\$350,871</u>

For the year ended December 31, 2006, the aggregate amount above includes income tax expense attributable to FIS operations of \$118.4 million.

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Total income tax (benefit) expense for the years ended December 31 was allocated as follows (in thousands):

	<u>2008</u>	<u>2007</u>	<u>2006</u>
Statement of earnings	\$(125,542)	\$46,776	\$350,871
Other comprehensive income:			
Changes in unrealized foreign currency translation gains	276	1,400	(62)
Minimum pension liability adjustment	(10,437)	6,165	3,956
Unrealized (losses) gains on investment securities:			
Unrealized holding (losses) gains arising during the year	(20,683)	25,699	15,190
Reclassification adjustment for realized losses (gains) included in net earnings	<u>18,215</u>	<u>(6,395)</u>	<u>(7,940)</u>
Total income tax (benefit) expense allocated to other comprehensive income	(12,629)	26,869	11,144
Additional paid-in capital (exercise of stock options)	<u>(297)</u>	<u>(4,687)</u>	<u>(81,776)</u>
Total income taxes	<u>\$(138,468)</u>	<u>\$68,958</u>	<u>\$280,239</u>

A reconciliation of the federal statutory rate to the Company's effective tax rate is as follows:

	<u>Year Ended December 31,</u>		
	<u>2008</u>	<u>2007</u>	<u>2006</u>
Federal statutory rate	35.0%	35.0%	35.0%
Federal benefit of state taxes	(0.9)	(0.9)	(1.4)
Deductible dividends paid to FNF 401(k) plan	0.7	(1.8)	(0.4)
Tax exempt interest income	4.0	(12.2)	(2.4)
State income taxes	2.5	2.6	4.1
Non-deductible expenses	<u>1.2</u>	<u>3.8</u>	<u>2.3</u>
	<u>42.5%</u>	<u>26.5%</u>	<u>37.2%</u>

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

The significant components of deferred tax assets and liabilities at December 31, 2008 and 2007 consist of the following:

	December 31,	
	2008	2007
	(Dollars in thousands)	
Deferred Tax Assets:		
Net operating loss carryovers	\$ 142,778	\$ —
Insurance reserve discounting	131,939	—
Employee benefit accruals	54,770	52,135
Investment securities	39,080	—
Pension	14,730	3,844
Accrued liabilities	14,625	10,117
Amortization of goodwill and intangible assets	8,789	—
Deferred revenue	333	730
State income taxes	291	3,869
Other	17,717	12,766
Total	425,052	83,461
Less: valuation allowance	(132,550)	—
Deferred tax assets	292,502	83,461
Deferred Tax Liabilities:		
Title plant	(70,925)	(58,656)
Lease accounting	(32,372)	(1,434)
Depreciation	(28,042)	(7,241)
Bad debts	(7,432)	(11,799)
Amortization of goodwill and intangible assets	—	(28,821)
Insurance reserve discounting	—	(18,171)
Investment securities	—	(11,190)
Other	(14,513)	(6,758)
Total deferred tax liabilities	(153,284)	(144,070)
Net deferred tax asset (liability)	\$ 139,218	\$ (60,609)

Management believes that, based on its historical pattern of taxable income, the Company will produce sufficient income in the future to realize its deferred tax assets. The Company changed from a net deferred tax liability position of \$60,609 in 2007 to a net deferred tax asset position of \$139,218 in 2008. The significant components that make up this change relate to the following items. The Insurance Reserve Discounting changed by \$150 million due to the inclusion of the LFG Underwriters' insurance reserves and the change in the statutory premium reserve amortization related to the 2007 redomestication of two of the FNF underwriters. Investment securities changed by \$50.3 million, consisting primarily of the inclusion of the LFG Underwriters' investment securities and the change in the FAS 115 adjustment for unrealized losses. Amortization of Goodwill and Intangible Assets changed by approximately \$38 million consisting primarily of the addition of the LFG Underwriters' Goodwill and Intangible Assets. The Company has also added a deferred tax asset for the net operating loss attributable to the LFG Underwriters in the amount of \$132,550, for which a full valuation allowance has been applied. The deferred tax asset for the net operating loss has been fully valued at this time, as the Company is in the process of determining the probability of its utilization.

Tax benefits of \$0.3 million, \$4.7 million, and \$81.8 million associated with the exercise of employee stock options and the vesting of restricted stock grants were allocated to stockholders' equity for the years ended December 31, 2008, 2007, and 2006, respectively.

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

In June 2006, the FASB issued Interpretation No. 48, “Accounting for Uncertainty in Income Taxes — an interpretation of FASB Statement No. 109” (“FIN 48”). FIN 48 requires an evaluation to determine the likelihood that an uncertain tax position will be sustained upon examination, including resolution of any related appeals or litigation processes. If it is determined that it is more likely than not that an uncertain tax position will be sustained upon examination, the next step is to determine the amount to be recognized. FIN 48 prescribes recognition of the largest amount of tax benefit that is greater than 50 percent likely of being recognized upon ultimate settlement of an uncertain tax position. Such amounts are to be recognized as of the first financial reporting period during which the more-likely-than-not recognition threshold is met. Similarly, an amount that has previously been recognized will be reversed as of the first financial reporting period during which the more-likely-than-not recognition threshold is not met. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company adopted FIN 48 effective January 1, 2007. As a result of the adoption, the Company had no change to reserves for uncertain tax positions.

As of December 31, 2008 and 2007, FNF had approximately \$5.8 million and \$5.5 million (including interest of \$0.6 million and \$0.3 million), respectively, of total gross unrecognized tax benefits that, if recognized, would favorably affect the Company’s income tax rate. These amounts are reported on a gross basis and do not reflect a federal tax benefit on state income taxes. The Company records interest and penalties related to income taxes as a component of income tax expense.

The Internal Revenue Service (“IRS”) has selected the Company to participate in a pilot program (Compliance Assurance Program or CAP) that is a real-time audit. In 2008, the IRS completed its examination of the Company’s tax returns for the tax year ended December 31, 2007. The Company is currently under audit by the Internal Revenue Service for the 2008 tax year.

K. Summary of Reserve for Claim Losses

A summary of the reserve for claim losses for title and specialty insurance follows:

	<u>Year Ended December 31,</u>		
	<u>2008</u>	<u>2007</u>	<u>2006</u>
	(Dollars in thousands)		
Beginning balance	\$1,419,910	\$1,220,636	\$1,113,506
Reserves assumed/transferred(1)	1,115,803	—	(8,515)
Claim loss provision related to:			
Current year	377,900	450,693	454,507
Prior years	<u>252,504</u>	<u>203,183</u>	<u>31,827</u>
Total claim loss provision	630,404	653,876	486,334
Claims paid, net of recoupments related to:			
Current year	(119,399)	(101,246)	(111,708)
Prior years	<u>(308,093)</u>	<u>(353,356)</u>	<u>(258,981)</u>
Total claims paid, net of recoupments	<u>(427,492)</u>	<u>(454,602)</u>	<u>(370,689)</u>
Ending balance	<u>\$2,738,625</u>	<u>\$1,419,910</u>	<u>\$1,220,636</u>
Ending balance of claim loss reserves for title insurance only	<u>\$2,678,987</u>	<u>\$1,322,622</u>	<u>\$1,154,872</u>
Provision for title insurance claim losses as a percentage of title insurance premiums only	<u>18.2%</u>	<u>13.2%</u>	<u>7.5%</u>

(1) In 2008, the Company assumed \$1,115.8 million in additional reserves for claim losses with the acquisition of the LFG Underwriters. In 2006, the Company transferred \$8.5 million in reserves to FIS in connection with the distribution of FIS.

