Black Knight

- Total revenue of \$220 million, led by Servicing Technology revenue of approximately \$155 million
- Revenue growth of 12% for the fourth quarter compared to the prior year period legacy LPS results, led by Data and Analytics, RealEC and Servicing Technology
- Adjusted EBITDA of \$96 million and adjusted EBITDA margin of 43.0%, a 70 basis point sequential margin improvement from the third quarter of 2014

"This was a strong finish to a great year for our title insurance business," said Chairman William P. Foley, II. "Despite a continued sluggish real estate market, we achieved a 14.1% pre-tax title margin for the fourth quarter, more than a 14.3% pre-tax title margin for the last three quarters of 2014 and a 12.5% pre-tax title margin for the full-year 2014. Overall, we are proud of the financial results we posted in our title business in 2014 and we remain confident in our ability to generate a 15%-20% pre-tax title margin in an improving real estate market.

"Black Knight had another impressive quarter, generating 12% revenue growth and an adjusted EBITDA margin of 43%, a 70 basis point sequential margin improvement from the third quarter of 2014. We remain excited about the organic revenue growth opportunity at Black Knight, as the sales pipeline is strong across our technology and data and analytics businesses as we enter 2015. We also announced the initial filing of a Black Knight IPO registration statement with the SEC in December and are working towards having Black Knight operate as an FNF majority-owned, publicly-traded company in 2015."

Use of Non-GAAP Financial Information

Generally Accepted Accounting Principles (GAAP) is the term used to refer to the standard framework of guidelines for financial accounting. GAAP includes the standards, conventions, and rules accountants follow in recording and summarizing transactions and in the preparation of financial statements. In addition to reporting financial results in accordance with GAAP, the Company has provided non-GAAP financial measures, which it believes are useful to help investors better understand its financial performance, competitive position and prospects for the future. These non-GAAP measures include earnings before interest, taxes and depreciation and amortization (EBITDA), adjusted earnings before interest, taxes and depreciation and amortization (Adjusted EBITDA), adjusted earnings before interest, taxes and depreciation as a percent of adjusted revenue (Adjusted EBITDA margin), adjusted net earnings, adjusted EPS and free cash flow.

Any non-GAAP measures should be considered in context with the GAAP financial presentation and should not be considered in isolation or as a substitute for GAAP net earnings. Further, FNF's non-GAAP measures may be calculated differently from similarly titled measures of other companies. Reconciliations of these non-GAAP measures to related GAAP measures are provided below.

Forward-Looking Statements and Risk Factors

This press release contains forward-looking statements that involve a number of risks and uncertainties. Statements that are not historical facts, including statements regarding our expectations, hopes, intentions or strategies regarding the future are forward-looking statements. Forward-looking statements are based on management's beliefs, as well as assumptions made by, and information currently available to, management. Because such statements are based on expectations as to future financial and operating results and are not statements of fact, actual results may differ materially from those projected. The risks and uncertainties which forward-looking statements are subject to include, but are not limited to: changes in general economic, business and political conditions, including changes in the financial markets; weakness or adverse changes in the level of real estate activity, which may be caused by, among other things, high or increasing interest rates, a limited supply of mortgage funding or a weak U. S. economy; our potential inability to find suitable acquisition candidates, acquisitions in lines of business that will not necessarily be limited to our traditional areas of focus, or difficulties in integrating acquisitions; our dependence on distributions from our title insurance underwriters as a main source of cash flow; significant competition that our operating subsidiaries face; compliance with extensive government regulation of our operating subsidiaries.

This press release should be read in conjunction with the press release filed for the results of FNFV on this same date as well as the risks detailed in the "Statement Regarding Forward-Looking Information," "Risk Factors" and other sections of the Company's Form 10-Q, 10-K and other filings with the Securities and Exchange Commission.

"We completed several monetization events at FNFV this quarter," said Chairman William P. Foley, II. "The sale of Comdata for Fleetcor common shares has brought FNFV an attractive, liquid investment in an innovative, industry-leading company. The tax-free distribution of Remy common shares provided a tax efficient monetization event for our shareholders. The J. Alexander's spin-off will make it a publicly traded common stock that will provide liquidity and a market valuation for that business. We also announced a 10 million share stock repurchase authorization during the fourth quarter and have repurchased approximately 539,000 shares to date. We also intend to use FNFV holding company liquidity to pursue a Dutch tender auction offer to repurchase up to 12 million shares of FNFV common stock. More details will be forthcoming at the launch of the tender offer."

Use of Non-GAAP Financial Information

Generally Accepted Accounting Principles (GAAP) is the term used to refer to the standard framework of guidelines for financial accounting. GAAP includes the standards, conventions, and rules accountants follow in recording and summarizing transactions and in the preparation of financial statements. In addition to reporting financial results in accordance with GAAP, the Company has provided non-GAAP financial measures, which it believes are useful to help investors better understand its financial performance, competitive position and prospects for the future. These non-GAAP measures include earnings before interest, taxes and depreciation and amortization (EBITDA), adjusted earnings before interest, taxes and depreciation and amortization (Adjusted EBITDA), adjusted earnings before interest, taxes and depreciation as a percent of adjusted revenue (Adjusted EBITDA margin), adjusted net earnings, adjusted EPS and free cash flow.

Any non-GAAP measures should be considered in context with the GAAP financial presentation and should not be considered in isolation or as a substitute for GAAP net earnings. Further, FNF's non-GAAP measures may be calculated differently from similarly titled measures of other companies. Reconciliations of these non-GAAP measures to related GAAP measures are provided below.

Statements that are not historical facts, including statements regarding our expectations, hopes, intentions or strategies regarding the future are forward-looking statements. Forward-looking statements are based on management's beliefs, as well as assumptions made by, and information currently available to, management. Because such statements are based on expectations as to future financial and operating results and are not statements of fact, actual results may differ materially from those projected. We undertake no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise. The risks and uncertainties which forward-looking statements are subject to include, but are not limited to: changes in general economic, business and political conditions, including changes in the financial markets; weakness or adverse changes in the level of real estate activity, which may be caused by, among other things, high or increasing interest rates, a limited supply of mortgage funding or a weak U. S. economy; our potential inability to find suitable acquisition candidates, acquisitions in lines of business that will not necessarily be limited to our traditional areas of focus, or difficulties in integrating acquisitions; our dependence on distributions from our title insurance underwriters as a main source of cash flow; significant competition that our operating subsidiaries face; compliance with extensive government regulation of our operating subsidiaries.

This press release should be read in conjunction with the press release filed for the results of FNF on this same date as well as the risks detailed in the “Statement Regarding Forward-Looking Information,” “Risk Factors” and other sections of the Company’s Form 10-Q,10-K and other filings with the Securities and Exchange Commission.