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Management continually updates loss reserve estimates as new information becomes known, new loss patterns emerge, or as other contributing factors are considered and incorporated into the analysis of reserve for claim losses. A substantial portion of the Company's reserve for claim losses is attributable to title insurance operations. The prior year title loss provision amount was unfavorable for each of the years presented. Because reported and paid claims continue to exceed expected claims, management modified the Company's actuarial model in 2008 to more heavily weight the three most recent full years' data on loss experience and to incorporate that data into the assumptions and factors that determine ultimate expected loss experience for all prior calendar years. In response to the unfavorable prior year development, as well as to address higher expected costs for policies issued in 2005, 2006 and 2007, the title loss provision amounts as a percentage of title premiums increased in 2008 and 2007.

As a result of the factors described above, during the year ended December 31, 2008, the Company recorded a charge to the provision for claim losses of \$261.6 million for development on prior policy years. During the year ended December 31, 2007, the Company recorded charges totaling \$217.2 million, resulting from adverse claim loss development on prior policy years. These charges were in addition to the provision for title insurance claim losses of 8.5% and 7.5%, respectively.

Estimating future title loss payments is difficult because of the complex nature of title claims, the long periods of time over which claims are paid, significantly varying dollar amounts of individual claims and other factors. Due to the uncertainty inherent in the process and to the judgment used by management the ultimate liability may be greater or less than our current reserves.

L. Commitments and Contingencies

In the ordinary course of business, the Company is involved in various pending and threatened litigation matters related to its operations, some of which include claims for punitive or exemplary damages. Management believes that no actions, other than those listed below, depart from customary litigation incidental to the Company's business. As background to the disclosure below, please note the following:

- These matters raise difficult and complicated factual and legal issues and are subject to many uncertainties and complexities, including but not limited to the underlying facts of each matter, novel legal issues, variations between jurisdictions in which matters are being litigated, differences in applicable laws and judicial interpretations, the length of time before many of these matters might be resolved by settlement or through litigation and, in some cases, the timing of their resolutions relative to other similar cases brought against other companies, the fact that many of these matters are putative class actions in which a class has not been certified and in which the purported class may not be clearly defined, the fact that many of these matters involve multi-state class actions in which the applicable law for the claims at issue is in dispute and therefore unclear, and the current challenging legal environment faced by large corporations and insurance companies.
- In these matters, plaintiffs seek a variety of remedies including equitable relief in the form of injunctive and other remedies and monetary relief in the form of compensatory damages. In most cases, the monetary damages sought include punitive or treble damages. Often more specific information beyond the type of relief sought is not available because plaintiffs have not requested more specific relief in their court pleadings. In addition, the dollar amount of damages sought is frequently not stated with specificity. In those cases where plaintiffs have made a statement with regard to monetary damages, they often specify damages either just above or below a jurisdictional limit regardless of the facts of the case. These limits represent either the jurisdictional threshold for bringing a case in federal court or the maximum they can seek without risking removal from state court to federal court. In the Company's experience, monetary demands in plaintiffs' court pleadings bear little relation to the ultimate loss, if any, that the Company may experience. None of the cases described below includes a statement as to the dollar amount of damages demanded. Instead, each of the cases includes a demand in an amount to be proved at trial.
- For the reasons specified above, it is not possible to make meaningful estimates of the amount or range of loss that could result from these matters at this time. The Company reviews these matters on an ongoing basis and follows the provisions of Statement of Financial Accounting Standards ("SFAS") No. 5, "Accounting for

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Contingencies” when making accrual and disclosure decisions. When assessing reasonably possible and probable outcomes, management bases its decision on its assessment of the ultimate outcome following all appeals.

- The Company intends to vigorously defend each of these matters. In the opinion of the Company’s management, while some of these matters may be material to the Company’s operating results for any particular period if an unfavorable outcome results, none will have a material adverse effect on its overall financial condition.

There are class actions pending against several title insurance companies, including Security Union Title Insurance Company, Fidelity National Title Insurance Company, Chicago Title Insurance Company, Ticor Title Insurance Company of Florida, Commonwealth Land Title Insurance Company, Lawyers Title Insurance Corporation, and Ticor Title Insurance Company, alleging improper premiums were charged for title insurance. These cases allege that the named defendant companies failed to provide notice of premium discounts to consumers refinancing their mortgages, and failed to give discounts in refinancing transactions in violation of the filed rates.

In February 2008, thirteen putative class actions were commenced against several title insurance companies, including Fidelity National Title Insurance Company, Chicago Title Insurance Company, Security Union Title Insurance Company and Ticor Title Insurance Company (collectively, the “Fidelity Affiliates”). The complaints also name FNF (together with the Fidelity Affiliates, the “Fidelity Defendants”) as a defendant based on its ownership of the Fidelity Affiliates. The complaints, which are brought on behalf of a putative class of consumers who purchased title insurance in New York, allege that the defendants conspired to inflate rates for title insurance through the Title Insurance Rate Service Association, Inc. (“TIRSA”), a New York State-approved rate service organization which is also named as a defendant. Each of the complaints asserts a cause of action under the Sherman Act and several of the complaints include claims under the Real Estate Settlement Procedures Act as well as New York State statutory and common law claims. The complaints seek monetary damages, including treble damages, as well as injunctive relief. Subsequently, similar complaints were filed in many federal courts. There are now approximately 65 complaints pending alleging that the Fidelity Defendants conspired with their competitors to unlawfully inflate rates for title insurance in every major market in the United States. A motion was filed before the Multidistrict Litigation Panel to consolidate and or coordinate these actions in the United States District Court in the Southern District of New York. However, that motion was denied. The cases are generally being consolidated before one district court judge in each state and scheduled for the filing of consolidated complaints and motion practice.

On September 24, 2007 a third party complaint was filed in the In Re Ameriquest Mortgage Lending Practices Litigation in the United States District Court for the Northern District of Illinois by Ameriquest Mortgage Company (“Ameriquest”) and Argent Mortgage Company (“Argent”) against numerous title insurers and agents including Chicago Title Company, Fidelity National Title Company, Fidelity National Title Insurance Company, American Pioneer Title Insurance Company (now known as Ticor Title Insurance Company of Florida), Chicago Title of Michigan, Fidelity National Title Insurance Company of New York, Transnation Title Insurance Company (now known as Lawyers Title Insurance Corporation), Commonwealth Land Title Company, and Ticor Title Insurance Company (collectively, the “FNF Affiliates”). The third party complaint alleges that Ameriquest and Argent have been sued by a class of borrowers alleging that they violated the Truth in Lending Act (“TILA”) by failing to comply with the notice of right to cancel provisions and making misrepresentations in lending to the borrowers, who now seek money damages. Ameriquest and Argent allege that the FNF Affiliates contracted and warranted to close these loans in conformity with the lender’s instructions which correctly followed the requirements of TILA and contained no misrepresentations; therefore, if Ameriquest and Argent are liable to the class, then the FNF Affiliates are liable to them for failing to close the lending transactions as agreed. Ameriquest and Argent seek to recover the cost of resolving the class action against them including their attorney’s fees and costs in the action. The title defendants are organizing to form a defense group and, as requested by the court, are exploring the possibility of filing a single collective response. Recently, the Seventh Circuit, in which these matters are pending, ruled that TILA violations as alleged in these complaints could not be the subject of a class action.

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

There are class actions pending against FNF, Fidelity National Title Group and several title insurance companies, including Fidelity National Title Insurance Company, Chicago Title Insurance Company, United Title, Inc. and Ticor Title Insurance Company, alleging overcharges for government recording fees. These cases allege that the named defendant companies charged fees in excess of the fees charged by government entities in closing transactions and seek various remedies including compensatory damages, prejudgment interest, punitive damages and attorney's fees. One case recently filed in Kansas seeks to certify a national class against Chicago Title Insurance Company. Although the Federal District Court in Kansas refused to certify a national class previously filed by the same plaintiff's attorneys, this suit seeks to overcome that Court's objections to certification. And, although a similar case filed in Indiana was decertified by the appellate court and the Company has moved to decertify a companion case there the Missouri courts have refused to decertify a case now pending and set for trial June 1, 2009. On January 30, 2009, the court granted the Fidelity defendants' motion for summary judgment in the recording fee class action in the Federal District Court in Texas, which alleged recording fee overcharges in five states. On January 26, 2009 a recording fee class action was filed in New Jersey.

There are class actions pending against Fidelity National Title Company, Fidelity National Title Company of Washington, Inc., and Chicago Title Insurance Company, alleging that the named defendants in each case charged unnecessary reconveyance fees and unnecessary "junk" fees (wire fees; document download fees) without performing any separate service for those fees which was not already included as a service for the "escrow fee". Additionally, two of the cases allege that the named defendants wrongfully earned interest or other benefits on escrowed funds from the time funds were deposited into escrow until any disbursement checks cleared the account. Motions for class certification have not yet been filed in any of these cases.

On December 3, 2007, a former title officer for Lawyers Title Insurance Corporation in California filed a putative class action suit against Lawyers and LandAmerica Financial Group, Inc. ("LFG") (together, the "Defendants") in the Superior Court of California for Los Angeles County. A similar putative class action was filed against the Defendants by former Lawyers escrow officers in California, in the same court on December 12, 2007. The plaintiffs' complaints in both lawsuits allege failure to pay overtime and other related violations of the California Labor Code, as well as unfair business practices under the California Business and Professions Code § 17200 on behalf of all current and former California title and escrow officers. The underlying basis for both lawsuits is an alleged misclassification of title and escrow officers as "exempt" employees for purposes of the California Labor Code, which resulted in a failure to pay overtime and provide for required meal and rest breaks. Although such employees were reclassified as "non-exempt" beginning on January 1, 2006, the complaints allege similar violations of the California Labor Code even after that date for alleged "off-the-clock" work. The plaintiffs' complaints in both cases demand an unspecified amount of back wages, statutory penalties, declaratory and injunctive relief, punitive damages, interest, and attorneys' fees and costs. The plaintiffs have yet to file a motion for class certification, as the parties have agreed to mediation in May 2009. Should further litigation prove necessary following the mediation, management believes that the Company has meritorious defenses both to class certification and to liability.

Various governmental entities are studying the title insurance product, pricing, business practices, and potential regulatory and legislative changes. The Company receives inquiries and requests for information from state insurance departments, attorneys general and other regulatory agencies from time to time about various matters relating to its business. Sometimes these take the form of civil investigative subpoenas. The Company attempts to cooperate with all such inquiries. From time to time, the Company is assessed fines for violations of regulations or other matters or enters into settlements with such authorities which require the Company to pay money or take other actions.

In January 2007, the State of California adopted regulations that would have significant effects on the title insurance industry in California. The Company, as well as others, has been engaged in discussions with the California Department of Insurance (the "CDI") regarding possible industry reforms that may result in the CDI's decision to modify or repeal the regulations prior to their implementation. On June 17, 2008, the CDI filed with the Office of Administrative Law revised title insurance regulations containing substantial changes to the existing

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

regulations. Hearings on the revised regulations were held in August. The Company, through the California Land Title Association, continues to work with the CDI to refine certain aspects of the proposed regulations, including the statistical reporting provisions.

In conducting its operations, the Company routinely holds customers' assets in escrow, pending completion of real estate transactions. Certain of these amounts are maintained in segregated bank accounts and have not been included in the accompanying Consolidated Balance Sheets. The Company has a contingent liability relating to proper disposition of these balances for our customers, which amounted to \$5.7 billion at December 31, 2008. As a result of holding these customers' assets in escrow, the Company has ongoing programs for realizing economic benefits during the year through favorable borrowing and vendor arrangements with various banks. There were no investments or loans outstanding as of December 31, 2008 and 2007 related to these arrangements.

Future minimum operating lease payments are as follows (dollars in thousands):

2009	\$166,626
2010	125,972
2011	86,451
2012	51,112
2013	23,542
Thereafter	<u>101,580</u>
Total future minimum operating lease payments	<u><u>\$555,283</u></u>

Rent expense incurred under operating leases during the years ended December 31, 2008, 2007 and 2006 was \$141.2 million, \$165.6 million, and \$224.4 million, respectively. Rent expense in 2008 and 2007 includes abandoned lease charges related to office closures of \$23.4 million and \$13.0 million, respectively.

The Company is party to an off-balance sheet financing arrangement (commonly referred to as a "synthetic lease"). The owner/lessor in this arrangement acquired land and various real property improvements associated with new construction of an office building in Jacksonville, Florida, that are part of FNF's corporate campus and headquarters. The lease expires on June 28, 2011, with renewal subject to consent of the lessor and the lenders. The lessor is a third-party limited liability company. The synthetic lease facility provides for amounts up to \$75.0 million. As of December 31, 2008, the full \$75.0 million had been drawn on the facility to finance land costs and related fees and expenses and the outstanding balance was \$70.1 million. The lease includes guarantees by the Company of up to 86.7% of the outstanding lease balance, and options to purchase the facilities at the outstanding lease balance. The guarantee becomes effective if the Company declines to purchase the facilities at the end of the lease and also declines to renew the lease. The lessor financed the acquisition of the facilities through funding provided by third-party financial institutions. The Company has no affiliation or relationship with the lessor or any of its employees, directors or affiliates, and transactions with the lessor are limited to the operating lease agreements and the associated rent expense that have been included in other operating expenses in the Consolidated Statements of Earnings.

The Company does not believe the lessor is a variable interest entity, as defined in FASB Interpretation No. 46R, "Consolidation of Variable Interest Entities" ("FIN 46"). In addition, the Company has verified that even if the lessor was determined to be a variable interest entity, the Company would not have to consolidate the lessor nor the assets and liabilities associated with the assets leased to the Company. This is because the assets leased do not exceed 50% of the total fair value of the lessor's assets excluding any assets that should be excluded from such calculation under FIN 46, nor did the lessor finance 95% or more of the leased balance with non-recourse debt, target equity or similar funding.

M. Regulation and Stockholders' Equity

The Company's insurance subsidiaries, including title insurers, property and casualty insurers, underwritten title companies and insurance agencies, are subject to extensive regulation under applicable state laws. Each of the

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

insurance underwriters is subject to a holding company act in its state of domicile which regulates, among other matters, the ability to pay dividends and enter into transactions with affiliates. The laws of most states in which the Company transacts business establish supervisory agencies with broad administrative powers relating to issuing and revoking licenses to transact business, regulating trade practices, licensing agents, approving policy forms, accounting practices, financial practices, establishing reserve and capital and surplus as regards policyholders (“capital and surplus”) requirements, defining suitable investments for reserves and capital and surplus and approving rate schedules.

Since the Company is governed by both state and federal governments and the applicable insurance laws and regulations are constantly subject to change, it is not possible to predict the potential effects on the Company’s insurance operations, particularly its Fidelity National Title Group segment, of any laws or regulations that may become more restrictive in the future or if new restrictive laws will be enacted. See note L for a description of certain recent regulatory developments in California.

Pursuant to statutory accounting requirements of the various states in which the Company’s insurers are domiciled, these insurers must defer a portion of premiums earned as an unearned premium reserve for the protection of policyholders and must maintain qualified assets in an amount equal to the statutory requirements. The level of unearned premium reserve required to be maintained at any time is determined by statutory formula based upon either the age, number of policies and dollar amount of policy liabilities underwritten, or the age and dollar amount of statutory premiums written. As of December 31, 2008, the combined statutory unearned premium reserve required and reported for the Company’s title insurers was \$2,137.2 million. In addition to statutory unearned premium reserves, each of our insurers maintains reserves for known claims and surplus funds for policyholder protection and business operations.

Each of the Company’s insurance subsidiaries is regulated by the insurance regulatory authority in its respective state of domicile, as well as that of each state in which it is licensed. The insurance commissioners of their respective states of domicile are the primary regulators of the Company’s title insurance subsidiaries. Each of the insurers is subject to periodic regulatory financial examination by regulatory authorities, and certain of these examinations are currently ongoing.

The Company’s insurance subsidiaries are subject to regulations that restrict their ability to pay dividends or make other distributions of cash or property to their immediate parent company without prior approval from the Department of Insurance of their respective states of domicile. As of December 31, 2008, \$1,547.4 million of the Company’s net assets are restricted from dividend payments without prior approval from the Departments of Insurance. During 2009, the Company’s title insurers can pay or make distributions to the Company of approximately \$214.7 million, without prior approval.

The combined statutory capital and surplus of the Company’s title insurers was \$634.9 million and \$652.6 million as of December 31, 2008 and 2007, respectively. The combined statutory net earnings of the Company’s title insurance subsidiaries were \$170.9 million (excluding the LFG Underwriters), \$204.8 million, and \$413.8 million for the years ended December 31, 2008, 2007, and 2006, respectively.

As a condition to continued authority to underwrite policies in the states in which the Company’s insurers conduct their business, the insurers are required to pay certain fees and file information regarding their officers, directors and financial condition. In addition, the Company’s escrow and trust business is subject to regulation by various state banking authorities.

Pursuant to statutory requirements of the various states in which the Company’s insurers are domiciled, such insurers must maintain certain levels of minimum capital and surplus. Each of the Company’s underwriters has complied with the minimum statutory requirements as of December 31, 2008.

The Company’s underwritten title companies are also subject to certain regulation by insurance regulatory or banking authorities, primarily relating to minimum net worth. Minimum net worth requirements for each underwritten title company are as follows: \$7.5 million for Fidelity National Title Company, \$2.5 million for Fidelity National Title Company of California, \$3.0 million for Chicago Title Company, \$0.4 million for Tigor

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Title Company of California, Commonwealth Land Title Company, Lawyers Title Company, and Gateway Title Company, and \$0.1 million for Napa Valley Title. All of the Company's underwritten title companies are in compliance with all of their respective minimum net worth requirements at December 31, 2008.

On October 25, 2006, our Board of Directors approved a three-year stock repurchase program under which the Company can repurchase up to 25 million shares of its common stock. The Company may make purchases from time to time in the open market, in block purchases or in privately negotiated transactions, depending on market conditions and other factors. The Company began purchasing shares under this program on a regular basis on April 30, 2007 and, through December 31, 2008, the Company has repurchased a total of 12,840,470 shares for \$229.1 million, or an average of \$17.84 per share. This includes 3,165,470 shares repurchased in 2008 for \$46.0 million, or \$14.53 per share and 9,675,000 shares repurchased in 2007 for a total of \$183.1 million, or \$18.93 per share. Shares repurchased in 2007 include 1,000,000 shares which the Company purchased from its Chairman of the Board, William P. Foley, II. In August 2007, Mr. Foley planned to sell 1,000,000 shares of FNF stock on the open market. Because the Company was actively purchasing shares of treasury stock on the open market at the same time, the Company agreed to purchase 1,000,000 shares from Mr. Foley on August 8, 2007, for \$22.1 million, or \$22.09 per share, the market price at the time of the purchase. The Company did not repurchase any shares under this plan during 2006.

N. Employee Benefit Plans

Stock Purchase Plan

During the three-year period ended December 31, 2008, eligible employees of the Company and its subsidiaries could voluntarily participate in employee stock purchase plans ("ESPPs") sponsored by the Company and its subsidiaries. Pursuant to the ESPPs, employees may contribute an amount between 3% and 15% of their base salary and certain commissions. The Company and its subsidiaries contribute varying amounts as specified in the ESPPs.

The Company and its subsidiaries contributed \$15.2 million, \$17.2 million, and \$24.5 million to the ESPPs in the years ended December 31, 2008, 2007, and 2006, respectively, in accordance with the employer's matching contribution.

401(k) Profit Sharing Plan

During the three-year period ended December 31, 2008, the Company and its subsidiaries have offered their employees the opportunity to participate in 401(k) profit sharing plans (the "401(k) Plans"), qualified voluntary contributory savings plans which are available to substantially all Fidelity employees. Eligible employees may contribute up to 40% of their pretax annual compensation, up to the amount allowed pursuant to the Internal Revenue Code. During the years ended December 31, 2007 and 2006, the Company and its subsidiaries matched 50% of each dollar of employee contribution up to six percent of the employee's total compensation. There was no employer match for the year ended December 31, 2008. The Company's contributions to the 401(k) Plans for the years ended December 31, 2007 and 2006 were \$22.8 million, and \$39.5 million, respectively.

Stock Option Plans

In connection with the 2005 distribution of FNT stock by Old FNF, the Company established the FNT 2005 Omnibus Incentive Plan (the "Omnibus Plan") authorizing the issuance of up to 8 million shares of common stock, subject to the terms of the Omnibus Plan. On October 23, 2006, the stockholders of FNT approved an amendment to increase the number of shares available for issuance under the Omnibus Plan by 15.5 million shares. The increase was in part to provide capacity for options and restricted stock to be issued to replace Old FNF options and restricted stock. The Omnibus Plan provides for the grant of stock options, stock appreciation rights, restricted stock, restricted stock units and performance shares, performance units, other cash and stock-based awards and dividend equivalents. As of December 31, 2008, there were 2,252,300 shares of restricted stock and 23,219,283 stock options outstanding under this plan.

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

On October 24, 2006, as part of the closing of the 2006 Distribution and spin-off from Old FNF, the Company granted options and restricted stock to replace Old FNF options and Old FNF restricted stock to its employees. The Company issued approximately 10.0 million options with a weighted average strike price of \$10.47 per share to replace 5.0 million outstanding Old FNF options granted out of the historical FNF plans in an intrinsic value swap. The Company also issued approximately 0.7 million shares of restricted stock to employees as part of the distribution and to replace Old FNF restricted stock. During 2006, at the closing of the 2006 Distribution the Company also granted 790,000 shares of restricted stock to certain executive officers and the board of directors. Subsequent to the closing of the 2006 Distribution, the Company also granted 754,500 shares of restricted stock to other officers and employees and 2,116,500 options to other officers and employees.

A detail of Old FNF option activity from December 31, 2005 through the closing of the 2006 Distribution transaction on October 24, 2006 is as follows:

	<u>Options</u>	<u>Weighted Average Exercise Price</u>	<u>Exercisable</u>
Balance, December 31, 2005	15,890,293	\$18.47	11,480,299
Granted	183,500	39.20	
Exercised	(8,403,694)	12.40	
Cancelled	<u>(204,894)</u>	38.15	
Balance, October 24, 2006	<u>7,465,205</u>	\$24.19	5,017,779

Following the closing of the 2006 Distribution on October 24, former Old FNF options and restricted stock held by employees of the Company were converted in an intrinsic value swap to options and restricted stock of the Company as noted above. Options and restricted stock held by FIS employees were converted into FIS options and restricted stock.

Stock option transactions under the Current Omnibus Plan for 2006, 2007, and 2008 were as follows:

	<u>Options</u>	<u>Weighted Average Exercise Price</u>	<u>Exercisable</u>
Balance, December 31, 2005	2,206,500	\$21.90	—

The Company accounts for stock-based compensation plans in accordance with SFAS No. 123R, “Share-Based Payment” (“SFAS 123R”), which requires that compensation cost relating to share-based payments be recognized in the Company’s consolidated financial statements based on the fair value of each award. Using the fair value method of accounting, compensation cost is measured based on the fair value of the award at the grant date and recognized over the service period. SFAS 123R required the recording of expense relating to the vesting of all unvested options beginning in the first quarter of 2006. The adoption of SFAS 123R on January 1, 2006 had no material impact on the Company’s income before income taxes, net income, cash flow from operations, cash flow from financing activities, or basic or diluted earnings per share in 2006 due to the fact that all options accounted for using the intrinsic value method under Accounting Principles Board Opinion No. 25, “Accounting for Stock Issued to Employees,” were fully vested as of December 31, 2005. Net earnings reflect stock-based compensation expense amounts of \$32.7 million, \$29.9 million, and \$65.0 million, for the years ended December 31, 2008, 2007, and

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

2006, respectively, which are included in personnel costs in the reported financial results of each period. Included in the 2006 amount is a \$24.5 million charge related to the vesting of performance based options at FIS for which the vesting criteria was met during the first quarter and a \$0.3 million charge for accelerated vesting, which was approved by the compensation committee, of stock options and restricted stock shares granted to a director who resigned from the board of directors in the third quarter of 2006.

Old FNF options granted prior to the closing of the 2006 Distribution

The risk free interest rate used in the calculation was the rate that corresponded to the weighted average expected life of an option. For options granted in 2006, the Company used a risk free interest rate of 4.9%, a volatility factor for the expected market price of the common stock of 28%, an expected dividend yield of 2.6%, and a weighted average expected live of 4.1 years. The weighted average fair value of each option granted during 2006 was \$9.25 (\$4.66 as adjusted for the 2006 Distribution intrinsic value conversion).

FNF options granted from the 2005 Omnibus Plan

The risk free interest rates used in the calculation are the rates that correspond to the weighted average expected life of an option. For options granted in the years ended December 31, 2008, 2007, and 2006, the Company used risk free interest rates of 2.5%, 3.8%, and 4.6%, respectively, volatility factors for the expected market price of the common stock of 40%, 29%, and 29%, respectively, expected dividend yields of 4.0%, 5.0%, and 5.1%, respectively, and weighted average expected lives of 5.0 years, 4.4 years, and 4.4 years, respectively. The weighted average fair value of each option granted in the years ended December 31, 2008, 2007, and 2006, were \$1.87, \$2.36, and \$4.23, respectively.

At December 31, 2008, the total unrecognized compensation cost related to non-vested stock option grants and restricted stock grants was \$49.8 million, which is expected to be recognized in pre-tax income over a weighted average period of 1.58 years.

Pension Plans

In connection with the Chicago Title merger, the Company assumed Chicago Title's noncontributory defined contribution plan and noncontributory defined benefit pension plan (the "Pension Plan").

The Pension Plan covers certain Chicago Title employees. The benefits are based on years of service and the employee's average monthly compensation in the highest 60 consecutive calendar months during the 120 months ending at retirement or termination. Effective December 31, 2000, the Pension Plan was frozen and there will be no future credit given for years of service or changes in salary.

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

The following table sets forth the funded status of the Pension Plan and amounts reflected in the Company's Consolidated Balance Sheets as of December 31, 2008, 2007 and 2006:

	<u>2008</u>	<u>2007</u>	<u>2006</u>
	(Dollars in thousands)		
Change in Benefit Obligation:			
Net benefit obligation at beginning of year	\$149,670	\$158,258	\$162,875
Effects of change in actuarial assumptions	(1,866)	(7,212)	(3,970)
Interest cost	9,008	8,876	8,780
Actuarial loss	844	2,667	1,856
Gross benefits paid	<u>(12,682)</u>	<u>(12,919)</u>	<u>(11,283)</u>
Net benefit obligation at end of year	<u>\$144,974</u>	<u>\$149,670</u>	<u>\$158,258</u>
Change in Pension Plan Assets:			
Fair value of plan assets at beginning of year	\$142,546	\$126,991	\$112,636
Actual return on plan assets	(25,600)	11,373	13,511
Employer contributions	3,842	17,101	12,127
Gross benefits paid	<u>(12,682)</u>	<u>(12,919)</u>	<u>(11,283)</u>

Pension Assumptions

Weighted-average assumptions used to determine benefit obligations at December 31 are as follows:

	<u>2008</u>	<u>2007</u>
Discount rate	6.25%	6.25%
Rate of compensation increase	N/A(a)	N/A(a)

Weighted-average assumptions used to determine net expense for years ended December 31, are as follows:

	<u>2008</u>	<u>2007</u>	<u>2006</u>
Discount rate	6.25%	5.75%	5.50%
Expected return on plan assets	8.5%	8.5%	8.5%
Rate of compensation increase	N/A(a)	N/A(a)	N/A(a)

(a) Rate of compensation increase is not applicable due to the pension being frozen at December 31, 2000.

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

The discount rate used was determined by discounting projections of future benefit payments using annual spot rates from the Citigroup Pension Discount Curve. The discounted cash flows were then used to determine the effective discount rate.

Pension Plan Assets

The expected long term rate of return on plan assets was 8.5% for the years ended December 31, 2008 and 2007, derived using the plan's asset mix, historical returns by asset category, expectations for future capital market performance, and the fund's past experience. Both the plan's investment policy and the expected long-term rate of return assumption are reviewed periodically. The Company's strategy is to focus on a one to three-year investment horizon, targeting equity securities at 65% of total assets. The remainder of the portfolio is invested in fixed income securities and cash equivalents in a liability driven investment strategy that intends to match the duration of the fixed income investments to the duration of the plan's liabilities.

The Company's pension plan asset allocation at December 31, 2008 and 2007 and target allocation for 2009 are as follows:

<u>Asset Category</u>	<u>Target Allocation 2009</u>	<u>Percentage of Plan Assets</u>	
		<u>2008</u>	<u>2007</u>
Equity securities	65%	65.2%	56.8%
Liability driven investment	35%	24.9	—
Debt securities		—	34.4
Insurance annuities		7.0	5.4
Other (Cash)	1-3%	2.9	3.4
Total		<u>100.0%</u>	<u>100.0%</u>

The Company does not hold any investments in its own equity securities within its pension plan assets.

Pension Plan Cash Flows

Plan Contributions

The Company's funding policy is to contribute annually at least the minimum required contribution under the Employee Retirement Income Security Act (ERISA). Contributions are intended to provide not only for benefits accrued to date, but also for those expected to be earned in the future. In 2008, 2007 and 2006, the Company made contributions of \$3.8 million, \$17.1 million, and \$12.1 million, respectively.

Plan Benefit Payments

A detail of actual and expected benefit payments is as follows (in thousands):

Actual Benefit Payments:	
2007	\$12,919
2008	12,682
Expected Future Payments:	
2009	\$12,682
2010	10,859

2012	11,161
2013	11,558
2014-2018	87,091

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Postretirement Plans

The Company assumed certain health care and life insurance benefits for retired Chicago Title employees in connection with the Chicago Title merger. Beginning on January 1, 2001, these benefits were offered to all employees who meet specific eligibility requirements. The costs of these benefit plans are accrued during the periods the employees render service.

The Company is both self-insured and fully insured for its postretirement health care and life insurance benefit plans, and the plans are not funded. The health care plans provide for insurance benefits after retirement and are generally contributory, with contributions adjusted annually. Postretirement life insurance benefits are primarily contributory, with coverage amounts declining with increases in a retiree's age.

The accrued cost of the accumulated postretirement benefit obligation included in the Company's Consolidated Balance Sheets at December 31, 2008, 2007 and 2006 is as follows:

	<u>2008</u>	<u>2007</u>	<u>2006</u>
	(Dollars in thousands)		
Change in Benefit Obligation:			
Net benefit obligation at beginning of year	\$ 17,294	\$ 19,912	\$ 18,235
Service cost	—	—	43
Interest cost	946	990	1,099
Plan participants' contributions	1,173	1,567	1,631
Plan amendments	—	2,768	(2,420)
Actuarial (gain) loss	(1,040)	(5,073)	4,185
Gross benefits paid	<u>(3,078)</u>	<u>(2,870)</u>	<u>(2,861)</u>
Net benefit obligation at end of year	<u>\$ 15,295</u>	<u>\$ 17,294</u>	<u>\$ 19,912</u>
Change in Plan Assets:			
Fair value of plan assets at beginning of year	\$ —	\$ —	\$ —
Employer contributions	1,905	1,303	1,230
Plan participants' contributions	1,173	1,567	1,631
Gross benefits paid	<u>(3,078)</u>	<u>(2,870)</u>	<u>(2,861)</u>
Fair value of plan assets at end of year	<u>\$ —</u>	<u>\$ —</u>	<u>\$ —</u>
Funded status at end of year	\$(15,295)	\$(17,294)	\$(19,912)
Unrecognized net actuarial loss	—	—	—
Unrecognized prior service cost	<u>—</u>	<u>—</u>	<u>—</u>
Net accrued cost of accumulated postretirement benefit obligation included in accounts payable and accrued liabilities	<u>\$(15,295)</u>	<u>\$(17,294)</u>	<u>\$(19,912)</u>

Pursuant to SFAS 158, the Company's measurement date is December 31.

Pursuant to SFAS 158 for this fiscal year end, the liability recorded on the Company's balance sheet at December 31, 2008 and 2007 is equal to the funded status.

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

The Company's postretirement health care and life insurance costs included in the results of operations for 2008, 2007 and 2006 are as follows:

	<u>2008</u>	<u>2007</u>	<u>2006</u>
	(Dollars in thousands)		
Service cost	\$ —	\$ —	\$ 43
Interest cost	946	990	1,099

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Postretirement Benefit Assumptions

Weighted-average assumptions used to determine benefit obligations at December 31 are as follows:

	<u>2008</u>	<u>2007</u>
Discount rate	5.75%	5.75%
Health care cost trend rate assumed for next year	8.5%	9%
Rate that the cost trend rate gradually declines to	5%	5%
Year that the rate reaches the rate it is assumed to remain at	2016	2012

Weighted-average assumptions used to determine net expense for years ended December 31, are as follows:

	<u>2008</u>	<u>2007</u>	<u>2006</u>
Discount rate	5.75%	5.75%	5.50%
Health care cost trend rate assumed for next year	9%	10%	11%
Rate that the cost trend rate gradually declines to	5%	5%	5%
Year that the rate reaches the rate it is assumed to remain at	2012	2012	2012

The discount rate used was determined by discounting projections of future benefit payments using annual spot rates derived from a yield curve created from yields on a large number of U.S. Aa rated bonds. The discounted cash flows were then used to determine the effective discount rate.

Assumed health care cost trend rates have a significant effect on the amounts reported for the health care plans. A one-percentage-point change in assumed health care cost trend rates would have the following effects:

	<u>One-Percentage-Point Increase</u>	<u>One-Percentage-Point Decrease</u>
(Dollars in thousands)		
Effect on total of service and interest cost	\$ 53	\$ (48)
Effect on postretirement benefit obligation	786	(701)

Postretirement Benefit Cash Flows

A detail of actual and expected benefit payments is as follows (in thousands):

Benefit Payments:	
2007	\$1,303
2008	1,905
Expected Future Payments:	
2009	\$1,990
2010	2,003
2011	1,987
2012	1,887
2013	1,738
2014-2018	5,690

LFG Underwriters' Nonqualified Benefit Plans

In connection with the acquisition of the LFG Underwriters, the Company assumed certain of the LFG Underwriters' nonqualified benefit plans. These plans provide various postretirement benefits to certain executives and retirees. The aggregate benefit obligation for these plans is \$7.3 million at December 31, 2008.

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

O. Supplementary Cash Flow Information

The following supplemental cash flow information is provided with respect to interest and tax payments, as well as certain non-cash investing and financing activities.

	Year Ended December 31,		
	2008	2007	2006
	(Dollars in thousands)		
Cash paid (received) during the year:			
Interest	\$ 64,406	\$ 53,897	\$ 57,636
Income taxes	(37,388)	86,918	354,711
Non-cash investing and financing activities:			
Liabilities assumed in connection with acquisitions:			
Fair value of assets acquired	\$1,645,402	\$416,431	\$396,738
Less: Total purchase price	<u>243,241</u>	<u>245,825</u>	<u>290,091</u>
Liabilities assumed	<u>\$1,402,161</u>	<u>\$170,606</u>	<u>\$106,647</u>

P. Financial Instruments with Off-Balance Sheet Risk and Concentration of Risk

In the normal course of business the Company and certain of its subsidiaries enter into off-balance sheet credit arrangements associated with certain aspects of its title insurance business and other activities.

The Company generates a significant amount of title insurance premiums in California, Texas, Florida, and New York. Title insurance premiums as a percentage of the total title insurance premiums written from those four states are detailed as follows:

	2008	2007	2006
California	17.6%	16.5%	17.6%
Texas	12.5%	12.6%	11.2%
Florida	7.7%	10.8%	13.8%
New York	7.4%	8.0%	7.8%

Financial instruments that potentially subject the Company to concentrations of credit risk consist primarily of cash equivalents, short-term investments, and trade receivables.

The Company places its cash equivalents and short-term investments with high credit quality financial institutions and, by policy, limits the amount of credit exposure with any one financial institution. Investments in commercial paper of industrial firms and financial institutions are rated investment grade by nationally recognized rating agencies.

Concentrations of credit risk with respect to trade receivables are limited because a large number of geographically diverse customers make up the Company's customer base, thus spreading the trade receivables credit risk. The Company controls credit risk through monitoring procedures.

The activities of the reportable segments include the following:

Fidelity National Title Group

This segment consists of the operation of FNF's title insurance underwriters and related businesses. This segment provides core title insurance and escrow and other title related services including collection and trust activities, trustee's sales guarantees, recordings and reconveyances.

Specialty Insurance

This segment consists of certain subsidiaries that issue flood, home warranty, homeowners, automobile, and other personal lines insurance policies.

Corporate and Other

The corporate and other segment consists of the operations of the parent holding company, certain other unallocated corporate overhead expenses, other smaller operations, and the Company's share in the operations of certain equity investments, including Sedgwick, Ceridian and Remy. During the year ended December 31, 2008, the Company recorded a \$4.0 million impairment charge to an intangible asset in the corporate and other segment.

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Fidelity National Information Services, Inc.

Through October 23, 2006, the Company's results also included the operations of FIS as a separate segment. This segment provided transaction processing services, consisting principally of technology solutions for banks and other financial institutions, credit and debit card services and check risk management and related services for retailers and others. This segment also provided lender processing services, consisting principally of technology solutions for mortgage lenders, selected mortgage origination services such as title agency and closing services, default management and mortgage information services. FIS's credit and debit card services and check risk management services were added through its merger with Certegy Inc. ("Certegy"). This merger closed in February 2006 and as a result these businesses are not included in FIS's financial information prior to the closing.

R. Recent Accounting Pronouncements

In January 2009, the Financial Accounting Standards Board ("FASB") issued FASB Staff Position ("FSP") EITF 99-20-1, "Amendments to the Impairment Guidance of EITF Issue No. 99-20." ("FSP EITF 99-20-1") FSP EITF 99-20-1 provides guidance in determining whether or not certain beneficial interests in securitized financial assets are other-than-temporarily impaired and allows an entity to use reasonable management judgment in its evaluation of potential impairment of such assets. FSP EITF 99-20-1 is effective for interim and annual reporting periods ending after December 15, 2008. The Company has adopted this standard with no material impact on its financial position or results of operations.

In December 2008, the FASB issued FSP FAS 132(R)-1, "Employer's Disclosures about Postretirement Benefit Plan Assets." ("FSP FAS 123(R)-1") FSP FAS 123(R)-1 amends SFAS No. 132(R), "Employers' Disclosures about Pensions and Other Postretirement Benefits — An Amendment of FASB Statements No. 87,88 and 106." FSB FAS 123(R)-1 requires additional disclosures about plan assets, including investment strategies, major categories of plan assets, concentrations of risks within plan assets, inputs and valuation techniques used to measure fair value of plan assets, and the effect of fair value measurements using significant unobservable inputs on changes in plan assets for the period. FSP FAS 123(R)-1 is effective for fiscal years ending after December 15, 2009. The Company does not expect the adoption of this standard to have an effect on its financial position and results of operations.

In November 2008, the FASB ratified the consensus reached by the EITF in EITF Issue No. 08-6, "*Equity Method Investment Accounting Considerations*" ("EITF 08-6"). EITF 08-6 clarifies the accounting for certain transactions and impairment considerations involving equity method investments. EITF 08-6 is effective for fiscal years beginning after December 15, 2008, with early adoption prohibited. The Company is in the process of evaluating the impact of EITF 08-6 on its consolidated financial position or results of operations.

In October 2008, the FASB issued FSP FAS 157-3, "Determining the Fair Value of a Financial Asset When the Market for That Asset Is Not Active" ("FSP FAS 157-3") to clarify the application of SFAS No. 157, "Fair Value Measurements," in an inactive market. FSP FAS 157-3 was effective immediately upon issuance and applies to financial statements that were not yet issued at that time. The Company has adopted this standard with no material effect on its financial position or results of operations.

In June 2008, the FASB issued FASB Staff Position EITF 03-6-1, "Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities" ("FSP EITF 03-6-1"). FSP EITF 03-6-1 requires unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents to be treated as participating securities, which means that they would be included in the earnings allocation in computing earnings per share under a two-class method described in Statement of Financial Accounting Standards ("SFAS") No. 128, "Earnings Per Share."

In May 2008, the FASB issued SFAS No. 162, "The Hierarchy of Generally Accepted Accounting Principles" ("SFAS 162"). SFAS 162 identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles in the United States. The FASB has concluded that the

FIDELITY NATIONAL FINANCIAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

generally accepted accounting principles hierarchy should reside in the accounting literature established by the FASB and issued SFAS 162 to achieve that result. SFAS 162 will become effective 60 days following the Securities and Exchange Commission's approval of the Public Company Accounting Oversight Board's amendments to AU Section 411, "The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles." Such approval was granted on September 16, 2008, making the effective date November 15, 2008. Management has adopted SFAS 162 with no material effects in the Company's statements of financial condition or operations.

In April 2008, the FASB issued FSP 142-3, "*Determination of the Useful Life of Intangible Assets*" ("FSP SFAS 142-3"). FSP SFAS 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS 142, "Goodwill and Other Intangible Assets." FSP SFAS 142-3 applies to intangible assets that are acquired individually or with a group of other assets acquired in business combinations and asset acquisitions. FSP SFAS 142-3 also requires expanded disclosure related to the determination of intangible asset useful lives. FSP SFAS 142-3 is effective for fiscal years beginning after December 15, 2008. The Company is in the process of evaluating the impact of FSP SFAS 142-3 on its consolidated financial position and results of operations.

In December 2007, the FASB issued SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements — an amendment of ARB No. 51" ("SFAS 160"), requiring noncontrolling interests (sometimes called minority interests) to be presented as a component of equity on the balance sheet. SFAS 160 also requires that the amount of net income attributable to the parent and to the noncontrolling interests be clearly identified and presented on the face of the consolidated statement of income. This statement eliminates the need to apply purchase accounting when a parent company acquires a noncontrolling ownership interest in a subsidiary and requires that, upon deconsolidation of a subsidiary, a parent company recognize a gain or loss in net income after which any retained noncontrolling interest will be reported at fair value. SFAS 160 requires expanded disclosures in the consolidated financial statements that identify and distinguish between the interests of the parent's owners and the interest of the noncontrolling owners of subsidiaries. SFAS 160 is effective for periods beginning on or after December 15, 2008 and will be applied prospectively except for the presentation and disclosure requirements, which will be applied retrospectively for all periods presented. Management has implemented SFAS 160 effective January 1, 2009, with no material impact to the Company's statements of financial position or operations except for the changes in presentation as noted above.

In December 2007, the FASB issued SFAS No. 141 (revised 2007), "Business Combinations" ("SFAS 141(R)"), requiring an acquirer in a business combination to recognize the assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree at their fair values at the acquisition date, with limited exceptions. The costs of the acquisition and any related restructuring costs will be recognized separately. Assets and liabilities arising from contingencies in a business combination are to be recognized at their fair value at the acquisition date and adjusted prospectively as new information becomes available. When the fair value of assets acquired exceeds the fair value of consideration transferred plus any noncontrolling interest in the acquiree, the excess will be recognized as a gain. Under SFAS 141(R), all business combinations will be accounted for by applying the acquisition method, including combinations among mutual entities and combinations by contract alone. SFAS 141(R) is effective for periods beginning on or after December 15, 2008. The Company has adopted SFAS 141(R) and is applying it to business combinations occurring subsequent to December 31, 2008.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" ("SFAS 159"), which permits entities to choose to measure financial instruments and certain other items at fair value that are not currently required to be measured at fair value. SFAS 159 mandates certain financial statement presentation and disclosure requirements when a company elects to report assets and liabilities at fair value under SFAS 159. SFAS 159 is effective as of January 1, 2008 for calendar year entities and the Company has adopted SFAS 159 as of that date with no material effects on the Company's statements financial position or operations.

Item 9. *Changes in and Disagreements with Accountants on Accounting and Financial Disclosure*

None.

Item 9A. *Controls and Procedures*

As of the end of the year covered by this report, the Company carried out an evaluation, under the supervision and with the participation of its principal executive officer and principal financial officer, of the effectiveness of the design and operation of its disclosure controls and procedures, as such term is defined in Rule 13a-15(e) under the Exchange Act. Based on this evaluation, the Company's principal executive officer and principal financial officer concluded that its disclosure controls and procedures are effective to provide reasonable assurance that its disclosure controls and procedures will timely alert them to material information required to be included in the Company's periodic SEC reports.

There were no changes in our internal control over financial reporting that occurred during the quarter ended December 31, 2008 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f). Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting. Management has adopted the framework in *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on our evaluation under this framework, our management concluded that our internal control over financial reporting was effective as of December 31, 2008. The effectiveness of our internal control over financial reporting as of December 31, 2008 has been audited by KPMG LLP, an independent registered public accounting firm, as stated in their report which is included herein.

Management's assessment of the effectiveness of our internal control over financial reporting as of December 31, 2008 excluded the LFG Underwriters acquired at the end of 2008. The total assets of \$1.8 billion and total revenue post-acquisition of \$46 million of the LFG Underwriters represent 21% of our consolidated total assets and 1% of our consolidated total revenue as of and for the year ended December 31, 2008, respectively. Registrants are permitted to exclude acquisitions from their assessment of internal control over financial reporting during the first year if, among other circumstances and factors, there is not adequate time between the consummation date of the acquisition and the assessment date for assessing internal controls.

Item 9B. *Other Information*

None.

PART III

Items 10-14.

Within 120 days after the close of its fiscal year, the Company intends to file with the Securities and Exchange Commission a definitive proxy statement pursuant to Regulation 14A of the Securities Exchange Act of 1934 as amended, which will include the matters required by these items.

PART IV

Item 15. Exhibits, Financial Statement Schedules and Reports on Form 8-K

(a) (1) *Financial Statements*. The following is a list of the Consolidated Financial Statements of Fidelity National Financial, Inc. and its subsidiaries included in Item 8 of Part II:

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders
Fidelity National Financial, Inc.:

Under date of March 2, 2009, we reported on the Consolidated Balance Sheets of Fidelity National Financial, Inc. and subsidiaries as of December 31, 2008 and 2007, and the related Consolidated Statements of Earnings, Comprehensive Earnings, Stockholders' Equity and Cash Flows for each of the years in the three-year period ended December 31, 2008, as contained in the Annual Report on Form 10-K for the year 2008. In connection with our audits of the aforementioned Consolidated Financial Statements, we also audited the related financial statement schedules as listed under Item 15(a)2. These financial statement schedules are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statement schedules based on our audits.

In our opinion, such financial statement schedules, when considered in relation to the basic Consolidated Financial Statements taken as a whole, present fairly, in all material respects, the information set forth therein.

As discussed in Note J to the Consolidated Financial Statements, effective January 1, 2007, the Company adopted the recognition and disclosure provisions of Financial Accounting Standards Board Interpretation No. 48, "Accounting for Uncertainty in Income Taxes — an interpretation of FASB Statement No. 109."

SCHEDULE II

**FIDELITY NATIONAL FINANCIAL, INC.
(Parent Company)**

A. Summary of Significant Accounting Policies

Fidelity National Financial, Inc. (the “Company”) transacts substantially all of its business through its subsidiaries. The Parent Company Financial Statements should be read in connection with the aforementioned Consolidated Financial Statements and Notes thereto included elsewhere herein.

B. Notes Payable

Notes payable consist of the following:

	December 31,	
	2008	2007
	(Dollars in thousands)	
Unsecured notes, net of discount, interest payable semi-annually at 5.25%, due March 2013	\$ 249,217	\$ 249,033
Unsecured notes, net of discount, interest payable semi-annually at 7.3%, due August 2011	241,081	240,981
Syndicated credit agreement, unsecured, interest due monthly at LIBOR plus 0.36% (3.53% at December 31, 2008), unused portion \$515 million at December 31, 2008	585,000	535,000
Subordinated note payable to LandAmerica Financial Group, Inc., interest payable annually at 2.36%, due December 2013	50,000	—
	<u>\$1,125,298</u>	<u>\$1,025,014</u>

C. Supplemental Cash Flow Information

	Year Ended December 31,		
	2008	2007	2006
	(Dollars in thousands)		
Cash paid (received) during the year:			
Interest paid	\$ 50,305	\$ 37,700	\$ 35,292
Income taxes (received) paid	(47,403)	(38,119)	185,678

On December 22, the Company, along with two of its subsidiaries, Chicago Title Insurance Company and Fidelity National Title Insurance Company (“FNTIC”), completed the acquisition of certain title insurance subsidiaries from LandAmerica Financial Group, Inc. (“LFG”). The purchase price of one of these subsidiaries, Lawyers Title Insurance Corporation (“Lawyers”), included a \$50 million subordinated note from the Company due in 2013 (see note B), and \$50 million of the Company’s common stock (3,176,620 shares valued at \$15.74 per share at the time of closing). Immediately subsequent to the acquisition, the Company contributed its ownership interest in Lawyers to FNTIC.

D. Cash Dividends Received

The Company has received cash dividends from subsidiaries and affiliates of \$0.2 billion, \$0.4 billion, and \$0.4 billion during the years ended December 31, 2008, 2007, and 2006, respectively.

Performance Graph

Set forth below is a graph comparing cumulative total stockholder return on the Company's common stock against the cumulative total return on the S & P 500 Index and against the cumulative total return of a peer group index consisting of certain companies in the primary industry in which the Company competes (SIC code 6361 — Title Insurance) for the period ending December 31, 2008. This peer group consists of the following companies: First American Corporation, LandAmerica Financial Group, Inc. and Stewart Information Services Corp. The peer group comparison has been weighted based on the Company's stock market capitalization. The graph assumes an initial investment of \$100.00 on October 18, 2005, with dividends reinvested over the periods indicated.
